SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-306, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS)/United States Coast Guard (USCG) has relied on previous Privacy Act systems of records notices for the collection maintenance of records that concern the United States Merchant Seamen's Records system of records.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a DHS/USCG system of records under the Privacy Act (5 U.S.C. 552a) that deals with United States Merchant Seamen's Records program management. The collection and maintenance of this information will assist DHS/USCG in meeting its obligation to administer the United States Merchant Seamen's Records program.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of records notices, DHS/USCG is giving notice that it proposes to update and reissue the following legacy record system DOT/CG 589 United States Merchant Seamen's Records (65 FR 19476 April 11, 2000) as a DHS/USCG system of records notice titled, DHS/USCG--030 United States Merchant Seamen's Records. The DHS/USCG--030 United States Merchant Seamen's Records system is the USCG's information system that administers the Commercial Vessel Safety Program to determine domestic and international qualifications for the issuance of licenses, documents, and staff officer certifications. Categories of individuals, categories of records, and the routine uses for this legacy system of records notice have been reviewed and updated to better reflect the United States Merchant Seamen's Records record system. This new system will be included in DHS's inventory of record systems. Additionally, DHS is issuing a Notice of Proposed Rulemaking (NPRM) concurrent with this SORN elsewhere in the Federal Register. The exemptions for the legacy system of records notices will continue to be applicable until the final rule for this SORN has been completed. This new system will be included in the Department of Homeland Security's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a ``system of records.'' A ``system of records'' is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the Federal Register a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the United States Merchant Seamen's Records System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this new system of records to the Office of Management and Budget and to Congress.
