

Request for Approval under the “Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” (OMB 0704-0553)

TITLE OF INFORMATION COLLECTION: Military Health System Electronic Health Record End User Survey

PURPOSE:

The anonymous survey will be used to collect feedback from Electronic Health Record (EHR) end users on their thoughts and experiences using the Military Health System (MHS).

This is a minor revision to a currently approved survey. We are removing two questions about hours worked and work fulfillment. They are being replaced with (1) an open-ended response asking respondents what they would have fixed if they could and (2) four additional Agree-Disagree Likert scale questions (questions 20 and 21).

DESCRIPTION OF RESPONDENTS:

Government, military personnel and contractors assigned to a Military Treatment Facility (MTF).
