NASA Safety Culture Survey, Round 6

This sample survey has variations based on:

Center: JSC ~

PURPOSE:

This survey provides basic feedback to your Center on the safety culture with the goal of preventing incidents from occurring.

FOR IMMEDIATE SAFETY CONCERNS:

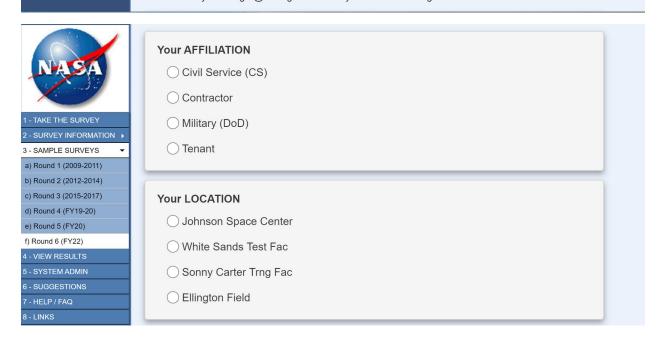

- 1. Please contact your supervisor or Center Safety Representative.
- Or, go to the <u>NASA Safety Center web page</u>, where you can select your home center for more specific information.

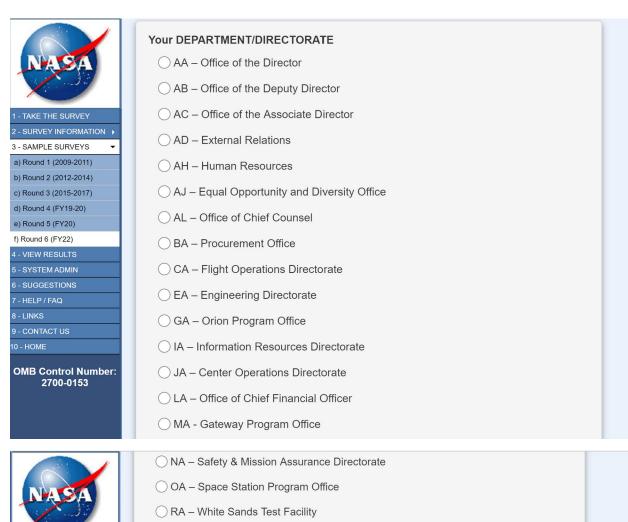

SURVEY INSTRUCTION:

- 1. Please read the short description of each component of safety culture (Reporting, Just, Flexible, Learning, and Engaged), then select the responses that most accurately match your perceptions.
- 2. Comment blocks are available for each question (600 characters max. for each).
- 3. When you are done, click the Submit button. A "Thank You" note will let you know you have successfully completed the survey.
- 4. An individual must be free to respond without fear of reprisal, whether the fear is real or perceived. Without this, the data gathered may be inaccurate and of minimal use.
 - Data analysis will not include individual scores or identify individuals.
 - We welcome comments, and will keep them word for word, (inappropriate language may be modified or removed.)

Paperwork Reduction Act Statement:

This information collection meets the requirements of 44 U.S.C. 3507, as amended by section 2 of the Paperwork Reduction Act of 1995. You do not need to answer these questions unless we display a valid Office of Management and Budget control number. The OMB control number for this information collection is 2700-0153 and it expires on 09/30/2021. We estimate that it will take about 8 minutes to read the instructions, gather the facts, and answer the questions. You may send comments on our time estimate above to Tracy.G.Dillinger@nasa.gov. Send only comments relating to our time estimate to this address.

Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree	Don't Know
Comments:						6

Just Culture: We treat each other fairly. A Culture that is Just balances the need for action when warranted, with rewards when earned. People clearly understand acceptable and unacceptable behaviors. There's a sense of fairness in how business is conducted for everyone. In a Just Culture, those in authority do not "shoot the messenger" for bringing up safety concerns.

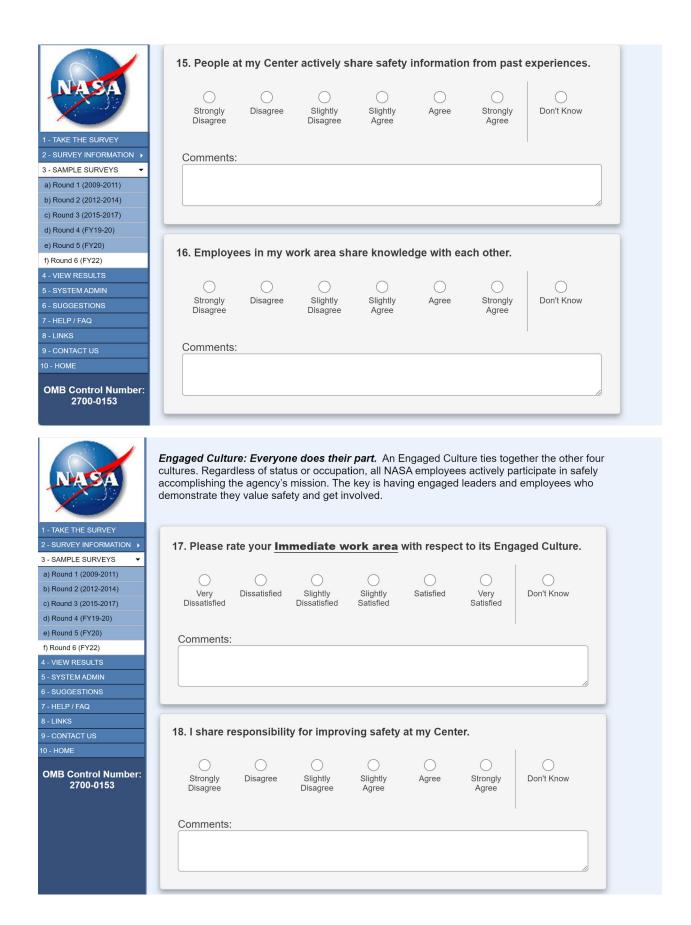

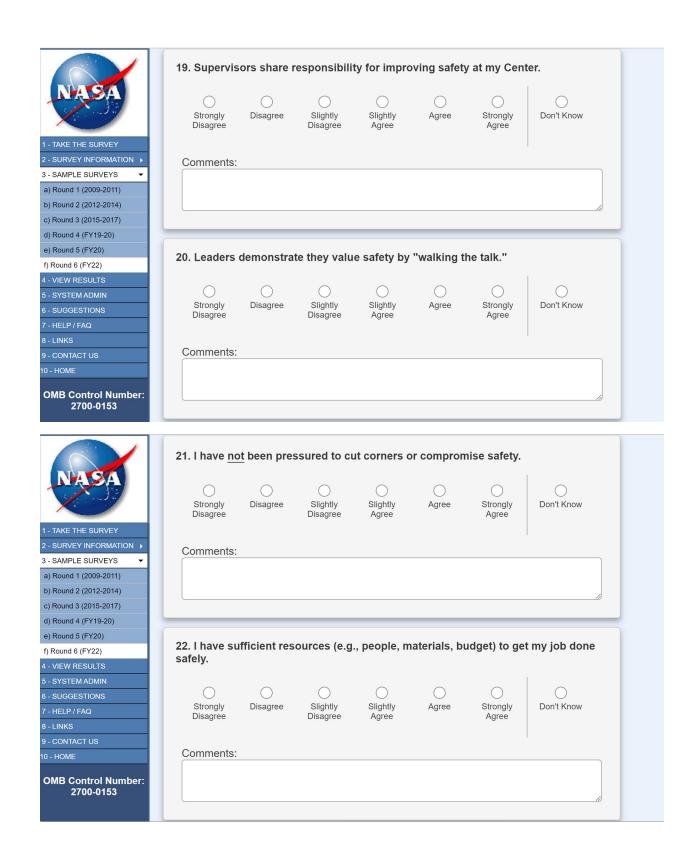

Learning Culture: We learn from our successes and mistakes. In a Learning Culture, employees collect, assess and share information, both formally and informally. That includes continuing education programs such as SATERN and the Safety and Mission Assurance Technical Excellence Program, as well as resources on the NASA Engineering Network and NASA Safety Center websites. It is important for employees to learn from their experiences and apply that knowledge to their jobs.
