TITLE OF INFORMATION COLLECTION:

Workforce Acceleration Initiative (WAI) Public Health Agency Narrative Reports

PURPOSE:

CDC is partnering with Association of Public Health Laboratories and CDC Foundation to improve service of the Workforce Acceleration Initiative (WAI). The goal of this project is to improve CDC public health services focused on public health agencies that are improving priority information systems through the direct placement of data and technology experts. Information gathered will be internal to CDC to assess and improve the project on public health data and technology workforce to improve CDC services to public health agencies.

The selection of your targeted respondents

[X] Yes [] No

If Yes: Please provide a description of both below (or attach the sampling plan)

If No: Please provide a description of how you plan to identify your potential group of respondents and how you will select them or ask them to self-select/volunteer

The funded organization (CDC Foundation) has identified 49 public health agencies to receive WAI placements. CDC Foundation also has a list of the key contacts for all 49 public health agencies. As the survey is a very brief survey with 26 questions (combination of open-ended, Likert scale, 5-point scale) and 2 optional open-ended questions, the method will request responses from all 49 public health agencies. The brief survey will be distributed to all individuals on the lists of key contacts for voluntary participation. The explanatory text which will be sent in the email (included in packet) requests that "Only one person from each public health agency receiving this invitation should respond to the survey." The number of respondents in the Burden Hours table reflects respondents if there is full participation by all public health agencies.
