

NIST FACE RECOGNITION RESEARCH

We are seeking volunteers who are willing to participate in a research study involving face recognition. At this time, we are recruiting face specialists **only** (for example, facial examiners or reviewers).

The purpose of this study is to measure facial recognition accuracy under different viewing conditions. In the experiment, you will see pictures of faces or parts of faces on a computer screen and make identity judgments about them. The results of this experiment will provide insight into how people recognize and identify faces, and the decisions made by facial forensic examiners.

The study procedures may seem unusual to you. It is designed to test specific research questions and is not intended to replicate existing or real-world working conditions.

During your experiment participation, your data is assigned a study identification number. This identifier is never attached to your name. This means your data is de-identified. De-identified results may be made public and we may publish what we learn from this study.

Your participation will last approximately 30 minutes. Your participation is voluntary. You will be allowed to stop the experiment at any time. There is no compensation for participation.

To be eligible you must:

1. Be at least 18 years of age
2. Be a fluent English speaker
3. Have normal or corrected-to-normal vision
4. Be able to use a computer keyboard and mouse

If you are interested, a session will be scheduled for you to participate between the dates of **DATES**.

An information sheet with detailed Informed Consent information **FILL FROM BELOW**.

[IF EMAILED: ... **is attached to this email** | IF VERBAL: ... **will be sent to you by email**]

If have any questions or are interested in participating, please contact Dr. Carina Hahn at carina.hahn@nist.gov.

OMB Control #0693-0043

Expiration Date: 06/30/2025

NIST Generic Clearance for Usability Data Collections

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0693-0043. Without this approval, we could not conduct this survey. Public reporting for this information collection is estimated to be approximately 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary. Send comments regarding this burden estimate or any other aspect of this

information collection, including suggestions for reducing this burden to NIST at Attn: Carina Hahn, at carina.hahn@nist.gov.
