Information Collection Request Title: Evaluation of the Maternal and Child Health Bureau Pediatric Mental Health Care Access Program and the Screening and Treatment for Maternal Mental Health and Substance Use Disorders Program, OMB No. 0906-xxxx—New.

Abstract: This notice describes information collection requests for two of HRSA's Maternal and Child Health Bureau programs: the Pediatric Mental Health Care Access (PMHCA) program and the Screening and Treatment for Maternal Mental Health and Substance Use Disorders (MMHSUD) program. The

PMHCA program aims to promote behavioral health integration into pediatric primary care by developing and supporting state, regional, and tribal pediatric mental health care teleconsultation access programs. The MMHSUD program aims to support maternity care providers and clinical practices by supporting the development, improvement, and/or maintenance of statewide or regional behavioral health networks. Both programs support health professionals (HPs)¹ in their delivery of high-quality and timely screening, assessment, treatment, and referrals for their targeted populations (e.g., children, adolescents, and young adults for PMHCA programs; pregnant and postpartum people for MMHSUD programs) through the provision of clinical behavioral health teleconsultation, care coordination support/navigation (e.g., resource identification and referrals), and training and education. Additionally, the PMHCA and MMHSUD programs focus on reducing racial, ethnic, and geographic disparities in access to care, especially in rural and other underserved areas.

The information will be collected from PMHCA and MMHSUD award recipient programs funded in 2021, 2022, or 2023 and from participants in and stakeholders of those programs:

- The 2021 and 2022 PMHCA programs are authorized by 42 U.S.C 254c-19 (sec. 330M of the Public Health Service Act), using funding provided by section 2712 of the American Rescue Plan Act of 2021 (Pub. L. 117-2).
- The 2023 PMHCA programs are authorized by 42 U.S.C 254c-19 (sec. 330M of the Public Health Service Act), as amended by section 11005 of the Bipartisan Safer Communities Act (Pub. L. 117-159).
- The 2023 MMHSUD programs are authorized by 42 U.S.C. 247b-13a; (sec. 317L-1 of the Public Health Service Act).

To evaluate progress made toward the programs' goals, this data collection will use the following eight instruments: (1) HP Survey, (2) Practice-Level Survey, (3) Program Implementation Survey, (4) Behavioral Health Consultation Provider Semi-Structured Interview (SSI), (5) Care Coordinator SSI, (6) Champion SSI,

¹ Health professionals may include, but are not limited to, pediatricians, family physicians, adult primary care clinicians, obstetrician-gynecologists, physician assistants, advanced practice nurses/nurse practitioners, licensed practical nurses, registered nurses, nurse midwives, counselors, behavioral health clinicians, social workers, care coordinators, medical assistants, and patient care navigators.

(7) Community-Based and Other Resources SSI, and (8) Program Implementation SSI.

Need and Proposed Use of the Information: HRSA needs this information to evaluate the PMHCA and MMHSUD programs to guide future decisions regarding increasing HPs' capacity to address patients' behavioral health and access to behavioral health services. Specifically, data collected for the evaluation will be used to study the efforts of the PMHCA and MMHSUD programs to achieve key outcomes (e.g., increase in access to behavioral health services; HPs trained; identification of community-based resources, including counselors or family service providers) and to measure whether and to what extent awardee programs are associated with changes in these outcomes. The evaluation will examine changes over time within and/or across the PMHCA and MMHSUD programs, regarding PMHCA- and MMHSUD-enrolled/participating HPs' and practices': (1) capacity to address patients' behavioral health and access to behavioral health care, through screening, assessment, treatment, and referral for behavioral health conditions and (2) use of program services (e.g., consultation, care coordination, training).
