

16 USC CHAPTER 38, SUBCHAPTER III: FOREIGN FISHING AND INTERNATIONAL FISHERY AGREEMENTS

From Title 16—CONSERVATION

CHAPTER 38—FISHERY CONSERVATION AND MANAGEMENT

SUBCHAPTER III—FOREIGN FISHING AND INTERNATIONAL FISHERY AGREEMENTS

§1821. Foreign fishing

(a) In general

After February 28, 1977, no foreign fishing is authorized within the exclusive economic zone, or for anadromous species or Continental Shelf fishery resources beyond the exclusive economic zone, unless such foreign fishing—

- (1) is authorized under subsections (b) or (c) or section 1824(e) of this title, or under a permit issued under section 1824(d) of this title;
- (2) is not prohibited under subsection (f); and
- (3) is conducted under, and in accordance with, a valid and applicable permit issued pursuant to section 1824 of this title.

(b) Existing international fishery agreements

Foreign fishing described in subsection (a) may be conducted pursuant to an international fishery agreement (subject to the provisions of section 1822(b) or (c) of this title), if such agreement—

- (1) was in effect on April 13, 1976; and
- (2) has not expired, been renegotiated, or otherwise ceased to be of force and effect with respect to the United States.

(c) Governing international fishery agreements

Foreign fishing described in subsection (a) may be conducted pursuant to an international fishery agreement (other than a treaty) which meets the requirements of this subsection if such agreement becomes effective after application of section 1823 of this title. Any such international fishery agreement shall hereafter in this chapter be referred to as a "governing international fishery agreement". Each governing international fishery agreement shall acknowledge the exclusive fishery management authority of the United States, as set forth in this chapter. It is the sense of the Congress that each such agreement shall include a binding commitment, on the part of such foreign nation and its fishing vessels, to comply with the following terms and conditions:

- (1) The foreign nation, and the owner or operator of any fishing vessel fishing pursuant to such agreement, will abide by all regulations promulgated by the Secretary pursuant to this chapter, including any regulations promulgated to implement any applicable fishery management plan or any preliminary fishery management plan.
- (2) The foreign nation, and the owner or operator of any fishing vessel fishing pursuant to such agreement, will abide by the requirement that—
 - (A) any officer authorized to enforce the provisions of this chapter (as provided for in section 1861 of this title) be permitted—
 - (i) to board, and search or inspect, any such vessel at any time,
 - (ii) to make arrests and seizures provided for in section 1861(b) of this title whenever such officer has reasonable cause to believe, as a result of such a search or inspection, that any such vessel or any person has committed an act prohibited by section 1857 of this title, and
 - (iii) to examine and make notations on the permit issued pursuant to section 1824 of this title for such vessel;
 - (B) the permit issued for any such vessel pursuant to section 1824 of this title be prominently displayed in the wheelhouse of such vessel;
 - (C) transponders, or such other appropriate position-fixing and identification equipment as the Secretary of the department in which the Coast Guard is operating determines to be appropriate, be installed and maintained in working order on each such vessel;
 - (D) United States observers required under subsection (h) be permitted to be stationed aboard any such vessel and that all of the costs incurred incident to such stationing, including the costs of data editing and entry and observer monitoring, be paid for, in accordance with such subsection, by the owner or operator of the vessel;
 - (E) any fees required under section 1824(b)(10) of this title be paid in advance;
 - (F) agents be appointed and maintained within the United States who are authorized to receive and respond to any legal process issued in the United States with respect to such owner or operator; and
 - (G) responsibility be assumed, in accordance with any requirements prescribed by the Secretary, for the reimbursement of United States citizens for any loss of, or damage to, their fishing vessels, fishing gear, or catch

which is caused by any fishing vessel of that nation;

and will abide by any other monitoring, compliance, or enforcement requirement related to fishery conservation and management which is included in such agreement.

(3) The foreign nation and the owners or operators of all of the fishing vessels of such nation shall not, in any year, harvest an amount of fish which exceeds such nation's allocation of the total allowable level of foreign fishing, as determined under subsection (e).

(4) The foreign nation will—

(A) apply, pursuant to section 1824 of this title, for any required permits;

(B) deliver promptly to the owner or operator of the appropriate fishing vessel any permit which is issued under that section for such vessel;

(C) abide by, and take appropriate steps under its own laws to assure that all such owners and operators comply with, section 1824(a) of this title and the applicable conditions and restrictions established under section 1824(b) (7) of this title; and

(D) take, or refrain from taking, as appropriate, actions of the kind referred to in subsection (e)(1) in order to receive favorable allocations under such subsection.

(d) Total allowable level of foreign fishing

The total allowable level of foreign fishing, if any, with respect to any fishery subject to the exclusive fishery management authority of the United States, is that portion of the optimum yield of such fishery which cannot, or will not, be harvested by vessels of the United States, as determined in accordance with this chapter. Allocations of the total allowable level of foreign fishing are discretionary, except that the total allowable level shall be zero for fisheries determined by the Secretary to have adequate or excess domestic harvest capacity.

(e) Allocation of allowable level

(1)(A) The Secretary of State, in cooperation with the Secretary, may make allocations to foreign nations from the total allowable level of foreign fishing which is permitted with respect to each fishery subject to the exclusive fishery management authority of the United States.

(B) From the determinations made under subparagraph (A), the Secretary of State shall compute the aggregate of all of the fishery allocations made to each foreign nation.

(C) The Secretary of State shall initially release to each foreign nation for harvesting up to 50 percent of the allocations aggregate computed for such nation under subparagraph (B), and such release of allocation shall be apportioned by the Secretary of State, in cooperation with the Secretary, among the individual fishery allocations determined for that nation under subparagraph (A). The basis on which each apportionment is made under this subparagraph shall be stated in writing by the Secretary of State.

(D) After the initial release of fishery allocations under subparagraph (C) to a foreign nation, any subsequent release of an allocation for any fishery to such nation shall only be made—

(i) after the lapse of such period of time as may be sufficient for purposes of making the determination required under clause (ii); and

(ii) if the Secretary of State and the Secretary, after taking into account the size of the allocation for such fishery and the length and timing of the fishing season, determine in writing that such nation is complying with the purposes and intent of this paragraph with respect to such fishery.

If the foreign nation is not determined under clause (ii) to be in such compliance, the Secretary of State shall reduce, in a manner and quantity he considers to be appropriate (I) the remainder of such allocation, or (II) if all of such allocation has been released, the next allocation of such fishery, if any, made to such nation.

(E) The determinations required to be made under subparagraphs (A) and (D)(ii), and the apportionments required to be made under subparagraph (C), with respect to a foreign nation shall be based on—

(i) whether, and to what extent, such nation imposes tariff barriers or nontariff barriers on the importation, or otherwise restricts the market access, of both United States fish and fishery products, particularly fish and fishery products for which the foreign nation has requested an allocation;

(ii) whether, and to what extent, such nation is cooperating with the United States in both the advancement of existing and new opportunities for fisheries exports from the United States through the purchase of fishery products from United States processors, and the advancement of fisheries trade through the purchase of fish and fishery products from United States fishermen, particularly fish and fishery products for which the foreign nation has requested an allocation;

(iii) whether, and to what extent, such nation and the fishing fleets of such nation have cooperated with the United States in the enforcement of United States fishing regulations;

(iv) whether, and to what extent, such nation requires the fish harvested from the exclusive economic zone for its domestic consumption;

(v) whether, and to what extent, such nation otherwise contributes to, or fosters the growth of, a sound and economic United States fishing industry, including minimizing gear conflicts with fishing operations of United States fishermen, and transferring harvesting or processing technology which will benefit the United States fishing industry;

(vi) whether, and to what extent, the fishing vessels of such nation have traditionally engaged in fishing in such fishery;

(vii) whether, and to what extent, such nation is cooperating with the United States in, and making substantial contributions to, fishery research and the identification of fishery resources; and

(viii) such other matters as the Secretary of State, in cooperation with the Secretary, deems appropriate.

(2)(A) For the purposes of this paragraph—

(i) The term "certification" means a certification made by the Secretary that nationals of a foreign country, directly or indirectly, are conducting fishing operations or engaging in trade or taking which diminishes the effectiveness of the International Convention for the Regulation of Whaling. A certification under this section shall also be deemed a certification for the purposes of section 1978(a) of title 22.

(ii) The term "remedial period" means the 365-day period beginning on the date on which a certification is issued with respect to a foreign country.

(B) If the Secretary issues a certification with respect to any foreign country, then each allocation under paragraph (1) that—

(i) is in effect for that foreign country on the date of issuance; or

(ii) is not in effect on such date but would, without regard to this paragraph, be made to the foreign country within the remedial period;

shall be reduced by the Secretary of State, in consultation with the Secretary, by not less than 50 percent.

(C) The following apply for purposes of administering subparagraph (B) with respect to any foreign country:

(i) If on the date of certification, the foreign country has harvested a portion, but not all, of the quantity of fish specified under any allocation, the reduction under subparagraph (B) for that allocation shall be applied with respect to the quantity not harvested as of such date.

(ii) If the Secretary notified the Secretary of State that it is not likely that the certification of the foreign country will be terminated under section 1978(d) of title 22 before the close of the period for which an allocation is applicable or before the close of the remedial period (whichever close first occurs) the Secretary of State, in consultation with the Secretary, shall reallocate any portion of any reduction made under subparagraph (B) among one or more foreign countries for which no certification is in effect.

(iii) If the certification is terminated under such section 1978(d) of title 22 during the remedial period, the Secretary of State shall return to the foreign country that portion of any allocation reduced under subparagraph (B) that was not reallocated under clause (ii); unless the harvesting of the fish covered by the allocation is otherwise prohibited under this chapter.

(iv) The Secretary may refund or credit, by reason of reduction of any allocation under this paragraph, any fee paid under section 1824 of this title.

(D) If the certification of a foreign country is not terminated under section 1978(d) of title 22 before the close of the last day of the remedial period, the Secretary of State—

(i) with respect to any allocation made to that country and in effect (as reduced under subparagraph (B)) on such last day, shall rescind, effective on and after the day after such last day, any unharvested portion of such allocation; and

(ii) may not thereafter make any allocation to that country under paragraph (1) until the certification is terminated.

(f) Reciprocity

Foreign fishing shall not be authorized for the fishing vessels of any foreign nation unless such nation satisfies the Secretary and the Secretary of State that such nation extends substantially the same fishing privileges to fishing vessels of the United States, if any, as the United States extends to foreign fishing vessels.

(g) Preliminary fishery management plans

The Secretary, when notified by the Secretary of State that any foreign nation has submitted an application under section 1824(b) of this title shall prepare a preliminary fishery management plan for any fishery covered by such application if the Secretary determines that no fishery management plan for that fishery will be prepared and implemented, pursuant to subchapter IV, before March 1, 1977. To the extent practicable, each such plan—

(1) shall contain a preliminary description of the fishery and a preliminary determination as to—

(A) the optimum yield from such fishery;

(B) when appropriate, the capacity and extent to which United States fish processors will process that portion of such optimum yield that will be harvested by vessels of the United States; and

(C) the total allowable level of foreign fishing with respect to such fishery;

(2) shall require each foreign fishing vessel engaged or wishing to engage in such fishery to obtain a permit from the Secretary;

(3) shall require the submission of pertinent data to the Secretary, with respect to such fishery, as described in section 1853(a)(5) of this title; and

(4) may, to the extent necessary to prevent irreversible effects from overfishing, with respect to such fishery, contain conservation and management measures applicable to foreign fishing which—

(A) are determined to be necessary and appropriate for the conservation and management of such fishery,

- (B) are consistent with the national standards, the other provisions of this chapter, and other applicable law, and
- (C) are described in section 1853(b)(2), (3), (4), (5), and (7) of this title.

Each preliminary fishery management plan shall be in effect with respect to foreign fishing for which permits have been issued until a fishery management plan is prepared and implemented, pursuant to subchapter IV, with respect to such fishery. The Secretary may, in accordance with section 553 of title 5, also prepare and promulgate interim regulations with respect to any such preliminary plan. Such regulations shall be in effect until regulations implementing the applicable fishery management plan are promulgated pursuant to section 1855 of this title.

(h) Full observer coverage program

(1)(A) Except as provided in paragraph (2), the Secretary shall establish a program under which a United States observer will be stationed aboard each foreign fishing vessel while that vessel is engaged in fishing within the exclusive economic zone.

(B) The Secretary shall by regulation prescribe minimum health and safety standards that shall be maintained aboard each foreign fishing vessel with regard to the facilities provided for the quartering of, and the carrying out of observer functions by, United States observers.

(2) The requirement in paragraph (1) that a United States observer be placed aboard each foreign fishing vessel may be waived by the Secretary if he finds that—

(A) in a situation where a fleet of harvesting vessels transfers its catch taken within the exclusive economic zone to another vessel, aboard which is a United States observer, the stationing of United States observers on only a portion of the harvesting vessel fleet will provide a representative sampling of the by-catch of the fleet that is sufficient for purposes of determining whether the requirements of the applicable management plans for the by-catch species are being complied with;

(B) in a situation where the foreign fishing vessel is operating under a Pacific Insular Area fishing agreement, the Governor of the applicable Pacific Insular Area, in consultation with the Western Pacific Council, has established an observer coverage program or other monitoring program that the Secretary, in consultation with the Western Pacific Management Council, determines is adequate to monitor harvest, bycatch, and compliance with the laws of the United States by vessels fishing under the agreement;

(C) the time during which a foreign fishing vessel will engage in fishing within the exclusive economic zone will be of such short duration that the placing of a United States observer aboard the vessel would be impractical; or

(D) for reasons beyond the control of the Secretary, an observer is not available.

(3) Observers, while stationed aboard foreign fishing vessels, shall carry out such scientific, compliance monitoring, and other functions as the Secretary deems necessary or appropriate to carry out the purposes of this chapter; and shall cooperate in carrying out such other scientific programs relating to the conservation and management of living resources as the Secretary deems appropriate.

(4) In addition to any fee imposed under section 1824(b)(10) of this title and section 1980(e) of title 22 with respect to foreign fishing for any year after 1980, the Secretary shall impose, with respect to each foreign fishing vessel for which a permit is issued under such section 1824 of this title, a surcharge in an amount sufficient to cover all the costs of providing a United States observer aboard that vessel. The failure to pay any surcharge imposed under this paragraph shall be treated by the Secretary as a failure to pay the permit fee for such vessel under section 1824(b)(10) of this title. All surcharges collected by the Secretary under this paragraph shall be deposited in the Foreign Fishing Observer Fund established by paragraph (5).

(5) There is established in the Treasury of the United States the Foreign Fishing Observer Fund. The Fund shall be available to the Secretary as a revolving fund for the purpose of carrying out this subsection. The Fund shall consist of the surcharges deposited into it as required under paragraph (4). All payments made by the Secretary to carry out this subsection shall be paid from the Fund, only to the extent and in the amounts provided for in advance in appropriation Acts. Sums in the Fund which are not currently needed for the purposes of this subsection shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

(6) If at any time the requirement set forth in paragraph (1) cannot be met because of insufficient appropriations, the Secretary shall, in implementing a supplementary observer program:

(A) certify as observers, for the purposes of this subsection, individuals who are citizens or nationals of the United States and who have the requisite education or experience to carry out the functions referred to in paragraph (3);

(B) establish standards of conduct for certified observers equivalent to those applicable to Federal personnel;

(C) establish a reasonable schedule of fees that certified observers or their agents shall be paid by the owners and operators of foreign fishing vessels for observer services; and

(D) monitor the performance of observers to ensure that it meets the purposes of this chapter.

(i) Recreational fishing

Notwithstanding any other provision of this subchapter, foreign fishing vessels which are not operated for profit may engage in recreational fishing within the exclusive economic zone and the waters within the boundaries of a State subject to obtaining such permits, paying such reasonable fees, and complying with such conditions and restrictions as the Secretary and the Governor of the State (or his designee) shall impose as being necessary or appropriate to insure that the fishing activity of such foreign vessels within such zone or waters, respectively, is consistent with all applicable Federal and State laws and any applicable fishery management plan implemented under section 1854 of this title. The

Secretary shall consult with the Secretary of State and the Secretary of the Department in which the Coast Guard is operating in formulating the conditions and restrictions to be applied by the Secretary under the authority of this subsection.

- (3) may negotiate boundary agreements as provided for in subsection (d);
- (4) shall, upon the request of and in cooperation with the Secretary, initiate and conduct negotiations for the purpose of entering into international fishery agreements—
 - (A) which allow fishing vessels of the United States equitable access to fish over which foreign nations assert exclusive fishery management authority, and
 - (B) which provide for the conservation and management of anadromous species and highly migratory species; and
- (5) may enter into such other negotiations, not prohibited by subsection (c), as may be necessary and appropriate to further the purposes, policy, and provisions of this chapter.

(b) Treaty renegotiation

The Secretary of State, in cooperation with the Secretary, shall initiate, promptly after April 13, 1976, the renegotiation of any treaty which pertains to fishing within the exclusive economic zone (or within the area that will constitute such zone after February 28, 1977), or for anadromous species or Continental Shelf fishery resources beyond such zone or area, and which is in any manner inconsistent with the purposes, policy, or provisions of this chapter, in order to conform such treaty to such purposes, policy, and provisions. It is the sense of Congress that the United States shall withdraw from any such treaty, in accordance with its provisions, if such treaty is not so renegotiated within a reasonable period of time after April 13, 1976.

(c) International fishery agreements

No international fishery agreement (other than a treaty) which pertains to foreign fishing within the exclusive economic zone (or within the area that will constitute such zone after February 28, 1977), or for anadromous species or Continental Shelf fishery resources beyond such zone or area—

- (1) which is in effect on June 1, 1976, may thereafter be renewed, extended, or amended; or
- (2) may be entered into after May 31, 1976;

by the United States unless it is in accordance with the provisions of section 1821(c) of this title or section 1824(e) of this title.

The Secretary of State, in cooperation with the Secretary, may initiate and conduct negotiations with any adjacent or opposite foreign nation to establish the boundaries of the exclusive economic zone of the United States in relation to any such nation.

(e) Highly migratory species agreements

(1) Evaluation

The Secretary of State, in cooperation with the Secretary, shall evaluate the effectiveness of each existing international fishery agreement which pertains to fishing for highly migratory species. Such evaluation shall consider whether the agreement provides for—

- (A) the collection and analysis of necessary information for effectively managing the fishery, including but not limited to information about the number of vessels involved, the type and quantity of fishing gear used, the species of fish involved and their location, the catch and bycatch levels in the fishery, and the present and probable future condition of any stock of fish involved;
- (B) the establishment of measures applicable to the fishery which are necessary and appropriate for the conservation and management of the fishery resource involved;
- (C) equitable arrangements which provide fishing vessels of the United States with (i) access to the highly migratory species that are the subject of the agreement and (ii) a portion of the allowable catch that reflects the traditional participation by such vessels in the fishery;
- (D) effective enforcement of conservation and management measures and access arrangements throughout the area of jurisdiction; and
- (E) sufficient and dependable funding to implement the provisions of the agreement, based on reasonable assessments of the benefits derived by participating nations.

(4) Negotiation

The Secretary of State, in consultation with the Secretary, shall undertake such negotiations with respect to international fishery agreements on highly migratory species as are necessary to correct inadequacies identified as a result of the evaluation conducted under paragraph (1).

(5) South Pacific tuna treaty

It is the sense of the Congress that the United States Government shall, at the earliest opportunity, begin negotiations for the purpose of extending the Treaty on Fisheries Between the Governments of Certain Pacific Island States and the Government of the United States of America, signed at Port Moresby, Papua New Guinea, April 2, 1987, and its ¹ Annexes, Schedules, and implementing agreements for an additional term of 10 years on terms and conditions at least as favorable to vessels of the United States and the United States Government.

(f) Nonrecognition

It is the sense of the Congress that the United States Government shall not recognize the claim of any foreign nation to an exclusive economic zone (or the equivalent) beyond such nation's territorial sea, to the extent that such sea is recognized by the United States, if such nation—

- (1) fails to consider and take into account traditional fishing activity of fishing vessels of the United States;
- (2) fails to recognize and accept that highly migratory species are to be managed by applicable international fishery agreements, whether or not such nation is a party to any such agreement; or
- (3) imposes on fishing vessels of the United States any conditions or restrictions which are unrelated to fishery conservation and management.

(g) Fishery agreement with Russia

(1) The Secretary of State, in consultation with the Secretary, is authorized to negotiate and conclude a fishery agreement with Russia of a duration of no more than 3 years, pursuant to which—

- (C) catch data shall be made available to the government of the country exercising fisheries jurisdiction over the waters in which the catch occurred; and
- (D) each country shall have the right to place observers on board vessels of the other country and to board and inspect such vessels.

(2) Vessels operating under a fishery agreement negotiated and concluded pursuant to paragraph (1) shall be subject to regulations and permit requirements of the country in whose waters the fisheries are conducted only to the extent such regulations and permit requirements are specified in that agreement.

(3) The Secretary of Commerce may promulgate such regulations, in accordance with section 553 of title 5, as may be necessary to carry out the provisions of any fishery agreement negotiated and concluded pursuant to paragraph (1).

(h) Bycatch reduction agreements

(1) The Secretary of State, in cooperation with the Secretary, shall seek to secure an international agreement to establish standards and measures for bycatch reduction that are comparable to the standards and measures applicable to United States fishermen for such purposes in any fishery regulated pursuant to this chapter for which the Secretary, in consultation with the Secretary of State, determines that such an international agreement is necessary and appropriate.

- (2) An international agreement negotiated under this subsection shall be—
 - (A) consistent with the policies and purposes of this chapter; and

Such agreements shall provide for—

"(1) the use of a sufficient number of vessels from which scientists of the United States and the foreign governments may observe and gather statistically reliable information; and

"(2) appropriate methods for sharing equally the costs associated with such activities.

"(b) REPORT.—The Secretary, in consultation with the Secretary of State, shall provide to the Congress not later than 1 year after the date of enactment of this Act [Dec. 29, 1987] a full report on the results of negotiations under this section.

§1824. Permits for foreign fishing

(a) In general

After February 28, 1977, no foreign fishing vessel shall engage in fishing within the exclusive economic zone, or for anadromous species or Continental Shelf fishery resources beyond such zone, unless such vessel has on board a valid permit issued under this section for such vessel.

(b) Applications and permits under governing international fishery agreements**(1) Eligibility; duration**

Each foreign nation with which the United States has entered into a governing international fishery agreement shall submit an application to the Secretary of State each year for a permit for each of its fishing vessels that wishes to engage in fishing described in subsection (a). No permit issued under this section may be valid for longer than a year; and section 558(c) of title 5 does not apply to the renewal of any such permit.

(2) Forms

The Secretary, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall prescribe the forms for permit applications submitted under this subsection and for permits issued pursuant to any such application.

(3) Contents

Any application made under this subsection shall specify—

- (A) the name and official number or other identification of each fishing vessel for which a permit is sought, together with the name and address of the owner thereof;
- (B) the tonnage, hold capacity, speed, processing equipment, type and quantity of fishing gear, and such other pertinent information with respect to characteristics of each such vessel as the Secretary may require;
- (C) each fishery in which each such vessel wishes to fish;
- (D) the estimated amount of tonnage of fish which will be caught, taken, or harvested in each such fishery by each such vessel during the time the permit is in force;
- (E) the amount or tonnage of United States harvested fish, if any, which each such vessel proposes to receive at sea from vessels of the United States;
- (F) the ocean area in which, and the season or period during which, such fishing will be conducted; and
- (G) all applicable vessel safety standards imposed by the foreign country, and shall include written certification that the vessel is in compliance with those standards;

and shall include any other pertinent information and material which the Secretary may require.

(4) Transmittal for action

Upon receipt of any application which complies with the requirements of paragraph (3), the Secretary of State shall publish a notice of receipt of the application in the Federal Register. Any such notice shall summarize the contents of the applications from each nation included therein with respect to the matters described in paragraph (3). The Secretary of State shall promptly transmit—

- (A) such application, together with his comments and recommendations thereon, to the Secretary;
- (B) a copy of the application to the Secretary of the department in which the Coast Guard is operating; and
- (C) a copy or a summary of the application to the appropriate Council.

(5) Action by Council

After receiving a copy or summary of an application under paragraph (4)(C), the Council may prepare and submit to the Secretary such written comments on the application as it deems appropriate. Such comments shall be submitted within 45 days after the date on which the application is received by the Council and may include recommendations with respect to approval of the application and, if approval is recommended, with respect to appropriate conditions and restrictions thereon. Any interested person may submit comments to such Council with respect to any such application. The Council shall consider any such comments in formulating its submission to the Secretary.

(6) Approval

(A) After receipt of any application transmitted under paragraph (4)(A), the Secretary shall consult with the Secretary of State and, with respect to enforcement, with the Secretary of the department in which the Coast Guard is operating. The Secretary, after taking into consideration the views and recommendations of such Secretaries, and any comments submitted by any Council under paragraph (5), may approve, subject to subparagraph (B), the application, if he determines that the fishing described in the application will meet the requirements of this chapter, or he may disapprove all or any portion of the application.

(B)(i) In the case of any application which specifies that one or more foreign fishing vessels propose to receive at sea United States harvested fish from vessels of the United States, the Secretary may approve the application unless the Secretary determines, on the basis of the views, recommendations, and comments referred to in subparagraph (A) and other pertinent information, that United States fish processors have adequate capacity, and will utilize such capacity, to process all United States harvested fish from the fishery concerned.

(ii) The amount or tonnage of United States harvested fish which may be received at sea during any year by foreign fishing vessels under permits approved under this paragraph may not exceed that portion of the optimum

yield of the fishery concerned which will not be utilized by United States fish processors.

(iii) In deciding whether to approve any application under this subparagraph, the Secretary may take into account, with respect to the foreign nation concerned, such other matters as the Secretary deems appropriate.

(7) Establishment of conditions and restrictions

The Secretary shall establish conditions and restrictions which shall be included in each permit issued pursuant to any application approved under paragraph (6) or subsection (d) and which must be complied with by the owner or operator of the fishing vessel for which the permit is issued. Such conditions and restrictions shall include the following:

(A) All of the requirements of any applicable fishery management plan, or preliminary fishery management plan, and any applicable Federal or State fishing regulations.

(B) The requirement that no permit may be used by any vessel other than the fishing vessel for which it is issued.

(C) The requirements described in section 1821(c)(1), (2), and (3) of this title.

(D) If the permit is issued other than pursuant to an application approved under paragraph (6)(B) or subsection (d), the restriction that the foreign fishing vessel may not receive at sea United States harvested fish from vessels of the United States.

(E) If the permit is issued pursuant to an application approved under paragraph (6)(B), the maximum amount or tonnage of United States harvested fish which may be received at sea from vessels of the United States.

(F) Any other condition and restriction related to fishery conservation and management which the Secretary prescribes as necessary and appropriate.

(8) Notice of approval

The Secretary shall promptly transmit a copy of each application approved under paragraph (6) and the conditions and restrictions established under paragraph (7) to—

(A) the Secretary of State for transmittal to the foreign nation involved;

(B) the Secretary of the department in which the Coast Guard is operating; and

(C) any Council which has authority over any fishery specified in such application.

(9) Disapproval of applications

If the Secretary does not approve any application submitted by a foreign nation under this subsection, he shall promptly inform the Secretary of State of the disapproval and his reasons therefore. The Secretary of State shall notify such foreign nation of the disapproval and the reasons therefor. Such foreign nation, after taking into consideration the reasons for disapproval, may submit a revised application under this subsection.

(10) Fees

(A) Fees shall be paid to the Secretary by the owner or operator of any foreign fishing vessel for which a permit has been issued pursuant to this section. The Secretary, in consultation with the Secretary of State, shall establish a schedule of reasonable fees that shall apply nondiscriminatorily to each foreign nation.

(B) Amounts collected by the Secretary under this paragraph shall be deposited in the general fund of the Treasury.

(11) Issuance of permits

If a foreign nation notifies the Secretary of State of its acceptance of the conditions and restrictions established by the Secretary under paragraph (7), the Secretary of State shall promptly transmit such notification to the Secretary. Upon payment of the applicable fees established pursuant to paragraph (10), the Secretary shall thereupon issue to such foreign nation, through the Secretary of State, permits for the appropriate fishing vessels of that nation. Each permit shall contain a statement of all conditions and restrictions established under paragraph (7) which apply to the fishing vessel for which the permit is issued.

(c) Registration permits

The Secretary of State, in cooperation with the Secretary, shall issue annually a registration permit for each fishing vessel of a foreign nation which is a party to an international fishery agreement under which foreign fishing is authorized by section 1821(b) of this title and which wishes to engage in fishing described in subsection (a). Each such permit shall set forth the terms and conditions contained in the agreement that apply with respect to such fishing, and shall include the additional requirement that the owner or operator of the fishing vessel for which the permit is issued shall prominently display such permit in the wheelhouse of such vessel and show it, upon request, to any officer authorized to enforce the provisions of this chapter (as provided for in section 1861 of this title). The Secretary of State, after consultation with the Secretary and the Secretary of the department in which the Coast Guard is operating, shall prescribe the form and manner in which applications for registration permits may be made, and the forms of such permits. The Secretary of State may establish, require the payment of, and collect fees for registration permits; except that the level of such fees shall not exceed the administrative costs incurred by him in issuing such permits.

(d) Transshipment permits

(1) Authority to issue permits

The Secretary may issue a transshipment permit under this subsection which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a

point within the exclusive economic zone or, with the concurrence of a State, within the boundaries of that State, to a point outside the United States to any person who—

- (A) submits an application which is approved by the Secretary under paragraph (3); and
- (B) pays a fee imposed under paragraph (7).

(2) Transmittal

Upon receipt of an application for a permit under this subsection, the Secretary shall promptly transmit copies of the application to the Secretary of State, Secretary of the department in which the Coast Guard is operating, any appropriate Council, and any affected State.

(3) Approval of application

The Secretary may approve, in consultation with the appropriate Council or Marine Fisheries Commission, an application for a permit under this section if the Secretary determines that—

- (A) the transportation of fish or fish products to be conducted under the permit, as described in the application, will be in the interest of the United States and will meet the applicable requirements of this chapter;
- (B) the applicant will comply with the requirements described in section 1821(c)(2) of this title with respect to activities authorized by any permit issued pursuant to the application;
- (C) the applicant has established any bonds or financial assurances that may be required by the Secretary; and
- (D) no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated to the Secretary an interest in performing the transportation at fair and reasonable rates.

(4) Whole or partial approval

The Secretary may approve all or any portion of an application under paragraph (3).

(5) Failure to approve application

If the Secretary does not approve any portion of an application submitted under paragraph (1), the Secretary shall promptly inform the applicant and specify the reasons therefor.

(6) Conditions and restrictions

The Secretary shall establish and include in each permit under this subsection conditions and restrictions, including those conditions and restrictions set forth in subsection (b)(7), which shall be complied with by the owner and operator of the vessel for which the permit is issued.

(7) Fees

The Secretary shall collect a fee for each permit issued under this subsection, in an amount adequate to recover the costs incurred by the United States in issuing the permit, except that the Secretary shall waive the fee for the permit if the foreign nation under which the vessel is registered does not collect a fee from a vessel of the United States engaged in similar activities in the waters of such foreign nation.

(e) Pacific Insular Areas

(1) Negotiation of Pacific Insular Area fishery agreements

The Secretary of State, with the concurrence of the Secretary and in consultation with any appropriate Council, may negotiate and enter into a Pacific Insular Area fishery agreement to authorize foreign fishing within the exclusive economic zone adjacent to a Pacific Insular Area—

- (A) in the case of American Samoa, Guam, or the Northern Mariana Islands, at the request and with the concurrence of, and in consultation with, the Governor of the Pacific Insular Area to which such agreement applies; and
- (B) in the case of a Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands, at the request of the Western Pacific Council.

(2) Agreement terms and conditions

A Pacific Insular Area fishery agreement—

- (A) shall not be considered to supersede any governing international fishery agreement currently in effect under this chapter, but shall provide an alternative basis for the conduct of foreign fishing within the exclusive economic zone adjacent to Pacific Insular Areas;
- (B) shall be negotiated and implemented consistent only with the governing international fishery agreement provisions of this subchapter specifically made applicable in this subsection;
- (C) may not be negotiated with a nation that is in violation of a governing international fishery agreement in effect under this chapter;
- (D) shall not be entered into if it is determined by the Governor of the applicable Pacific Insular Area with respect to agreements initiated under paragraph (1)(A), or the Western Pacific Council with respect to agreements initiated under paragraph (1)(B), that such an agreement will adversely affect the fishing activities of the indigenous people of such Pacific Insular Area;
- (E) shall be valid for a period not to exceed three years and shall only become effective according to the procedures in section 1823 of this title; and

(F) shall require the foreign nation and its fishing vessels to comply with the requirements of paragraphs (1), (2), (3) and (4)(A) of section 1821(c) of this title, section 1821(d) of this title, and section 1821(h) of this title.

(3) Permits for foreign fishing

(A) Application for permits for foreign fishing authorized under a Pacific Insular Areas fishing agreement shall be made, considered and approved or disapproved in accordance with paragraphs (3), (4), (5), (6), (7)(A) and (B), (8), and (9) of subsection (b), and shall include any conditions and restrictions established by the Secretary in consultation with the Secretary of State, the Secretary of the department in which the Coast Guard is operating, the Governor of the applicable Pacific Insular Area, and the appropriate Council.

(B) If a foreign nation notifies the Secretary of State of its acceptance of the requirements of this paragraph, paragraph (2)(F), and paragraph (5), including any conditions and restrictions established under subparagraph (A), the Secretary of State shall promptly transmit such notification to the Secretary. Upon receipt of any payment required under a Pacific Insular Area fishing agreement, the Secretary shall thereupon issue to such foreign nation, through the Secretary of State, permits for the appropriate fishing vessels of that nation. Each permit shall contain a statement of all of the requirements, conditions, and restrictions established under this subsection which apply to the fishing vessel for which the permit is issued.

(4) Marine conservation plans

(A) Prior to entering into a Pacific Insular Area fishery agreement, the Western Pacific Council and the appropriate Governor shall develop a 3-year marine conservation plan detailing uses for funds to be collected by the Secretary pursuant to such agreement. Such plan shall be consistent with any applicable fishery management plan, identify conservation and management objectives (including criteria for determining when such objectives have been met), and prioritize planned marine conservation projects. Conservation and management objectives shall include, but not be limited to—

(i) Pacific Insular Area observer programs, or other monitoring programs, that the Secretary determines are adequate to monitor the harvest, bycatch, and compliance with the laws of the United States by foreign fishing vessels that fish under Pacific Insular Area fishing agreements;

(ii) conduct of marine and fisheries research, including development of systems for information collection, analysis, evaluation, and reporting;

(iii) conservation, education, and enforcement activities related to marine and coastal management, such as living marine resource assessments, habitat monitoring and coastal studies;

(iv) grants to the University of Hawaii for technical assistance projects by the Pacific Island Network, such as education and training in the development and implementation of sustainable marine resources development projects, scientific research, and conservation strategies; and

(v) western Pacific community-based demonstration projects under section 112(b) of the Sustainable Fisheries Act and other coastal improvement projects to foster and promote the management, conservation, and economic enhancement of the Pacific Insular Areas.

(B) In the case of American Samoa, Guam, and the Northern Mariana Islands, the appropriate Governor, with the concurrence of the Western Pacific Council, shall develop the marine conservation plan described in subparagraph (A) and submit such plan to the Secretary for approval. In the case of other Pacific Insular Areas, the Western Pacific Council shall develop and submit the marine conservation plan described in subparagraph (A) to the Secretary for approval.

(C) If a Governor or the Western Pacific Council intends to request that the Secretary of State renew a Pacific Insular Area fishery agreement, a subsequent 3-year plan shall be submitted to the Secretary for approval by the end of the second year of the existing 3-year plan.

(5) Reciprocal conditions

Except as expressly provided otherwise in this subsection, a Pacific Insular Area fishing agreement may include terms similar to the terms applicable to United States fishing vessels for access to similar fisheries in waters subject to the fisheries jurisdiction of another nation.

(6) Use of payments by American Samoa, Guam, Northern Mariana Islands

Any payments received by the Secretary under a Pacific Insular Area fishery agreement for American Samoa, Guam, or the Northern Mariana Islands shall be deposited into the United States Treasury and then covered over to the Treasury of the Pacific Insular Area for which those funds were collected. Amounts deposited in the Treasury of a Pacific Insular Area shall be available, without appropriation or fiscal year limitation, to the Governor of the Pacific Insular Area—

(A) to carry out the purposes of this subsection;

(B) to compensate (i) the Western Pacific Council for mutually agreed upon administrative costs incurred relating to any Pacific Insular Area fishery agreement for such Pacific Insular Area, and (ii) the Secretary of State for mutually agreed upon travel expenses for no more than 2 Federal representatives incurred as a direct result of complying with paragraph (1)(A); and

(C) to implement a marine conservation plan developed and approved under paragraph (4).

(7) Western Pacific Sustainable Fisheries Fund

There is established in the United States Treasury a Western Pacific Sustainable Fisheries Fund into which any payments received by the Secretary under a Pacific Insular Area fishery agreement and any funds or contributions received in support of conservation and management objectives under a marine conservation plan for any Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands shall be deposited. The Western Pacific Sustainable Fisheries Fund shall be made available, without appropriation or fiscal year limitation, to the Secretary, who shall provide such funds only to—

- (A) the Western Pacific Council for the purpose of carrying out the provisions of this subsection, including implementation of a marine conservation plan approved under paragraph (4);
- (B) the Secretary of State for mutually agreed upon travel expenses for no more than 2 Federal representatives incurred as a direct result of complying with paragraph (1)(B); and
- (C) the Western Pacific Council to meet conservation and management objectives in the State of Hawaii if monies remain in the Western Pacific Sustainable Fisheries Fund after the funding requirements of subparagraphs (A) and (B) have been satisfied.

Amounts deposited in such fund shall not diminish funding received by the Western Pacific Council for the purpose of carrying out other responsibilities under this chapter.

(8) Use of fines and penalties

In the case of violations occurring within the exclusive economic zone off American Samoa, Guam, or the Northern Mariana Islands, amounts received by the Secretary which are attributable to fines or penalties imposed under this chapter, including such sums collected from the forfeiture and disposition or sale of property seized subject to its authority, after payment of direct costs of the enforcement action to all entities involved in such action, shall be deposited into the Treasury of the Pacific Insular Area adjacent to the exclusive economic zone in which the violation occurred, to be used for fisheries enforcement and for implementation of a marine conservation plan under paragraph (4). In the case of violations by foreign vessels occurring within the exclusive economic zones off Midway Atoll, Johnston Atoll, Kingman Reef, Palmyra Atoll, Jarvis, Howland, Baker, and Wake Islands, amounts received by the Secretary attributable to fines and penalties imposed under this chapter, shall be deposited into the Western Pacific Sustainable Fisheries Fund established under paragraph (7) of this subsection.

REFERENCES IN TEXT

This chapter, referred to in subsecs. (b)(6)(A), (c), (d)(3)(A), and (e)(2)(A), (C), (7), (8), was in the original "this Act", meaning Pub. L. 94–265, Apr. 13, 1976, 90 Stat. 331, known as the Magnuson-Stevens Fishery Conservation and Management Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 1801 of this title and Tables.

Section 112(b) of the Sustainable Fisheries Act, referred to in subsec. (e)(4)(A)(v), is section 112(b) of Pub. L. 104–297, which amended section 1856 of this title. The reference probably should have been to section 111(b) of Pub. L. 104–297 which relates to western Pacific demonstration projects and is set out as a note under section 1855 of this title.

§1825. Import prohibitions

(a) Determinations by Secretary of State

If the Secretary of State determines that—

(1) he has been unable, within a reasonable period of time, to conclude with any foreign nation an international fishery agreement allowing fishing vessels of the United States equitable access to fisheries over which that nation asserts exclusive fishery management authority, including fisheries for tuna species, as recognized by the United States, in accordance with fishing activities of such vessels, if any, and under terms not more restrictive than those established under sections 1821(c) and (d) and 1824(b)(7) and (10) of this title, because such nation has (A) refused to commence negotiations, or (B) failed to negotiate in good faith;

(2) any foreign nation is not allowing fishing vessels of the United States to engage in fishing for tuna species in accordance with an applicable international fishery agreement, whether or not such nation is a party thereto;

(3) any foreign nation is not complying with its obligations under any existing international fishery agreement concerning fishing by fishing vessels of the United States in any fishery over which that nation asserts exclusive fishery management authority; or

(4) any fishing vessel of the United States, while fishing in waters beyond any foreign nation's territorial sea, to the extent that such sea is recognized by the United States, is seized by any foreign nation—

(A) in violation of an applicable international fishery agreement;

(B) without authorization under an agreement between the United States and such nation; or

(C) as a consequence of a claim of jurisdiction which is not recognized by the United States;

he shall certify such determination to the Secretary of the Treasury.

(b) Prohibitions

Upon receipt of any certification from the Secretary of State under subsection (a), the Secretary of the Treasury shall immediately take such action as may be necessary and appropriate to prohibit the importation into the United States—

(1) of all fish and fish products from the fishery involved, if any; and

(2) upon recommendation of the Secretary of State, such other fish or fish products, from any fishery of the foreign nation concerned, which the Secretary of State finds to be appropriate to carry out the purposes of this section.

(c) Removal of prohibition

If the Secretary of State finds that the reasons for the imposition of any import prohibition under this section no longer prevail, the Secretary of State shall notify the Secretary of the Treasury, who shall promptly remove such import prohibition.

(d) Definitions

As used in this section—

(1) The term "fish" includes any highly migratory species.

(2) The term "fish products" means any article which is produced from or composed of (in whole or in part) any fish.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1990 AMENDMENT

Pub. L. 101–627, [title I, §105\(b\)\(2\)](#), Nov. 28, 1990, 104 Stat. 4440, provided that: "The amendments made by this subsection [amending this section] shall take effect on January 1, 1992."

§1826. Large-scale driftnet fishing

(a) Short title

This section incorporates and expands upon provisions of the Driftnet Impact Monitoring, Assessment, and Control Act of 1987 and may be cited as the "Driftnet Act Amendments of 1990".

(b) Findings

The Congress finds that—

(1) the continued widespread use of large-scale driftnets beyond the exclusive economic zone of any nation is a destructive fishing practice that poses a threat to living marine resources of the world's oceans, including but not limited to the North and South Pacific Ocean and the Bering Sea;

(2) the use of large-scale driftnets is expanding into new regions of the world's oceans, including the Atlantic Ocean and Caribbean Sea;

(3) there is a pressing need for detailed and reliable information on the number of seabirds, sea turtles, nontarget fish, and marine mammals that become entangled and die in actively fished large-scale driftnets and in large-scale driftnets that are lost, abandoned, or discarded;

(4) increased efforts, including reliable observer data and enforcement mechanisms, are needed to monitor, assess, control, and reduce the adverse impact of large-scale driftnet fishing on living marine resources;

(5) the nations of the world have agreed in the United Nations, through General Assembly Resolution Numbered 44–225, approved December 22, 1989, by the General Assembly, that a moratorium should be imposed by June 30, 1992, on the use of large-scale driftnets beyond the exclusive economic zone of any nation;

(6) the nations of the South Pacific have agreed to a moratorium on the use of large-scale driftnets in the South Pacific through the Convention for the Prohibition of Fishing with Long Driftnets in the South Pacific, which was agreed to in Wellington, New Zealand, on November 29, 1989;

(7) increasing population pressures and new knowledge of the importance of living marine resources to the health of the global ecosystem demand that greater responsibility be exercised by persons fishing or developing new fisheries beyond the exclusive economic zone of any nation; and

(8) within the exclusive economic zone, large-scale driftnet fishing that deploys nets with large mesh sizes causes significant entanglement and mortality of living marine resources, including myriad protected species, despite limitations on the lengths of such nets.

(c) Policy

It is declared to be the policy of the Congress in this section that the United States should—

(1) implement the moratorium called for by the United Nations General Assembly in Resolution Numbered 44–225;

(2) support the Tarawa Declaration and the Wellington Convention for the Prohibition of Fishing with Long Driftnets in the South Pacific;

(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation; and

(4) prioritize the phase out of large-scale driftnet fishing in the exclusive economic zone and promote the development and adoption of alternative fishing methods and gear types that minimize the incidental catch of living marine resources.

(d) International agreements

The Secretary, through the Secretary of State and the Secretary of the department in which the Coast Guard is operating, shall seek to secure international agreements to implement immediately the findings, policy, and provisions of this section, and in particular an international ban on large-scale driftnet fishing. The Secretary, through the Secretary of State, shall include, in any agreement which addresses the taking of living marine resources of the United States, provisions to ensure that—

(1) each large-scale driftnet fishing vessel of a foreign nation that is party to the agreement, including vessels that may operate independently to develop new fishing areas, which operate beyond the exclusive economic zone of any nation, is included in such agreement;

(2) each large-scale driftnet fishing vessel of a foreign nation that is party to the agreement, which operates beyond the exclusive economic zone of any nation, is equipped with satellite transmitters which provide real-time position information accessible to the United States;

(3) statistically reliable monitoring by the United States is carried out, through the use of on-board observers or through dedicated platforms provided by foreign nations that are parties to the agreement, of all target and nontarget fish species, marine mammals, sea turtles, and sea birds entangled or killed by large-scale driftnets used by fishing vessels of foreign nations that are parties to the agreement;

(4) officials of the United States have the right to board and inspect for violations of the agreement any large-scale driftnet fishing vessels operating under the flag of a foreign nation that is party to the agreement at any time while such vessel is operating in designated areas beyond the exclusive economic zone of any nation;

(5) all catch landed or transshipped at sea by large-scale driftnet fishing vessels of a foreign nation that is a party to the agreement, and which are operated beyond the exclusive economic zone of any nation, is reliably monitored and documented;

(6) time and area restrictions are imposed on the use of large-scale driftnets in order to prevent interception of anadromous species;

(7) all large-scale driftnets used are constructed, insofar as feasible, with biodegradable materials which break into segments that do not represent a threat to living marine resources;

(8) all large-scale driftnets are marked at appropriate intervals in a manner that conclusively identifies the vessel and flag nation responsible for each such driftnet;

(9) the taking of nontarget fish species, marine mammals, sea turtles, seabirds, and endangered species or other species protected by international agreements to which the United States is a party is minimized and does not pose a threat to existing fisheries or the long-term health of living marine resources; and

(10) definitive steps are agreed upon to ensure that parties to the agreement comply with the spirit of other international agreements and resolutions concerning the use of large-scale driftnets beyond the exclusive economic zone of any nation.

(e) Effect on sovereign rights

This section shall not serve or be construed to expand or diminish the sovereign rights of the United States, as stated by Presidential Proclamation Numbered 5030, dated March 10, 1983, and reflected in this chapter or other existing law.

(f) "Living marine resources" defined

As used in this section, the term "living marine resources" includes fish, marine mammals, sea turtles, and seabirds and other waterfowl.

(i) ¹ Fishing gear transition program

(1) In general

During the 5-year period beginning on December 29, 2022, the Secretary shall conduct a transition program to facilitate the phase-out of large-scale driftnet fishing and adoption of alternative fishing practices that minimize the incidental catch of living marine resources, and shall award grants to eligible permit holders who participate in the program.

(2) Permissible uses

Any permit holder receiving a grant under paragraph (1) may use such funds only for the purpose of covering—

(A) any fee originally associated with a permit authorizing participation in a large-scale driftnet fishery, if such permit is surrendered for permanent revocation, and such permit holder relinquishes any claim associated with the permit;

(B) a forfeiture of fishing gear associated with a permit described in subparagraph (A); or

(C) the purchase of alternative gear with minimal incidental catch of living marine resources, if the fishery participant is authorized to continue fishing using such alternative gears.

(3) Certification

The Secretary shall certify that, with respect to each participant in the program under this subsection, any permit authorizing participation in a large-scale driftnet fishery has been permanently revoked and that no new permits will be issued to authorize such fishing.

The Secretary of Homeland Security shall, in accordance with international law—

(A) withhold or revoke the clearance required by section 60105 of title 46 for any large-scale driftnet fishing vessel of a nation that receives a negative certification under section 1826j(d) or 1826k(c) of this title, or fishing vessels of a nation that has been listed pursuant to section 1826j(b) of this title or section 1826k(a) of this title in 2 or more consecutive reports for the same type of fisheries activity, as described under section 1826h of this title, until a positive certification has been received;

(C) deny entry of that vessel to any place in the United States and to the navigable waters of the United States, except for the purposes of inspecting such vessel, conducting an investigation, or taking other appropriate enforcement action.

(3) Notification of nation

Before the publication of a list of nations under paragraph (1), the Secretary of State shall notify each nation included on that list regarding—

(A) the effect of that publication on port privileges of vessels of that nation under paragraph (1); and

(B) any sanctions or requirements, under this Act or any other law, that may be imposed on that nation if nationals or vessels of that nation continue to conduct large-scale driftnet fishing beyond the exclusive economic zone of any nation after December 31, 1992.

(b) Sanctions**(1) Identifications****(A) Initial identifications**

Not later than January 10, 1993, the Secretary of Commerce shall—

(i) identify each nation whose nationals or vessels are conducting large-scale driftnet fishing beyond the exclusive economic zone of any nation; and

(ii) notify the President and that nation of the identification under clause (i).

(B) Additional identifications

At any time after January 10, 1993, whenever the Secretary of Commerce has reason to believe that the nationals or vessels of any nation are conducting large-scale driftnet fishing beyond the exclusive economic zone of any nation, the Secretary of Commerce shall—

(i) identify that nation; and

(ii) notify the President and that nation of the identification under clause (i).

(2) Consultations

Not later than 30 days after a nation is identified under paragraph (1)(B), the President shall enter into consultations with the government of that nation for the purpose of obtaining an agreement that will effect the immediate termination of large-scale driftnet fishing by the nationals or vessels of that nation beyond the exclusive economic zone of any nation.

- (i) any prohibition established under paragraph (3) is insufficient to cause that nation to terminate large-scale driftnet fishing conducted by its nationals and vessels beyond the exclusive economic zone of any nation, or to address the offending activities for which a nation received a negative certification under section 1826j(d) or 1826k(c) of this title; or
- (ii) that nation has retaliated against the United States as a result of that prohibition.

(B) Certification

The Secretary of Commerce shall certify to the President each affirmative determination under subparagraph (A) with respect to a nation.

HIGH SEAS DRIFTNET FISHERIES ENFORCEMENT; CONGRESSIONAL STATEMENT OF FINDINGS AND POLICY

Pub. L. 102–582, [§2, Nov. 2, 1992](#), 106 Stat. 4900, as amended by Pub. L. 104–208, [div. A, title I, §101\(a\) \[title II, §211\(b\)\], Sept. 30, 1996](#), 110 Stat. 3009, [3009-41](#), provided that:

"(a) FINDINGS.—Congress makes the following findings:

"(1) Large-scale driftnet fishing on the high seas is highly destructive to the living marine resources and ocean ecosystems of the world's oceans, including anadromous fish and other living marine resources of the United States.

"(2) The cumulative effects of large-scale driftnet fishing pose a significant threat to the marine ecosystem, and slow-reproducing species like marine mammals, sharks, and seabirds may require many years to recover.

"(3) Members of the international community have reviewed the best available scientific data on the impacts of large-scale pelagic driftnet fishing, and have failed to conclude that this practice has no significant adverse impacts which threaten the conservation and sustainable management of living marine resources.

"(4) The United Nations, via General Assembly Resolutions numbered 44–225, 45–197, and most recently 46–215 (adopted on December 20, 1991), has called for a worldwide moratorium on all high seas driftnet fishing by December 31, 1992, in all the world's oceans, including enclosed seas and semi-enclosed seas.

"(5) The United Nations has commended the unilateral, regional, and international efforts undertaken by members of the international community and international organizations to implement and support the objectives of the General Assembly resolutions.

"(6) Operative paragraph (4) of United Nations General Assembly Resolution numbered 46–215 specifically 'encourages all members of the international community to take measures individually and collectively to prevent large-scale pelagic driftnet fishing operations on the high seas of the world's oceans and seas'.

"(7) The United States, in section 307(1)(M) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1857(1)(M)), has specifically prohibited the practice of large-scale driftnet fishing by United States nationals and vessels both within the exclusive economic zone of the United States and beyond the exclusive economic zone of any nation.

"(8) The Senate, through Senate Resolution 396 of the One Hundredth Congress (approved on March 18, 1988), has called for a moratorium on fishing in the Central Bering Sea and the United States has taken concrete steps to implement such moratorium through international negotiations.

"(9) Despite the continued evidence of a decline in the fishery resources of the Bering Sea and the multiyear cooperative negotiations undertaken by the United States, the Russian Federation, Japan, and other concerned fishing nations, some nations refuse to agree to measures to reduce or eliminate unregulated fishing practices in the waters of the Bering Sea beyond the exclusive economic zones of the United States and the Russian Federation.

"(10) In order to ensure that the global moratorium on large-scale driftnet fishing called for in United Nations General Assembly Resolution numbered 46–215 takes effect by December 31, 1992,

and that unregulated fishing practices in the waters of the Central Bering Sea are reduced or eliminated, the United States should take the actions described in this Act [see Short Title of 1992 Amendments note set out under section 1801 of this title] and encourage other nations to take similar action.

"(b) **POLICY.**—It is the stated policy of the United States to—

"(1) implement United Nations General Assembly Resolution numbered 46–215, approved unanimously on December 20, 1991, which calls for an immediate cessation to further expansion of large-scale driftnet fishing, a 50 percent reduction in existing large-scale driftnet fishing effort by June 30, 1992, and a global moratorium on the use of large-scale driftnets beyond the exclusive economic zone of any nation by December 31, 1992;

"(2) bring about a moratorium on fishing in the Central Bering Sea, or an international conservation and management agreement to which the United States and the Russian Federation are parties that regulates fishing in the Central Bering Sea; and

"(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation."

§1826b. Duration of denial of port privileges and sanctions

Any denial of port privileges or sanction under section 1826a of this title with respect to a nation shall remain in effect until such time as the Secretary of Commerce certifies to the President and the Congress that such nation has terminated large-scale driftnet fishing by its nationals and vessels beyond the exclusive economic zone of any nation or effectively addressed the offending activities for which the nation received a negative certification under 1826j(d) ¹ or 1826k(c) of this title.

(Pub. L. 102–582, [title I, §102](#), Nov. 2, 1992, 106 Stat. 4903; Pub. L. 109–479, [title IV, §403\(b\)\(2\)](#), Jan. 12, 2007, 120 Stat. 3632; Pub. L. 114–81, [title I, §102\(b\)](#), Nov. 5, 2015, 129 Stat. 656.)

(1) Fish and fish products

The term "fish and fish products" means any aquatic species (including marine mammals and plants) and all products thereof exported from a nation, whether or not taken by fishing vessels of that nation or packed, processed, or otherwise prepared for export in that nation or within the jurisdiction thereof.

(2) Large-scale driftnet fishing

Except as provided in subparagraph (B), the term "large-scale driftnet fishing" means a method of fishing in which a gillnet composed of a panel or panels of webbing, or a series of such gillnets, with a total length of two and one-half kilometers or more is placed in the water and allowed to drift with the currents and winds for the purpose of entangling fish in the webbing.

(B) Exception

Until January 1, 1994, the term "large-scale driftnet fishing" does not include the use in the northeast Atlantic Ocean of gillnets with a total length not to exceed five kilometers if the use is in accordance with regulations

adopted by the European Community pursuant to the October 28, 1991, decision by the Council of Fisheries Ministers of the Community.

(3) Large-scale driftnet fishing vessel

The term "large-scale driftnet fishing vessel" means any vessel which is—

- (A) used for, equipped to be used for, or of a type which is normally used for large-scale driftnet fishing; or
- (B) used for aiding or assisting one or more vessels at sea in the performance of large-scale driftnet fishing, including preparation, supply, storage, refrigeration, transportation, or processing.

§1826j. Illegal, unreported, or unregulated fishing

(a) Identification

(1) Identification for actions of fishing vessels

The Secretary shall, based on a cumulative compilation and analysis of data collected and provided by international fishery management organizations and other nations and organizations, identify, and list in the report under section 1826h of this title, a nation if any fishing vessel of that nation is engaged, or has been engaged at any point during the preceding 3 years, in illegal, unreported, or unregulated fishing—

(A) that undermines the effectiveness of measures required by an international fishery management organization, taking into account whether the relevant international fishery management organization has failed to implement effective measures to end the illegal, unreported, or unregulated fishing activity by that nation or the nation is not a party to, or does not maintain cooperating status with, such organization; or

(B) where no international fishery management organization exists with a mandate to regulate the fishing activity in question.

(2) For actions of a nation

The Secretary shall identify, and list in such report, a nation engaging in or endorsing illegal, unreported, or unregulated fishing. In determining which nations to list in such report, the Secretary shall consider the following:

(A) Any nation that is violating, or has violated at any point during the 3 years preceding the date of the determination, conservation and management measures, including catch and other data reporting obligations and requirements, required under an international fishery management agreement to which the United States is a party.

(B) Any nation that is failing, or has failed in the 3-year period preceding the date of the determination, to effectively address or regulate illegal, unreported, or unregulated fishing within its fleets in any areas where its

vessels are fishing.

(C) Any nation that fails to discharge duties incumbent upon it under international law or practice as a flag, port, or coastal state to take action to prevent, deter, and eliminate illegal, unreported, or unregulated fishing.

(D) Any nation that has been identified as producing for export to the United States seafood-related goods through forced labor or oppressive child labor (as those terms are defined in section 11329 of the Don Young Coast Guard Authorization Act of 2022) in the most recent List of Goods Produced by Child Labor or Forced Labor in accordance with the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.).

(3) Application to other entities

Where the provisions of this Act are applicable to nations, they shall also be applicable, as appropriate, to other entities that have competency to enter into international fishery management agreements.

(4) Timing

The Secretary shall make an identification under paragraph (1) or (2) at any time that the Secretary has sufficient information to make such identification.

(b) Notification

The Secretary shall notify the President and that nation of such an identification.

(c) Consultation

No later than 60 days after submitting a report to Congress under section 1826h of this title, the Secretary, acting through the Secretary of State, shall—

- (1) notify nations listed in the report of the requirements of this section;
- (2) initiate consultations for the purpose of encouraging such nations to take the appropriate corrective action with respect to the offending activities of their fishing vessels identified in the report; and
- (3) notify any relevant international fishery management organization of the actions taken by the United States under this section.

(d) IUU certification procedure

(1) Certification

The Secretary shall establish a procedure, consistent with the provisions of subchapter II of chapter 5 of title 5, for determining if a nation identified under subsection (a) and listed in the report under section 1826h of this title has taken appropriate corrective action with respect to the offending activities identified in the report under section 1826h of this title. The certification procedure shall provide for notice and an opportunity for comment by any such nation. The Secretary shall determine, on the basis of the procedure, and certify to the Congress no later than 90 days after the date on which the Secretary promulgates a final rule containing the procedure, and biennially thereafter in the report under section 1826h of this title—

- (A) whether the government of each nation identified under subsection (a) has provided documentary evidence that it has taken corrective action with respect to the offending activities identified in the report; or
- (B) whether the relevant international fishery management organization has implemented measures that are effective in ending the illegal, unreported, or unregulated fishing activity by vessels of that nation.

(2) Alternative procedure

The Secretary may establish a procedure to authorize, on a shipment-by-shipment, shipper-by-shipper, or other basis the importation of fish or fish products from a vessel of a nation issued a negative certification under paragraph

(1) if the Secretary determines that—

- (A) the vessel has not engaged in illegal, unreported, or unregulated fishing under an international fishery management agreement to which the United States is a party; or
- (B) the vessel is not identified by an international fishery management organization as participating in illegal, unreported, or unregulated fishing activities.

(3) Effect of certification determination

(A) Effect of negative certification

The provisions of subsection (a) and paragraphs (3) and (4) of subsection (b) of section 1826a of this title shall apply to any nation that, after being identified and notified under subsection (b) has failed to take the appropriate corrective actions for which the Secretary has issued a negative certification under this subsection.

(B) Effect of positive certification

The provisions of subsection (a) and paragraphs (3) and (4) of subsection (b) of section 1826a of this title shall not apply to any nation identified under subsection (a) for which the Secretary has issued a positive certification under this subsection.

(e) Illegal, unreported, or unregulated fishing defined

(1) In general

In this Act the term "illegal, unreported, or unregulated fishing" has the meaning established under paragraph (2).

(2) Secretary to define term within legislative guidelines

Within 3 months after January 12, 2007, the Secretary shall publish a definition of the term "illegal, unreported, or unregulated fishing" for purposes of this Act.

(3) Guidelines

The Secretary shall include in the definition, at a minimum—

(A) fishing activities that violate conservation and management measures required under an international fishery management agreement to which the United States is a party, including catch limits or quotas, capacity restrictions, bycatch reduction requirements, and shark conservation measures;

(B) overfishing of fish stocks shared by the United States, for which there are no applicable international conservation or management measures or in areas with no applicable international fishery management organization or agreement, that has adverse impacts on such stocks; and

(C) fishing activity that has an adverse impact on seamounts, hydrothermal vents, and cold water corals located beyond national jurisdiction, for which there are no applicable conservation or management measures or in areas with no applicable international fishery management organization or agreement.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary for fiscal years 2007 through 2013 such sums as are necessary to carry out this section.

(B) include the gathering of species specific data that can be used to support international and regional stock assessments and conservation efforts for protected living marine resources.
