

Description of Non-Substantive Changes to VA Form 40-10088, Casket and Urn

The Department of Veterans Affairs (VA) National Cemetery Administration (NCA) is updating existing VA Form 40-10088, Casket and Urn to implement changes proposed in 2900-AR36, Allowance for Caskets and Urns for Unclaimed Remains of Veterans. VA received three comments to the proposed rule which in the final rule we addressed noting no changes will be made to the regulatory text or form based on comment.

This form expires on July 31, 2023 and is due for renewal. To avoid dual tracking the form edits and duplicating OMB's review of the same form, NCA has drafted this change document that explains NCA is finalizing the proposed rule and changes to the form, and will also make additional technical, non-substantive text edits not affecting the burden numbers. NCA implemented this approach in a previous rulemaking to avoid duplication of OMB reviews of the same form but wanted to confirm this is OK before NCA proceeds with submitting an ICR change in ROCIS.

Additionally, NCA is making the following non-substantive text edits to the form that do not affect burden hours:

a. Current Title: REQUEST FOR REIMBURSEMENT OF CASKET/URN

b. Current Respondent Burden:

RESPONDENT BURDEN: Public reporting burden for this collection of information is estimated to average 10 minutes per response. Statutory authority for casket or urn reimbursement is 38 U.S.C. 2306 for deaths **occurring on or after January 10, 2014 if interred in a VA national cemetery or on or after December 14, 2016 if interred in a VA-funded State or Tribal cemetery.** The information requested is approved under OMB Control Number 2900-0799 and is necessary to allow a person authorized to purchase a casket or urn for the decedent to request reimbursement for the cost of such a burial receptacle. The National Cemetery Administration does not give, sell or transfer any personal information outside of the agency. VA may not conduct or sponsor, and you are not required to respond to, this collection of information unless it displays a valid OMB Control Number. Responding to this collection is voluntary.
