Note: This information is collected by the U.S. Department of Labor (DOL) as part of a wage survey under the authority of the DavisBacon and Related Acts (DBRA). The information will be used to determine prevailing wage rates that will be the required minimum rates of pay for workers on construction projects covered by the DBRA. The submission of wage data is strongly encouraged but is voluntary. The use of this specific form to submit the requested wage data is also optional; respondents may use an alternate form if all the required information is included. There is no penalty for not submitting the requested wage data, but low participation in a wage survey could result in missing classifications on DBRA wage determinations or non-publication of a new wage determination for a covered area. The identity of the respondent will be kept confidential to the maximum extent possible under existing law. OMB No. 1235-0015. Expires XX/XX/XXXX. Rev. XX/XXXX. Agencies may not conduct a collection of information unless it displays a currently valid OMB control number. DOL estimates that the public reporting burden for this collection of information will average 20 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S-3502, 200 Constitution Avenue, N.W., Washington, DC 20210 and reference the OMB Control Number.
