

## Operating Rule Response/Attestation Document

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1390 from the year of 2024 through 2025. The objective of the HIPAA Administrative Simplification information collection program is to conduct assessments and identify whether a covered entity is compliant with the HIPAA - adopted standards, and administrative simplification. The time required to complete this information collection is estimated to average less than **10 hours** per response (4 forms x 60 minutes/form), including the time to review instructions, search existing data resources, gather the data needed, to review and complete the information collection. This information collection is mandatory (under 45 CFR § 160.310) If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

## Introduction and Purpose

### Introduction

HIPAA covered entities and their business associates are required to comply with the federally mandated operating rules per section 1104 of the Affordable Care Act (ACA).

From the CAQH CORE Website: Operating Rules support a range of existing standards to make electronic transactions more predictable and consistent, regardless of the technology. CAQH CORE has been designated by the Secretary of the Department of Health and Human Services (HHS) as the author for the federally mandated operating rules per Section 1104 of the Affordable Care Act (ACA).<sup>1</sup> ACA Section 1104 applies to HIPAA covered entities and business associates engaging in HIPAA standard transactions on behalf of covered entities.<sup>2</sup>

### Purpose

The purpose of this document is to provide a mechanism for covered entities to report whether they meet and support individual operating rule requirements that are applicable to their organization. In addition, it instructs the covered entity to provide verification and/or an explanation as to how they meet the individual operating rule requirements. This operating rule attestation document is for compliance review purposes only.

This document is organized by Covered Entity types (All, Health Plan, Provider, Clearinghouse), Operating Rule phases (I, II, III), and Transaction types. Each section includes a link to the published operating rule from the CAQH CORE website.

## Instructions

1. For each transaction(s) indicated in Part C of the Artifact Request document, provide a corresponding operating rule attestation for “all entities” as well as your covered entity type. For example, if your covered entity type is a Health Plan, and the 835 transaction is indicated in Part C of the Artifact Request document, you will complete all of the 835 operating rule attestations marked “All” and those marked “Health Plan.”
  - Clearinghouses: you must also attest to any operating rule that has been outsourced to you by another covered entity type. For example, if you provide a real-time 271 response on behalf of a health plan, you must also complete the applicable attestations related to the 271 response in the Health Plan section.
2. Ensure that you select each applicable attestation response of “Yes,” “No” or “NA.” In addition, select a “Yes,” “No” or “NA” response to attest that the Covered Entity has uploaded documentation to the portal, when applicable.
  - A “Yes” response indicates you are compliant with the operating rule.
  - A “No” response indicates you are not compliant with the operating rule.
  - A “NA” response indicates the operating rule does not apply to your organization. If “NA,” you must provide an explanation in the comments section as to why it is not applicable to your organization.
3. When providing corresponding attachments or documentation, indicate the name of the attachment, or document, in the comments section along with the date it was uploaded to the portal.
4. Covered Entity representative’s signature, date, and comments are required at the end of each attestation. Typed names are acceptable signatures.
