TITLE OF INFORMATION COLLECTION: TANF Data Collaborative (TDC) 2.0 Customer Feedback Collection

PURPOSE AND USE: The Temporary Assistance for Needy Families (TANF) Data Collaborative (TDC) 2.0 project is funded by the Administration for Children and Families, Office of Planning, Research, and Evaluation (OPRE). The purpose of the TDC 2.0 project is to provide training and technical assistance (TA) support to six TANF agency teams who were awarded TDC Equity Analysis Awards (discretionary grants funded by OPRE) to complete equity-related data analytics projects using their TANF administrative and program data. This proposed information collection is to request feedback from participating teams about their experiences during TA activities throughout the 36-month project.

OPRE proposes to administer customer satisfaction surveys to individuals from TANF agency teams who attend the following TA activities:

- Three annual in-person convenings;
- TA webinars (approximately 15 throughout the 36-month period); and
- the Advanced Data Analytics (ADA) course (weekly surveys throughout the 22-week course).

The surveys will gather feedback from participants to understand their experiences and satisfaction with the TA. The information collected will be both qualitative and quantitative. OPRE will use the information internally to improve any subsequent TA activities during TDC 2.0 and to potentially inform future planning for TA activities following TDC 2.0. The information may also be included in the final project report to describe participants’ experiences with the initiative. Any written material containing information from this collection will indicate that the information collected is not generalizable to all participants in TDC 2.0.

DESCRIPTION OF RESPONDENTS: Individuals who are government employees who work with the TANF program in their state or county that was awarded a TDC Equity Analysis Award and who have been active participants in the initiative.
