

Appendix B. Email to Disseminate Cancer Screening Change Package Evaluation for Cancer Council Members

Dear NACDD Cancer Council Member,

During the April 20th, 2023 NACDD Cancer Council meeting, information about the Cancer Screening Change Packages for breast, cervical and colorectal cancers developed by the CDC's Division of Cancer Prevention and Control in partnership with the Cancer Prevention and Control Research Network (CPCRN) and the National Association of Chronic Disease Directors (NACDD) was shared. These Change Packages were designed to provide health-care providers and their public health partners online access to tools and resources that may aid in closing the screening gap and saving more lives.

As members of the NACDD Cancer Council, we value your feedback and would like to ask for your help in evaluating the Cancer Screening Change Packages. Participating in the evaluation is easy. As a first step, we ask that you take some time to familiarize yourself with the Change Packages by visiting the site and reviewing the format and content (<https://www.cdc.gov/cancer/dcpc/resources/change-packages/index.htm>). Once you have reviewed the site, we would like to receive your feedback about the Change Packages on a brief survey that should take no more than 10 minutes to complete (https://nacdd.az1.qualtrics.com/jfe/preview/previewId/336a4ec9-4866-4f4d-b772-d6615c156287/SV_0HxnR6sVnJEY0sK?Q_CHL=preview&Q_SurveyVersionID=current).

The information you share in this evaluation will be used to improve and enhance the Change Packages. Your participation is voluntary, and your responses will be anonymous. To ensure you have enough time to review the Change Packages and complete the survey, we will be accepting completed surveys on a rolling basis throughout the next 60 days.

Thank you for your careful consideration of this request,

Sandte Stanley
