

AGENCY DISCLOSURE NOTICE

The public reporting burden for this collection of information, 0704-0553, is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or burden reduction suggestions to the Department of Defense, Washington Headquarters Services, at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

Greetings,

The DoD Climate Literacy Sub-Working Group is tasked with developing a plan to integrate climate considerations into education and training programs and to support a climate-literate workforce.

The group is conducting a short pulse check in order to better understand workforce knowledge, use, and requirements for climate-relevant education and training across DoD organizations providing different aspects of support to the warfighter—to include OSD, Joint Staff, Military Departments, and Defense Agencies.

Civilian and military members are asked to complete a short questionnaire by accessing the following Intelink site: [TBD]. It should take no more than 10 minutes to complete. Participation is entirely voluntary and your feedback will be anonymous. Information collected will be used to inform DoD education and training efforts.

Thank you in advance for your participation.

Respectfully,
[Name]
