

JUSTIFICATION FOR NONMATERIAL CHANGE

TITLE: Report of Construction Contractor's Wage Rates

OMB control number 1235-0015

The Department submitted a proposed revision of this collection on March 23, 2023 to add a new platform for data collection and a new collection instrument (WD-10 and WD-10A). OMB approved the revision on April 24, 2023. At the time of submission, the Department noted that “if OMB approves the new WD-10A form, the Department intends to work with the Census Bureau to add an optional paper version of the form that comports with the electronic platform (absent functionality such as drop downs) and submit for OMB approval. The paper form will only be mailed upon request; otherwise, the respondent will be directed to either complete the electronic version or download the form.”

Following approval by OMB, the Department contacted the Census Bureau to create the paper form that comports to the previously approved electronic platform and now submits the paper form for approval.
