

Request for Approval under the clearance of the “Generic for ACF Program Office Monitoring Activities” Office of Management and Budget (OMB)

Control Number: 0970-0558

TITLE OF INFORMATION COLLECTION: Office of Refugee Resettlement Refugee Microenterprise Development Case File Requirements

PURPOSE: The Administration for Children and Families (ACF) Office of Refugee Resettlement (ORR) conducts monitoring of Refugee Microenterprise Development (MED) programs at least once per five-year program period. In preparation for monitoring, ORR requests that recipients complete a standard pre-monitoring questionnaire that provides information of program activities, budget, outcomes, and internal controls. Information provided via this questionnaire helps ORR program staff assess program implementation and results prior to the monitoring to target questions and discussions to areas of greatest need.

This information collection aligns with the overarching generic for monitoring activities, which specifically states that the information collected will allow ACF to:

- Monitor compliance with federal practice, guidelines, and requirements
- Have flexible and responsive oversight of federal funds
- Provide support as needed

The proposed uses of the data also align with the overarching generic, which specifies that program offices will use information collected under this generic clearance to monitor funding recipient activities, including assessing progress towards meeting Notice of Funding Opportunity (NOFO) objectives and confirmation of compliance with grant requirements.
