

IV. Duration of Funding

The 2025 Appropriations Act made the funds available for obligation by HUD until expended. HUD waives the provisions at 24 CFR 570.494 and 24 CFR 570.902 regarding timely distribution and expenditure of funds and establishes an alternative requirement providing that each grantee must expend 100 percent of all its allocations within six years of the date HUD signs the *initial* grant agreement for the initial CDBG–DR grant announced under the November 2023 Notice for January 2023 disasters. HUD may extend the time period in this alternative requirement and associated grant period of performance administratively, if good cause for such an extension exists at that time, as requested by the grantee, and approved by HUD. When the period of performance has ended, HUD will close out the grant and any remaining funds not expended by the grantee on appropriate programmatic purposes will be recaptured by HUD.

V. Assistance Listing Numbers (Formerly Known as the CFDA Number).

The Assistance Listing Numbers (formerly known as the Catalog of Federal Domestic Assistance numbers) for the disaster recovery grants under this notice are as follows: 14.218; 14.228.

VI. Finding of No Significant Impact

A Finding of No Significant Impact (FONSI) with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The FONSI is available online on HUD's CDBG–DR website at https://www.hud.gov/program_offices/comm_planning/cdbg-dr. Due to security measures at the HUD Headquarters building, an advance appointment to review the docket file must be scheduled by calling the Regulations Division at 202–708–3055 (this is not a toll-free number). HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. Appendix A

Allocation of CDBG–DR Funds to Most Impacted and Distressed Areas due to Presidentially Declared Disasters Occurring in January 2023

This notice announces the balance of funds calculated for qualifying January 2023 disasters. Appendix A of the November 2023 Notice describes the detailed methodology for calculating allocations that HUD made for unmet recovery and mitigation needs for January 2023 disasters. HUD used the same allocation methodology for January 2023 disasters receiving funds under the 2025 Appropriations Act and under the 2023 Appropriations Act. At the time of the allocations under the 2023 Appropriations Act, HUD had calculated total unmet recovery and mitigation needs for January 2023 disasters as \$241,728,000. However, only \$138,020,000 was available under the 2023 Appropriations Act for January 2023 disasters. This new allocation under the 2025 Appropriations Act represents the balance of unmet needs plus mitigation needs described in the November 2023 Notice less a 1.2488 percent pro-rata reduction on the balance amounts to reflect the pro-rata reduction needed for all disasters being funded by the 2025 Appropriations Act due to unmet needs plus mitigation needs exceeding appropriations.

Abstract: We have developed an online application that enables collaborators and volunteers to watch video clips collected from wildlife video camera collars and enter data observed in the clips into the online application. Information collected from the videos will be analyzed to assess wildlife activity budgets, reproduction, diets, and preferred habitat conditions, and used to better understand mechanisms influencing wildlife movements, distributions and population trends. Results of the analyses will be published in peer-reviewed scientific publications that will be available to the public.
