

FEDERAL COMMUNICATIONS COMMISSION

**Instructions for Filing an
International Signaling Point Code Application
Office of International Affairs**

SPC-NEW

Purpose of Form

This form is used to request that the Federal Communications Commission (Commission) assign an international signaling point code(s) (ISPC) for Signaling System No. 7 networks under the International Telecommunication Union's [ITU-T Recommendation Q.708 \(03/99\)](#). Under ITU-T Recommendation Q.708, an ISPC(s) can be assigned to signaling point operators by each Member State's designated Administrator in accordance with the rules and procedures of the Member State and ITU-T Recommendation Q.708.

The Commission is the administrator of ISPCs for the United States and administers all ISPCs. Through this form, the Commission will collect information concerning the proposed request for an ISPC and will determine whether to assign the requested ISPC. Every entity seeking an ISPC must fill out this form.

Who Must File This Form and When

A signaling point operator with its own switch that seeks to provide services over the international Signaling System No. 7 network must file an application to receive an ISPC assignment from the Commission.

Description of Form

This form consists of a main form and the ability to file an attachment to support the request. The Applicant is encouraged to upload a single document in machine readable format, including all required information. The Applicant must fill in all required fields, upload required documents, make all required certifications, and sign the form before submitting the application.

Information Current and Complete

Information filed in the application with the Commission must be kept current and complete under section [1.65](#) of the Commission's rules. Applicable Rules and Regulations

The requirements can be found in ITU-T Recommendation Q.708, which also lists relevant definitions and the criteria for the transfer of ISPCs.

Applicants should refer to the Debt Collection Improvement Act of 1996. The Debt Collection Act requires all federal agencies ensure that no debtors to the Federal government obtain any licenses or other benefits from the FCC. To ensure this, the Commission must collect FRN information to correlate its Applicants with any outstanding Federal debt that they might have incurred in other dealings with the Federal government. For additional information, see the FCC's Debt Collection webpage, <https://www.fcc.gov/licensing-databases/fees/debt-collection-improvement-act-implementation>.

FILING INSTRUCTIONS FOR MAIN SPC-NEW FORM

Applicant Information

Item 1. Enter the information requested. Some data will be pre-populated using the data associated with the Applicant's FCC Registration Number (FRN).

When the Applicant enters its FRN, the Applicant Information will pre-populate with its FRN data in CORES. To modify these pre-populated data, update the data associated with the FRN in CORES.

Enter any missing data and sections that are not already populated from CORES, such as the "Applicant/Licensee Legal Entity Type" or "Doing Business As (DBA)" name.

Contact Information

Item 2. Identify the contact representative, if different from the Applicant. The contact information can be imported automatically from CORES if the Applicant supplied an FRN, but fields are still editable.

If the contact representative is the same as the person indicated in Item 1, then check the box "Same as Applicant." If the contact representative is not the same as the Applicant, provide the requested information.

- Provide the name of a person in your organization, your outside counsel, or other representative whom we can contact if there are questions regarding your application. This person should have decisional authority over the contents of your application.

Brief Application Description

Item 3. Provide a short description of what you are applying for and how many ISPCs you are requesting. For example, state "This is an application for one ISPC to be implemented in New York, NY and to be used to provide international telecommunications from the U.S. to Europe." This description will appear in the My Filings tab of your ICFS account page where all your applications are listed.

How many ISPCs is the Applicant Requesting?

ISPC Location and Implementation

Item 5. Indicate the city (column 1) and state or territory (column 2) where you intend to use the ISPC(s) and the estimated date of network implementation (column 3). You must add a new row for each additional ISPC the Applicant is requesting even if the codes are to be used in the same city. If no estimated implementation date is provided in the filing, the application is considered incomplete.

International Section 214 Authorization(s)

Item 6. If the Applicant has an existing international section 214 authorization(s), please select “Yes” and enter the file number(s) here.

Note: If the Applicant has applied for an international section 214 authorization and that application is pending, enter the file number of that application and state that the international section 214 application is pending in the single attachment discussed in Item 9.

If the Applicant does not have and has not applied for an international section 214 authorization, check the “No” box and briefly describe how you intend to use an ISPC in the absence of an international section 214 authorization. A more thorough explanation can be included in your attachment regarding the nature of the use of the ISPC in the network and in the network diagram as discussed in Item 9 below.

Application Fees

Item 7. An application fee is required for this form. If you are exempt from the application fee select “No.” Otherwise, select “Yes.”

Note that the FCC may not be able to start its review of a submitted application until the associated application fee is paid. Note that a waiver associated with the filing requirements for a new ISPC request must be submitted as part of the SPC-NEW form. A separate SPC-WAV application is not necessary. The Applicant may attach the waiver request statement by clicking the button in Item 8b or in the Attachments/Confidential Treatment of Attachments that follows.

Attachments

Item 9. Confirm by checking “Yes” that you have submitted an attachment to support the request. Provide a single attachment in a machine readable format. Below is additional explanation about each requested item.

- **A statement regarding the nature of the use of the ISPC or multiple ISPCs in the network.**
The statement must describe:
 - why the Applicant’s PSTN network requires an ISPC, what has changed that requires an additional ISPC if you currently have an ISPC, or why you require multiple ISPCs if you are requesting more than one;
 - what new services, service improvements, or expansion of new applications will be supported by the addition of the ISPC(s); and
 - the approximate date when these services/applications will be implemented.
- **A network diagram that shows how the ISPC(s) will be used.** The network diagram must show:
 - both sides of the ISPC location to ensure the Commission can identify how the ISPC(s) will connect to your existing network and the external network;
 - sufficient detail to understand the network scope, geographic coverage, and the PSTN portions of the network; and
 - the region(s) where the Applicant will use the ISPC(s) in its PSTN network (e.g., Europe, Latin America, Asia).
- **A statement regarding the signaling point manufacturer/type.**
 - The statement must indicate the manufacturer, make, and model of the equipment that will use the ISPC(s) to provide the services/applications. You may include a weblink/URL to manufacturer’s brochure.
- **A statement regarding the physical address where the signaling point with ISPC(s) will be located.**
 - Provide the street address where the ISPC(s) will be implemented.
- **A statement regarding the identification of at least one planned Message Transfer Part (MTP) signaling relation.**
 - The statement must include the name and address of distant signaling point, location of the distant signaling point, and/or the ISPC of distant signaling point, if known.

Note: Each document required to be filed as an attachment should be current as of the date of filing. Each page of every attachment must be identified with the number or letter, the number of the page, and the total number of pages.

Item 10. If the application includes a waiver request, indicate here by checking the box to indicate that the Applicant has uploaded a statement supporting the waiver request and identifying the rule number(s) involved, along with other material information. The box will not be clickable if you answered the waiver question (Item 8) “No.”

Attachments/Confidential Treatment of Attachments

Item 11. If the Applicant is requesting confidential treatment for any of its attachments, answer “Yes” to

this question. Otherwise, answer “No.” If the Applicant answers “Yes,” then it must upload a supporting statement for the “confidential treatment request(s)” identifying the applicable rule(s) and providing other supporting materials or information. The Applicant must also upload both the Redacted Public version and the Non-Redacted Confidential version of the attachment(s) in the Attachments section which follows below.

The Applicant(s) can upload attachments in this section of the application. The Applicant(s) will identify the attachment(s) with a short name to easily identify the information included in each attachment.

Note: Each document required to be filed as an attachment should be current as of the date of filing. Each page of every attachment must be identified with the number or letter, the number of the page, and the total number of pages.

In this item, the Applicant may use the upload button to upload its attachments. After uploading, the Applicant can describe the attachment. Also after uploading, the Applicant can click the confidential treatment button next the attachment name if it so desires. Clicking the confidential treatment button will trigger a request to upload both a redacted, public version of the attachment, and a public supporting statement justifying the confidentiality request. Identify in the attachment the applicable rule(s) and provide other supporting materials or information. Documents designated for confidential treatment will not be publicly viewable in ICFS while the Commission considers the confidentiality request.
