2023 CDC Science Ambassador Fellowship Summer Course Satisfaction Survey

- Goal of this study is to assess the experience with the 2023 CDC Science Ambassador Fellowship (SAF) summer course. We are interested to know how well the programming was received and what improvements need to be made to better serve SAF fellows and peer leaders.
- Intended use of the resulting data is to improve the CDC Science Ambassador Fellowship program to further support middle and high school educators in teaching epidemiology and public health science in their classrooms.
- Data will be collected using Survey Monkey, a web-based survey tool.
- The subpopulation to be studied is Science Ambassador fellows and peer leaders who attended the 2023 CDC Science Ambassador Fellowship summer course.
