TITLE OF INFORMATION COLLECTION: eCR Viewer Data Integration Building Blocks (DIBBs) Online Survey

PURPOSE:

This effort is part of the Data Integration Building Blocks (DIBBs) electronic case reporting (eCR) Viewer pilot. The goal of the pilot is to provide eCR data in a human-readable, easy-to-read format. The eCR Viewer Touchpoints survey will be visible to those who visit the eCR Viewer webpage and visitors can opt to respond or ignore the survey. This brief, three-question survey is a way for our team to get a quick pulse on the product, determine customer satisfaction and connect with additional research participants. We know that when the eCR Viewer is turned on, everyone in the state using NBS will have access to it (including staff who use eCR less often than our primary users), so this is a low-effort way to get customer feedback from the broader user base, beyond our primary stakeholders and users who are directly involved in case ascertainment.

DESCRIPTION OF RESPONDENTS:

Respondents are public health agency staff who use the National Electronic Disease Surveillance System (NEDSS) Base System (NBS) and need to review electronic case reports (eCRs) as part of their work. The survey will be visible to logged in users of NBS. Any individual can choose to click and respond to submit feedback, or simply ignore the survey button.
