

Crosswalk for Changes to END STAGE RENAL DISEASE MEDICAL INFORMATION SYSTEM ESRD FACILITY SURVEY (DIALYSIS UNITS ONLY) (CMS-2744)

Table. Crosswalk to CMS-2744

| Section of Current CMS-2744A (3/23) | Type of Change | Rationale for Change |
|--|---|---|
| Facility Demographic | Types of Dialysis Services Offered: Delete: “training” from “Home Hemodialysis” | Provide clarity that home hemodialysis service is provided not just training |
| Facility Demographic | Add: Days and Shifts the dialysis facility is open | Provide information about access to dialysis care |
| Additions during survey period | Add: “Failed” to “Return after Transplant” | Provides clarity between dialysis for a failed transplant as opposed to supporting a transplant |
| Hemodialysis Patients Dialyzing 4 or More Times Per Week | Changed from “Patients Dialyzing More Than 4 Times Per Week” | Clarified to more accurately reflect treatment outside of standard Medicare claims |
| Vocational Rehabilitation | Delete: “Patients aged 65 and older” | Limiting to ages vocational rehabilitation is available |
| Vocational Rehabilitation | Delete: Patients attending school full-time or part-time | Limiting to working patient as delineated in the Social Security Act |
| Staffing | Add: Staff to Patient Ratio | Provide insight into staffing because of staffing concerns throughout healthcare |
| Instructions | Delete: “training” from “Home Hemodialysis” for Types of Dialysis Services Offered | Provide clarity that home hemodialysis service is provided not just training |
| Instructions | Add: Instruction on how to complete “Days and Shifts the dialysis facility is open” | Provide information about access to dialysis care |

| | | |
