To maximize survey engagement, a convenience sampling method will be employed, wherein all eligible visitors will be approached to participate in this phase of the study. Specifically, data collectors will approach groups with youth between the ages of 13 to 18 *and* an adult caregiver. Visitors that are part of an organized group (those with matching, organization-identity clothing, lanyards, or other similar items) will not be approached.

10. Administration of the instrument (check all that apply)
--	-----------------------

Will interviewers or facili	tators be used?	Yes		No
Please provide the URL:	nttps://pacificresearch	.qualtrics.com/jfe/form/S	SV 57	SePKbS35aO6Wi

11. Certification. Please certify the following to be true

11. Certification: I lease certify the following to be true
The collection is voluntary.
The collection is low-burden for respondents and low-cost for the Federal Government.
igspace The collection is non-controversial and does <u>not</u> raise issues of concern to other federal agencies.
igwedge The results are <u>not</u> intended to be disseminated to the public.
igwedge Information gathered will not be used for the purpose of substantially informing influential policy
decisions.
igwedge The collection is targeted to the solicitation of opinions from respondents who have experience
with the program or may have experience with the program in the future.
Name: Eleanor Stokes
Center, division, & program: Earth Information Center, Earth Science Division, NASA HQ

12. Besides completing this fast-track form, return the following to the PRA Team:

Please provide as Word files:

- Completed fast-track form
- Screenshots of your collection instrument
- Text of your collection instrument
- Include any transmittal email, or other mechanisms, that you plan to inform recipients with
