2024 Science Ambassador Regional Training Workshop Satisfaction Survey

- Goal of the study (e.g., determine behavioral factors that influence changes in weight over time or evaluate program delivery processes): **To determine if the Science Ambassador regional training workshops equipped participants to effectively teach public health; and to ensure the CDC Science Ambassador regional training workshops meet its goals and attendees' needs.**
- Intended use of the resulting data (e.g., provide suggestions for improving community-based programs): **To provide suggestions for improving regional training workshop content and sessions, logistics, and communication.**
- Methods to be used to collect (e.g., prospective cohort design; randomized trial; etc.): **Web-based survey using SurveyMonkey**
- The subpopulation to be studied (e.g., school-age children in North Carolina, conference attendees): **Science, Technology, Engineering, and Mathematics (STEM) educational leaders and middle and high school teachers who participated in the 2024 CDC Science Ambassador regional training workshops**
- How data will be analyzed (e.g., logistic regression, descriptive statistics): **Data will be collated and analyzed using descriptive statistics. Open response questions will be analyzed using qualitative methods to identify themes.**
