TITLE OF INFORMATION COLLECTION:

Laboratory Training Facility (LTF): Tours/Visits

PURPOSE:

The Office of Laboratory Science (OLSci) Laboratory Training Activity (LTA) team within the Centers for Disease Control and Prevention (CDC) creates, delivers, and maintains laboratory trainings on topics such laboratory safety, biosecurity, and core laboratory skills and knowledge. The LTA also provides oversight and management of CDC's first simulated High Containment Laboratory Training Facility (LTF). The LTF provides a laboratory classroom setting for training without the use of pathogens.

Tours are scheduled for visitors to walkthrough the facility (BSL-2/-3 suite and BSL-4 suite). After each tour, a visitor will be able to access an evaluation survey using a Quick Response (QR) code posted at various locations throughout the LTF to provide general customer feedback on their visit. Clicking on the evaluation survey link via the QR code will open SurveyMonkey. The feedback received from visitors will be used by OLSci in aggregate only and the findings will be used to improve LTF tours/visits.

DESCRIPTION OF RESPONDENTS:

Visitors are members of the public. We estimate 250 visitors in a calendar year. The evaluation survey reflects an average of 20 minutes to complete the evaluation survey.

Therefore, a reasonable estimate burden would be as follows: $250 \text{ respondents} \times (20/60) = 83$ hours.

Annualized burden hours and costs presented include only the burden from respondents who are not federal employees or entities. There is no cost to respondents other than their time to complete the data collection.
