Who Must File This Form and When

A Licensee must file a request to modify the license using this form.

Description of Form

The Application will allow the Licensee(s) to modify information previously provided for its cable landing license and provide an explanation of the requested modification. This form consists of a main form and the ability to file an attachment to support the request. The Applicant is encouraged to upload a single document in machine readable format, including all required information. The Applicant must fill in all required fields, upload required documents, make all required certifications, and sign the form before submitting the application.

Information Current and Complete

Information filed in the application with the Commission must be kept current and complete under [section 1.65](#) of the Commission's rules.

To amend a submitted medication application, use a separate form, SCL-AMD.

Applicable Rules and Regulations

[Section 1.767](#) of the Commission's rules set out the application requirements for a cable landing license, 47 CFR § 1.767. [Section 1.767\(m\)](#) sets out the procedures to modify the cable landing license.

(m)(1) Except as specified in paragraph (m)(2) of this section, amendments to pending applications, and applications to modify a license, including amendments or applications to add a new applicant or licensee, shall be signed by each initial applicant or licensee, respectively. Joint applicants or licensees may appoint one party to act as proxy for purposes of complying with this requirement.

(2) Any licensee that seeks to relinquish its interest in a cable landing license shall file an application to modify the license. Such application must include a demonstration that the

applicant is not required to be a licensee under paragraph (h) of this section and that the remaining licensee(s) will retain collectively *de jure* and *de facto* control of the U.S. portion of the cable system sufficient to comply with the requirements of the Commission's rules and any specific conditions of the license, and must be served on each other licensee of the cable system. 47 CFR § 1.767(m)

Applicant(s) should refer to the Debt Collection Improvement Act of 1996. The Debt Collection Act requires all federal agencies ensure that no debtors to the Federal government obtain any licenses or other benefits from the FCC. To ensure this, the Commission must collect FRN information to correlate its Applicants with any outstanding Federal debt that they might have incurred in other dealings with the Federal government. For additional information, see the [FCC's Debt Collection webpage](#).
