Notice of Availability of the Final Environmental Impact Statement and Record of Decision for Bull Mountains Mine No. 1, Federal Mining Plan for Federal Lease MTM–97988 Amendment 3

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of the final environmental impact statement and record of decision.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSMRE) is publishing this notice to announce that it has prepared a Final Environmental Impact Statement (FEIS) and Record of Decision (ROD) for Signal Peak Energy's (SPE) Federal Mining Plan Modification Amendment 3 for Federal Lease MTM–97988 (the Project). OSMRE prepared this FEIS to address the deficiencies identified in the October 14, 2022, order from the Ninth Circuit Court of Appeals, regarding

OSMRE's 2018 Environmental Assessment (EA).

DATES: The U.S. Environmental Protection Agency (EPA) will also publish a notice of availability in the **Federal Register**. OSMRE has issued a single document that consists of a FEIS and ROD. OSMRE is not requiring a 30-day waiting period before issuing the ROD for this project because it is not required by the National Environmental Policy Act (NEPA). The Council on Environmental Quality (CEQ) rescinded the NEPA implementing regulations containing that requirement, and the Department of the Interior's (Department's) NEPA implementing regulations do not contain any independent requirement for a 30-day waiting period.

ADDRESSES: The FEIS and ROD and documents pertinent to this project are available for review on OSMRE's website at: <https://www.osmre.gov/laws-and-regulations/nepa/projects>.

SUPPLEMENTARY INFORMATION:

Project Background

In 1992, the Montana Department of Environmental Quality (MDEQ) issued a mining permit pursuant to the Montana equivalent of the Surface Mining Control and Reclamation Act of 1977 (SMCRA) for the Bull Mountains Mine. Over time, ownership changed, and in 2008, SPE applied to lease the Federal coal from the Bureau of Land Management (BLM) under the Mineral Leasing Act of 1920. The BLM prepared an EA and issued a finding of no significant impact (FONSI) in 2011 on the decision to approve the lease. Montana has approved several amendments to SPE's State surface mining permit, and most of the area covered by Federal coal lease MTM–97988 is within what is known as Amendment (AM) 3. OSMRE first recommended, and the Assistant Secretary of Land and Minerals Management (ASLM) first approved, a modification to the Bull Mountains Mine's operation and reclamation (*i.e.*, mining plan modification) in 2015. After legal challenge, ASLM approved another mining plan modification for the same lease in 2018. Additional legal
