Title:	Performance Monitoring of CDCs Core State Injury Prevention Program
Project Id:	0900f3eb81d150f6
Accession #:	NCIPC-ET-5/3/21-150f6
Project Contact:	Angela Deokar
Organization:	NCIPC/DIP/PIEB/ET
Status:	Project In Progress
Intended Use:	Project Determination
Estimated Start Date:	09/01/2021
Estimated Completion Date:	07/31/2026
CDC/ATSDR HRPO/IRB Protocol #:	
OMB Control #:	0920-1369

Description & Funding

Description

Priority: Standard

Date Needed: 05/10/2021

Priority Justification:

CDC Priority Area for this Project: Not selected

Determination Start Date: 05/03/21

Description: This Notice of Funding Opportunity (CDC-RFA-CE21-2101) supports health department infrastructure, data and partnerships to identify and respond to existing and emerging injury threats with data-driven public health actions. These actions are intended to increase protective factors and reduce risk factors using the best available evidence for injuries and death. Such an approach includes engaging in robust data and surveillance, strengthening strategic collaborations and partnerships, and conducting assessment and evaluation. The overall goal of this approach is to inform public health action for injury prevention. An enhanced funding component is available for recipients to implement and evaluate prevention strategies while incorporating novel surveillance activities, with the goal of contributing practice-based evidence to strengthen the overall evidence base for injury prevention. While all recipients will focus their strategic efforts on prevention of traumatic brain injury (TBI), transportation-related injury, and Adverse Childhood Experiences (ACES), recipients are also encouraged to examine their data and flex up to 25% of their award to address identified priority injury topics of local concern (i.e. drowning, older adult falls, or suicide). This project determination is specific to the Core SIPP performance monitoring only. The NOFO has already been cleared.

IMS/CIO/Epi-Aid/Lab-Aid/Chemical Exposure Submission: No

IMS Activation Name: Not selected

Submitted through IMS Clearance Matrix:	Not selected
Primary Scientific Priority:	Not selected
Secondary Scientific Priority (s):	Not selected
Task Force Responsible:	Not selected
CIO Emergency Response Name:	Not selected
Epi-Aid Name:	Not selected
Lab-Aid Name:	Not selected
Assessment of Chemical Exposure Name:	Not selected
Goals/Purpose	The goal is to collect performance monitoring data via a web-based Partners Portal. This data is needed to monitor cooperative agreement program funded under the Core State Injury Prevention Program (Core SIPP) (CDC-XXX-XX).
Objective:	The objectives are to: monitor recipients' progress in implementing the Core SIPP, identify challenges to inform CDC technical assistance support to recipients, and to provide accountability to DIP and NCIPC leadership, as well as congress for the funds administered though this NOFO.
Does your project measure health disparities among populations/groups experiencing social, economic, geographic, and/or environmental disadvantages?:	Not Selected
Does your project investigate underlying contributors to health inequities among populations /groups experiencing social, economic, geographic, and/or environmental disadvantages?:	Not Selected
Does your project propose, implement, or evaluate an action to move towards eliminating health inequities?:	Not Selected
Activities or Tasks:	Programmatic Work
Target Populations to be Included/Represented:	No Human Population
Tags/Keywords:	Capacity Building
CDC's Role:	CDC employees will provide substantial technical assistance or oversight ; CDC is providing funding
Method Categories:	QA/QI
Methods:	Awardees will report progress and activity information to CDC on an annual schedule using a web-based Partners' Portal. No research design or human subjects involved.
Collection of Info, Data or Biospecimen:	Awardees will enter programmatic information into a web-based Partners' Portal.
Expected Use of Findings/Results and their impact:	Data will be used to monitor the cooperative agreement program funded under the Core State Violence and Injury Prevention Program (Core SIPP) (CDC-XXX-XX).

Could Individuals potentially be identified based on Information Collected? No

Suggested level of risk to subjects

Do you anticipate this project will be exempt
research or non-exempt research

Requested consent process wavers

Informed consent for adults	No Selection
Children capable of providing assent	No Selection
Parental permission	No Selection
Alteration of authorization under HIPAA Privacy Rule	No Selection

Requested Waivers of Documentation of Informed Consent

Informed consent for adults	No Selection
Children capable of providing assent	No Selection
Parental permission	No Selection

Consent process shown in an understandable language

Reading level has been estimated	No Selection
Comprehension tool is provided	No Selection
Short form is provided	No Selection
Translation planned or performed	No Selection
Certified translation / translator	No Selection
Translation and back-translation to/from target language(s)	No Selection
Other method	No Selection

Clinical Trial

Involves human participants	No Selection
Assigned to an intervention	No Selection
Evaluate the effect of the intervention	No Selection

Evaluation of a health related biomedical or behavioral outcome No Selection

Registerable clinical trial No Selection

Other Considerations

Exception is requested to PHS informing those bested about HIV serostatus No Selection

Human genetic testing is planned now or in the future No Selection

Involves long-term storage of identifiable biological specimens No Selection

Involves a drug, biologic, or device No Selection

Conducted under an Investigational New Drug exemption or Investigational Device Exemption No Selection

Data

DMP

Proposed Data Collection Start Date: 9/1/21

Proposed Data Collection End Date: 7/31/26

Proposed Public Access Level: Public

Public Access Justification: The purpose of the performance monitoring data is to enable CDC to monitor programmatic progress for funding accountability and also to inform CDC technical assistance provision to awardees.

How Access Will Be Provided for Data: The data set will not be shared publicly; however, reports based on aggregate-level data (at the recipient or program level) will be shared externally. No PII will be collected.

Plans for Archival and Long Term Preservation:

Spatiality
