Metadata Collections

OMB No. 1850-0925 v.12

INTRODUCTION

Metadata are information to explain other data. Metadata collected from the states aid the analysis and appropriate use of data. The metadata to be collected range from information to support data submissions (*e.g.*, completeness) to capturing state policies surrounding data collection (*e.g.*, student count dates).

The modernization of *EDFacts* moved the metadata collections from *EMAPS* to *EDPass*. This change allows the states to use one application to submit both the data files and the associated metadata.

It is possible that the order and/or wording of the metadata questions may be slightly different on the screens in *EDPass* compared to this document. Adjustments may be needed to comply with accessibility requirements under Section 508. Adjustments also may be needed to ensure that the questions are readable and understandable on the screens. For example, questions may appear as a hierarchy of radio buttons structured to reduce the number of responses required.

Some of the metadata collections are submitted together with associated data files while others are submitted independently.

USING THIS ATTACHMENT

The metadata collections are listed by subject area. For each subject area, the metadata questions have been organized into sets or groups of questions referred to as a metadata collection. These metadata collections have each been assigned a four-digit identification number that begins with a “5.” The identification number is prefixed with “FS.”

The questions within each metadata collection are assigned a Question ID and a row number. The combination of Question ID and row number is unique. As shown below, the questions are listed in a table with columns for the Question ID, row number, text of the question, and the format for the response.

ID	Row	Question	Format
----	-----	----------	--------

Some questions have options such as yes/no, some are dates, some are short text, and some are long text. Some questions are repeated for a list of permitted values. For questions that are repeated for a list of permitted values, the question will only appear once in this document. The list of permitted values will be in the format column.

Some questions may have follow up questions requiring a response. Follow up questions begin with “If (followed by the response to a previous question that is triggering the follow up question).” The options in questions that have follow up questions are marked with “(FQ).”

The metadata collections may include text fields for optional comments. However, those fields are not listed below. Optional comment fields are not required. The optional comment fields are available to provide additional information.

The metadata collections are presented differently than in previous Information Collection Requests. The metadata collection names and questions have been modified to be consistent with EDPass. These editorial and structural changes are not marked.

GENERAL METADATA COLLECTIONS

There is one metadata collection that is applicable across *EDFacts*.

FS	Metadata Collection Name	Used with
SSP	State Submission Plan	All FS and Metadata Collections

State Submission Plan (SSP)

State agencies are responsible for maintaining a submission plan within EDPass. State agencies use the submission plan to report data that will not be submitted by the due date and to report any data anomalies.

This information is necessary to monitor state progress on data submissions, evaluate timeliness of submissions, and to provide a mechanism for state agencies to communicate to the Department the completeness and accuracy of the data being submitted.

When the state agency is unable to submit a File Specification (FS) by the due date, the state agency changes the timeliness default, “yes,” to “no” for each level of the FS that will not be timely. The state agency also provides an explanation for the FS being late and the date (DD-MM-YYYY) that the FS is expected to be submitted.

In addition, when the data have anomalies, the state agency changes the data anomalies default, “no,” to “yes” for each level of the FS with anomalies. The state agency will also provide a description of the data anomalies.

ACADEMIC ASSESSMENTS

The following metadata collections relate to the data submitted about the statewide academic assessments.

FS	Metadata Collection Name	Used with
5005	Assessment Metadata - General	All Assessment FSs
5006	Assessment Metadata - Mathematics	FS175 and FS185
5007	Assessment Metadata – Reading Language Arts (RLA)	FS178 and FS188
5008	Assessment Metadata - Science	FS179 and FS189

These metadata collections include questions about adjustments or significant changes to a State's Statewide assessment system. Adjustments and changes are described in the Department's *A State's Guide to the U.S. Department of Education's Assessment Peer Review Process*.

FS5005 Assessment Metadata - General

The questions in this metadata collection are regarding state policies.

ID	Row	Question	Format
2019	1	Does the state permit significant medical emergency as an exemption from the state assessments for all students?	Yes/No

FS5006 Assessment Metadata - Mathematics

The questions in this metadata collection are in the table below:

Identify Assessments

ID	Row	Question	Format
2013	1	For the lower grade levels, what is the name of the mathematics assessment (By assessment type and grade level)?	Short Text (up to 50 characters)
2014	1	For high school, what is the name of the mathematics assessment (By assessment type and when the assessment was conducted)?	Short Text (up to 50 characters)
		Did the state make changes to the mathematics assessments in the current school year (By assessment type and grade levels)?	Yes/No
		If changes were made, what type of changes were made (By assessment type and grade levels)?	Type of change: <ul style="list-style-type: none"> ● Content Standards ● Achievement Standards ● Assessments
2010	1	Is the state planning changes for the mathematic assessments in future years (By assessment type and grade level)?	Yes/No
2011	1	If changes are planned, what type of changes are planned for which mathematics assessments (By assessment type and grade level)?	Type of change: <ul style="list-style-type: none"> ● Content Standards ● Achievement Standards ● Assessments

ID	Row	Question	Format
2012	1	If changes are planned for mathematics assessments, for which school years are those changes planned (By assessment type and grade level)?	Select SY: <ul style="list-style-type: none"> ● SY after current SY ● Second SY after current SY ● Third SY after current SY

FS5007 Assessment Metadata - RLA

The questions in this metadata collection are in the table below:

Identify Assessments

ID	Row	Question	Format
2015	1	For the lower grade levels, what is the name of the RLA assessment (By assessment type and grade level)?	Short Text (up to 50 characters)
2016	1	For high school, what is the name of the RLA assessment (By assessment type and when the assessment is conducted)?	Short Text (up to 50 characters)
2020	1	Are English Learners, including children with disabilities (IDEA), who were in the U.S. less than 12 months prior to the RLA state assessment allowed to take the English language proficient (ELP) assessment in lieu of the regular RLA assessment?	Yes/No
		Did the state make changes to the RLA assessments in the current school year (By assessment type and grade levels)?	Yes/No

ACCOUNTABILITY MEASURES

The following metadata collections relate to the data submitted on Title I, Part A accountability systems for ESEA, as amended by ESSA, as defined in the approved ESEA consolidated State plans for the reporting year.

For purposes of this metadata collection, a measure is a component part of an indicator. For example, the Academic Achievement indicator could be composed of a measure for mathematics and a measure for reading/language arts. For each measure for an indicator, a state agency reports school performance using State-defined statuses for the measure.

FS	Metadata Collection Name	Used with
5019	Graduation Rate Indicator Status Metadata	FS199
5020	Academic Achievement Indicator Status Metadata	FS200
5021	Other Academic Indicator Status Metadata	FS201
5022	School Quality or Student Success Indicator Status Metadata	FS202
5023	Progress Achieving English Language Proficiency Indicator Status Metadata	FS205
5025	State-defined Subgroups Metadata	FS199, 200, 201, 202, 205 and 212

Except for FS5025, the state will respond to these questions for every measure reported in the related data file. For example, if the state reports two (2) graduation rate measures in FS 199, the state would report on two (2) measures in the metadata collection FS5019 Graduation Rate Indicator Status Metadata.

When reporting the scales for the measures, the following examples should be referenced.

Options for Scales	Examples
Ordinal – Performance level	Red, Orange, Yellow, Green Below Expectations, Meets Expectations, Exceed Expectations
Nominal – Two categories	Met/Not Met Pass/Did Not Pass
Interval – Percentage scale	% of students proficient using a scale from 0% to 100%
Interval – Index	Scale with 1 as the lowest and 4 as the highest Scale with 0.5 as the lowest and 5 as the highest
Other	Percentile

FS5019 Graduation Rate Indicator Status Metadata

The questions in this metadata collection are in the table below:

ID	Row	Question	Format
2062	1	What is the measure name?	Short Text (up to 50 characters)
2063	1	What type of scale is used for the measure?	Select option: <ul style="list-style-type: none"> ● Ordinal - Performance levels ● Nominal - Met/not met ● Interval - Percentage scale ● Interval – Index ● Other measure
2064	1	If the scale type is Ordinal - Performance levels, list the labels for the performance levels, starting with the lowest performance level.	List
2065	1	If the scale type is Interval - Index, provide the lowest and highest possible numerical values.	Lowest and highest
2066	1	If the scale type is Other measure, list and describe the State-defined statuses used to report the measure.	List

FS5020 Academic Achievement Indicator Status Metadata

The questions in this metadata collection are in the table below:

ID	Row	Question	Format
2067	1	What is the measure name?	Short Text (up to 50 characters)
2068	1	What is the lowest and highest grades to which the measure applies?	Lowest and highest grade from Kindergarten through Grade 12

2078	1	If the scale type is Interval - Index, provide the lowest and highest possible numerical values.	Lowest and highest
2079	1	If the scale type is Other measure, list and describe the State-defined statuses used to report the measure.	List

FS5022 School Quality or Student Success Indicator Status Metadata

The questions in this metadata collection are in the table below:

ID	Row	Question	Format
2080	1	What is the measure name?	Short Text (up to 50 characters)
2081	1	What is the lowest and highest grades to which the measure applies?	Lowest and highest grade from pre-Kindergarten through Grade 12
2082	1	What type of scale used for the measure?	Select option: <ul style="list-style-type: none"> ● Ordinal - Performance levels ● Nominal - Met/not met ● Interval - Percentage scale ● Interval – Index ● Other measure
2083	1	If the scale type is Ordinal - Performance levels, list the labels for the performance levels, starting with the lowest performance level.	List
2084	1	If the scale type is Interval - Index, provide the lowest and highest possible numerical values.	Lowest and Highest
2085	1	If the scale type is Other measure, list and describe the State-defined statuses used to report the measure.	List

FS5023 Progress Achieving English Language Proficiency Indicator Status Metadata

The questions in this metadata collection are in the table below:

ID	Row	Question	Format
2086	1	What is the measure name?	Short Text (up to 50 characters)
2087	1	What is the lowest and highest grades to which the measure applies?	Lowest and highest grade from Kindergarten through Grade 12
2088	1	What type of scale used for the measure?	Select option: <ul style="list-style-type: none"> ● Ordinal - Performance levels (FQ) ● Nominal - Met/not met ● Interval - Percentage scale ● Interval - Index (FQ) ● Other measure (FQ)
2089	1	If the scale type is Ordinal - Performance levels, list the labels for the performance levels, starting with the lowest performance level.	List
2090	1	If the scale type is Interval - Index, provide the lowest and highest possible numerical values.	Lowest and Highest
2091	1	If the scale type is Other measure, list and describe the State-defined statuses used to report the measure.	List

FS5025 State-defined Subgroups Metadata

The questions in this metadata collection are in the table below:

ID	Row	Question	Format
2092	1	<p>If the state includes State-defined subgroups in its statewide system of annual meaningful differentiation in the state's approved ESEA consolidated state plan for the reporting year, what are the names of each State-defined subgroup?</p> <p>Note: In cases where a state reported one or more State-defined subgroups (e.g., STEDFNDSUBGRP1), the number for the reported subgroups in this metadata collection should match the number used in FS199, 200, 201, 202, and 212.</p>	List of Short Text (up to 250 characters) for each State-defined subgroup used by the SEA.

COMMON CORE OF DATA (CCD)
