

DMI Evaluation Survey_2022

Data Modernization Initiative (DMI) Evaluation Survey

The Public Health Informatics Institute (PHII) is collaborating with the Centers for Disease Control and Prevention (CDC) to provide learning activities (e.g., information, guidance, resources) to state, tribal, local and territorial (STLT) health agencies partnered with CDC through the Accelerating Public Health Data Modernization Cooperative Agreement. The learning activities are intended to support STLT health agencies in the preparation and implementation of plans to modernize data, technology and workforce capacities.

Your response to this survey will help us assess the extent learning activities are meeting participants' needs and supporting the development of data modernization goals. Your responses will be kept confidential. This survey should take less than 10 minutes to complete.
