DISCHARGE

Section GG Functional Abilities

GG0170. Mobility (3-day assessment period) - Continued

Code the patient's usual performance at discharge for each activity using the 6-point scale. If activity was not attempted at discharge, code the reason. If the patient has an incomplete stay, skip discharge GG0170 items.

Coding:
Safety and **Quality of Performance** - If helper assistance is required because patient's performance is unsafe or of poor quality, score according to amount of assistance provided.

Activities may be completed with or without assistive devices.

06. **Independent** - Patient completes the activity by themself with no assistance from a helper.
05. **Setup or clean-up assistance** - Helper sets up or cleans up; patient completes activity. Helper assists only prior to or following the activity.
04. **Supervision or touching assistance** - Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.
03. **Partial/moderate assistance** - Helper does LESS THAN HALF the effort. Helper lifts, holds or supports trunk or limbs, but provides less than half the effort.
02. **Substantial/maximal assistance** - Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.
01. **Dependent** - Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or, the assistance of 2 or more helpers is required for the patient to complete the activity.

If activity was not attempted, code reason:
07. **Patient refused**
09. **Not applicable** - Not attempted and the patient did not perform this activity prior to the current illness, exacerbation, or injury.
10. **Not attempted due to environmental limitations** (e.g., lack of equipment, weather constraints)
88. **Not attempted due to medical condition or safety concerns**
