Public Burden Statement: The BHW Performance Report for Grants and Cooperative Agreements (PRGCA) is an annual performance and progress report required from each health professions and nursing education grantee that has an approved, funded project with a project period of one year or more. The report is required to determine the extent to which objectives of the project have been met so that a decision regarding continuation funding can be made. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0915-0061 and it is valid until 03/31/2025. This information collection is required to obtain or retain a benefit (Government Performance and Results Act (GPRA) of 1993 and the GPRA Modernization Act of 2010). The information will be kept private to the extent permitted by law (see 42 USC 292 et seq). Public reporting burden for this collection of information is estimated to average 3.2 hours per response to the annual performance report, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N39, Rockville, Maryland, 20857 or paperwork@hrsa.gov.
