Application for International Registration SELECTION OF FORM TYPE FOR APPLICATION FOR INTERNATIONAL REGISTRATION What type of form do you wish to use? PRE-POPULATED FORM (Use for one <u>U.S. basic application</u> serial/registration number; <i>narrowing</i> of goods/services and/or substitute color drawing are permissible data change within this form.) Enter the one <u>U.S. basic application</u> serial number or registration number as the basis of this international application. Enter the number with NO punctuation or other symbols included. WARNING: You CANNOT use the pre-populated form if the basic registration is classified using the old US Classification system. You must use the free-text form instead. OR FREE-TEXT FORM (Use for multiple U.S. <u>basic application</u> serial/registration numbers and/or for cases that do not yet appear in <u>TSDR</u> and/or if changing data other than only <i>narrowing</i> goods/services and/or substituting color drawing.) Enter the U.S. <u>basic application</u> serial number(s) or registration number(s) as the basis of this international application. Separate multiple numbers with a comma. Enter the number with NO punctuation or other symbols included. The pre-populated form will automatically display the exact information that is already in the USPTO database for one specific U.S. basic application serial number or registration number. If you do not change any data fields, then the pre-populated form will directly submit information that must be certified to the International Bureau (IB) of the World Intellectual Property Organization (WIPO), without independent review of this data at the USPTO. Alternatively, this form may be used where certain data fields can be changed (<i>e.g.</i>, either narrowing the scope of the identification of goods and/or services in the U.S. basic application or registration, and/or substituting a color drawing of the mark, where the original mark is shown in the USPTO database as a black-and-white image). However, if any data field is changed, an independent review of this data by the USPTO's Madrid Processing Unit must occur prior to submission as certified to the IB. The free-text form must be used if: (1) the application for international registration is based on more than one U.S. basic application serial number or registration number; (2) data is being changed in any way other than only narrowing the scope of the identification of goods and/or services in the U.S. basic application or registration, and/or substituting a color drawing of the mark, where the original mark is shown in the USPTO database as a black-and-white image; or (3) the U.S. basic application used as the basis is not yet loaded into the USPTO database at the time of filing, <i>e.g.</i>, the international application is being filed immediately after a U.S. basic application was filed. Information on this form is not automatically certified, and will not be submitted electronically directly to the IB. Instead, the form will be routed to the USPTO's Madrid Processing Unit for review, for subsequent certification, if appropriate.
OWNER: MARK: Answer each question below to create an international application form showing only sections relevant to your specific filing, then click the "Next" button. WARNING: Changing any of the pre-populated data that must be certified to the International Bureau (IB) of the World Intellectual Property Organization (WIPO) will preclude automatic certification and delivery

by the USPTO, and will require independent review of this data at the USPTO prior to submission as certified to the IB.

FEE SECTION

International Registration Fees and USPTO Certification Fee		
The international registration fees are based on the specific election of fees by the designated countries. The calculation of the international registration fees can be determined from the WIPO fee calculator*. Total fees also include a set USPTO certification fee based on the total number of classes in the international application, with each class only counting once, even if that class is claimed multiple times for different Contracting Party countries within this international application. NOTE: Both the international registration fees and the USPTO certification fee must be fully paid at the time of filing this application, through the Pay/Submit process accessed after successful validation of this form. *NOTE: To calculate fees correctly through the WIPO fee calculator page, you must (1) select the latest date (but not a future date) from the "For date:" pull-down menu; and (2) select "United States of America" from the "Country of Origin" pull-down menu.		
Number of Classes		Note: The class number is based on the number of classes actually being extended in the international application.
International Registration fees		For information on this calculation, see WIPO fee calculator *. Conversion from Swiss francs to U.S. dollars was based on the exchange rate of 1.0883761.

VALIDATION SECTION		
STEP 1:	Review the international application data, available below in various formats, by clicking on any of the links. Use the print function within your browser to print these pages for your own records.	
STEP 2:	If any of the information is incorrect, click on the "< Previous" button at the bottom of this page to return to the application form to make the necessary changes. <u>Do not use your browser's "Back" or "Forward" buttons.</u> NOTE: If you are not satisfied with the USPTO-created image of your mark (accessed above): - Return to the initial form selection page and select the free-text form option; - In the Mark Information Section, follow the steps at Option 2, i.e., to attach your own JPG file. NOTE: The attached image must be identical to the mark in the U.S. basic application or registration; and - If appropriate, check the first box below where the image has been attached, to claim that the mark consists of standard characters, without claim to any particular font, style, size or color.	
STEP 3:	If there are no errors and you are ready to file this application electronically, enter the email address for acknowledgement. Once you submit the application, we will send an electronic acknowledgement of receipt to the email address entered below. If you would like the acknowledgement sent to an additional address(es), please enter those address(es), separated by commas.	
	* Email for acknowledgment: * Confirm Email address: (Entries must match exactly, including case)	

STEP 4:	Read and check the following: Once you submit this application, we will not cancel the filing or refund the USPTO certification fee. The USPTO certification fee is a processing fee, which will not be refunded regardless of the future disposition of the international application. ☐ *If you have read and understand the above notice, please check the box before you click on the "Pay/Submit" button.
STEP 5:	To save the application, click on the " Save Form " button at the bottom of this page.
STEP 6:	To forward the application to another party for review prior to submission, click on the " Send for Review " button at the bottom of this page.
STEP 7:	If you are ready to file electronically, click on the "Pay/Submit" button at the bottom of this page. NOTE: If a fee payment is required, screens for entering payment information will come up after you have clicked on the "Pay/Submit" button. After you successfully enter your payment information, your submission will be completed. Within 24 hours of completing your submission, you will receive an email acknowledgment of receipt.

Paperwork Reduction Act Statement

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995, unless the information collection has a valid OMB Control Number. The OMB Control Number for this information collection is 0651-0051. Public burden for this form is estimated to average 40 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the Office of the Chief Administrative Officer, United States Patent and Trademark Office, P.O.
