NSPIRES User Feedback

NASA's Science Mission Directorate (SMD) is soliciting participant feedback on their experiences with submitting proposal or participating in proposal reviews for NASA Grants, Cooperative Agreements and Announcement opportunities (AO) through the NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRES).

The anonymous form collects information on your experiences finding funding opportunities using NSPIRES, submitting proposals, notification of your proposal status, and panel proposal review participation. Your feedback will help SMD identify future IT system enhancements to improve your experience.

There are a total of four sections, which take approximately 15 minutes to complete.

- The second section asks about your proposal submission process.
- The third section collects your feedback on the panel review process for proposals.
- The final section gathers any final thoughts about your experience and the system utilized to submit and review proposals.

The survey will be available until [end date TBA]. After that time your input will be analyzed to define a future state for the NSPIRES product. Thank you for your contribution.
