

Rapid Online Survey

CDC estimates the average public reporting burden for this collection of information as 2 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1154).

Good news. You are eligible to participate in this survey.

If you agree to participate, we will ask you to take part in an online survey. This survey has a few questions about food safety and will take about 10-15 minutes.

Please read and electronically sign this in order to participate in the survey.

We're pleased you have accepted our invitation to participate. You will be responding to topics of interest to the Centers for Disease Control and Prevention (CDC). CDC engaged us to recruit for their survey. Since your opinions, observations, reactions, and other expressions are the reason for conducting this survey, we hope you will participate fully in the process. You do not have to respond to any survey questions you don't want to answer. We will not sell, distribute, or otherwise release personally identifiable information we collect to CDC. By proceeding to the survey, you acknowledge that you understand, agree to, and consent to the above and that you waive and release any claim you may have against Banyan Communications and its clients, owners, agents, affiliates, employees and managers arising out of your voluntary participation in this survey.

Would you like to participate in the survey (by checking this box below you are electronically signing the statement above)?
