

TANF Data Collaborative 2.0 Webinar Feedback Survey

Administered in Microsoft Forms online

Pre/Post Poll Question(s)

For each webinar, we plan to have 1-3 questions that we ask as a poll at the beginning of the webinar and embedded into the feedback survey at the end of the webinar. The poll questions will be specific to the content of the webinar asking questions about the key learning objectives of the webinar. For example, for a webinar on research designs, one of the poll questions could be:

- 1) Please select which statistical methods are used to measure the causal effects of an intervention (select all that apply):
 - a. Pre/post comparisons
 - b. Random assignment
 - c. Multivariate Regression
 - d. Propensity score matching

Standard Webinar Feedback Survey Questions

Your participation in this feedback survey is voluntary. Your name will be attached to your responses. The information will be used to improve services. The information may also be included in aggregate form only in the final project report to describe participants' experiences with the initiative. No individual names will be included in the final project report.
