An application to assign or transfer control of an authorization is filed using the ITC-ASG/TC form.
- **Foreign Carrier Notification.** A carrier must notify the Commission when it becomes or seeks to become affiliated with a foreign carrier that is authorized to operate in a foreign destination market served by the U.S. carrier. 47 CFR § 63.1. A foreign carrier affiliation notification is filed using the ITC-FCN form.
- **Modification.** A carrier is permitted to modify an existing authorization. 47 CFR §§ 63.13, 63.18. An application to modify an authorization is filed using the ITC-MOD form.

Section 63.50 of the Commission's rules permits the applicant or the party to the application as a matter of right to amend any application prior to the date of any final action taken by the Commission and requires the Applicant to notify the Commission regarding any substantial and significant changes in the information provided in the application while it remains pending. 47 CFR § 63.50.

To amend a submitted application, use a separate form, ITC-AMD.

FCC Notice Required By The Paperwork Reduction Act

The number of hours it will take to respond to the collection will vary depending on whether the Applicant is required to file responses to the Standard Questions for an Applicant with reportable foreign ownership with the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee). We have estimated that on average each response to this collection of information for an international section 214 authorization will be 9 hours for in-house and outside counsel. If the Applicant is required to file responses to the Standard Questions with the Committee the average will be 130 hours (9 hours for the substantive application, 120 hours to respond to the Standard Questions and 1 hour to file the responses with the Committee). Our estimate includes the time to read the instructions, review existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this burden estimate, or on how we can improve the collection and reduce the burden it causes you, please e-mail them to pra@fcc.gov or send them to the Federal Communications Commission, AMDPERM, Paperwork Reduction Project (3060-0404), Washington, DC 20554.

The Applicant is not required to respond to a collection of information sponsored by the Federal government (and the government may not conduct or sponsor this collection, without displaying a currently valid OMB control number) if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0686. This notice is required by the Paperwork Reduction Act of 1995, P.L. 104-13, October 1, 1995, 44 U.S.C. Section 3507.

Qualifies for Exclusion. If the Applicant(s) does qualify for exclusion from referral, the Applicant(s) must attach a specific showing in its application that it qualifies for the exclusion(s). Attachments can be added in the Attachments section of the application.

Applicants submitting responses to the standard questions must also submit a complete and unredacted copy of this and any related FCC application(s), including the file number(s) and docket number(s), to the Committee within three (3) business days of filing it with the Commission. Detailed instructions for completing and sending the standard question responses and a copy of the FCC application(s) can be found on the Office of International Affairs’ website.

If the Applicant(s) checked “No” in response to Item 10.a., indicating that it does *not* qualify for exclusion from referral, the Applicant must acknowledge that it is aware of its obligation to submit the standard question responses and copy of the application(s) to the Committee by checking the box at the end of Item 10.

Instructions for Supplement A

Remember to save your draft application periodically by clicking the save button. ICFS will time-out after 15 minutes of no activity, and failure to save will result in loss of any information entered into the application form after the last save.

When there are multiple applicants for an international 214 overseas cable construction authorization, Supplement A is used to collect information, including contact, ownership, and foreign carrier affiliation information, about those additional applicants. Each filer of a Supplement A must also make its own general certifications and national security/law enforcement certifications. In the event that there are multiple applicants, the main ITC-LIC form will be signed by the lead applicant only (on behalf of all applicants), while each filer of a Supplement A must sign its own Supplement A. The complete application, containing all attachments and all Supplements A, will be submitted by the lead Applicant. Remember to save your draft Supplement A periodically by clicking the save button. To go back to the main form, click the “Close and Return to Main Form” button. This will close your browser tab that contains the Supplement A. Progress will be lost if you do not save before going back to the main form. When you have completed and signed the Supplement A, click on the “Submit” button. This will allow ICFS to verify that all questions have been answered; it does not actually file the Supplement A or the main application, nor does it prevent further editing of the Supplement A. The Supplement A filer can still edit its Supplement A by clicking on the “Edit Supplement A” button at the top left of the submitted Supplement form. This will return the Supplement A to an editable state. Remember to click “Save” and/or “Submit” after making any changes.

Note: The instructions for completing the questions Supplement A are the same as the instructions for completing the same questions in the main application form.

Item 1. The additional Applicant must enter the information requested. Some data will be pre-populated using the data associated with carrier’s FCC Registration Number (FRN).

When the Applicant enters its FRN, the Applicant Information will pre-populate with its FRN data in CORES. To modify these pre-populated data, update the data associated with the FRN in CORES.

<https://www.fcc.gov/licensing-databases/commission-registration-system-fcc>

Enter any missing data and sections that are not already populated from CORES, such as the “Applicant/Licensee Legal Entity Type” field.

Contact Information

Item 2. Identify the contact representative, if different from the Applicant. The contact information can be imported automatically from CORES if the Applicant carrier supplied an FRN, but fields are still editable.

If the contact representative is the same as the person indicated in Item 1, then check the box “Same as Applicant.” If the contact representative is not the same as the filing carrier, provide the requested information.

- Provide the name of a person in your organization, your outside counsel, or other representative whom we can contact if there are questions regarding your application. This person should have decisional authority over the contents of your application.
- Provide the Company name if different from the “Applicant” name in Item 1 or repeat “Company” name here.

- Provide your “Doing Business As (DBA)” name. If the Applicant is not operating its business using a DBA, you may leave this section blank.

May 2025

- Indicate how the contact person is related to the Applicant by selecting a choice from the drop-down “Relationship” menu. For example, select “Legal Counsel” if the contact is the Applicant’s counsel. Selecting “other” will open a text box for entry of a description of the relationship.

Additional Contacts for law enforcement

All applicants for an international section 214 authorization for overseas cable construction must designate a point of contact who is located in the United States and is a U.S. citizen or lawful U.S. permanent resident, for the execution of lawful requests and as an agent for legal service of process, as required by 47 CFR § 63.18(q)(1)(iii). Each applicant for a consortium cable (or the lead applicant, if there is only one applicant) may designate one person for both roles or a different person for each role (i.e., contact for execution of lawful requests and/or agent for legal service of process).

While the lead applicant must submit its law enforcement contact information within the form itself,

Supplement A filers must provide this information in an attachment to the application. In the attachment, indicate if the information is the same for the contact for execution of lawful requests and the agent for legal service of process. For each person named (i.e., contact for execution of lawful requests and agent for legal service of process), the Applicant may also designate an alternate contact.
