DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2018-0067]

Privacy Act of 1974; System of Records.

AGENCY: Department of Homeland Security.

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security (DHS) proposes to modify a current DHS system of records titled “DHS/ALL-007 Accounts Payable System of Records.” This system of records allows DHS to collect and maintain payment records. DHS is updating this system of records notice (SORN) to change the system location and clarify the authorities for which the records are collected. DHS is also expanding the categories of records collected by including invoices, receipts, and bank account numbers. DHS is modifying routine use E and adding routine use F to this SORN to comply with Office of Management and Budget (OMB) Memorandum M-17-12. Routine use L is also being modified to account for sharing payment information with the Department of Treasury to determine an individual’s eligibility to receive federal payments. Additionally, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice.

DATES: Submit comments on or before January 22, 2019. This modified system will be effective upon publication. New or modified routine uses will be effective January 22, 2019.

SUPPLEMENTARY INFORMATION:

I. Background

DHS is modifying and reissuing DHS/ALL-007 Accounts Payable SORN. DHS uses records covered by this SORN to meet its obligation to manage Departmental funds and ensure that DHS pays its creditors, including DHS employees for travel related reimbursements, and ensures that DHS has an accurate accounting of money it owes. DHS is updating this SORN to provide notice that the location of financial management activities for all DHS Components will be housed at DHS facilities and on DHS information systems, instead of the Department of Interior as was stated in the previous SORN. DHS is also clarifying its authorities to collect accounts payable information.

The Department is expanding the categories of records contained in this SORN to include bank account information, invoices, and receipts, to more accurately reflect the financial records needed by DHS to verify monies owed and track payments to individuals. Further, routine use E is being modified and routine use F is being added to be in conformity with OMB Memorandum M-17-12. Routine Use L is being modified to incorporate information sharing with the Department of Treasury’s “Do Not Pay” program, which determines federal eligibility for dispersment of payments by checking death records, federal debt records, and lists of sanctioned individuals. Additionally, this notice includes non-substantive changes to simplify the formatting and text of the previously published notice.

This system of records does not include information to enable travel service providers under contract to the Federal Government to authorize, issue, or account for travel and travel reimbursements provided to individuals

on official Federal Government business, which are covered under GSA/GOVT-4 Contracted Travel Services Program, 74 FR 26700 (June 3, 2009), and GSA/GOVT-4 Contracted Travel Services Program, 74 FR 28048 (June 12, 2009).

Consistent with DHS’s information sharing mission, information stored in the DHS/ALL-007 Accounts Payable system of records may be shared with other DHS Components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS may share information with appropriate federal, state, local, tribal, territorial, foreign, and international government agencies, members of the public, and other entities consistent with the routine uses set forth in this system of records notice. This updated system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which Federal Government agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Additionally, the Judicial Redress Act (JRA) provides covered persons with a statutory right to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. In addition, the JRA prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act.

Below is a description of the DHS/ALL-007 Accounts Payable System of Records. In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this revised system of records to the Office of Management and Budget and to Congress.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. DHS has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Chief Privacy Officer and Headquarters or Component's Freedom of Information Act (FOIA) Officer, whose contact

information can be found at <http://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one Component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act Officer, Department of Homeland Security, Washington, DC 20528-0655. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about you may be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his or her identity, meaning that the individual must provide his or her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <http://www.dhs.gov/foia> or 1-866-431-0486. In addition, the individual should:

- Explain why he or she believes the Department would have information on him or her;
- Identify which Component(s) of the Department the individual believes may have the information about him or her;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS Component agency may have responsive records.

If an individual's request is seeking records pertaining to another living individual, the person seeking the records must include a statement from the subject individual certifying his or her agreement for the requestor to access his or her records.

Without the above information, the Component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered JRA records, individuals may make a request for amendment or

correction of a record of the Department about the individual by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each particular record in question, state the amendment or correction desired, and state why the individual believes that the record is not accurate, relevant, timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record.

NOTIFICATION PROCEDURES:

See "Record Access Procedures."

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
