

STUDY: Research on Drivers' Use of Camera-Based Systems Versus Original Equipment Outside Rearview Mirrors
STERLING IRB ID: 10451-EMazzae
DATE APPROVED BY STERLING IRB: 04/22/2025

Under the Paperwork Reduction Act, a Federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control number. The OMB Control Number for this information collection is 2127-0756 (expiration date: MM/DD/YYYY). The National Highway Traffic Safety Administration (NHTSA) has proposed to perform research involving the collection of information from the public as part of a multi-year effort to learn about drivers' use of camera-based rear visibility systems as compared to their use of traditional vehicle outside mirrors. This research will support NHTSA in evaluating whether to pursue a regulation modification that would permit technologies other than mirrors, such as camera-based visibility systems (sometimes referred to as camera monitor systems (CMS)), for compliance with FMVSS No. 111. The average amount of time to complete the survey is 5 minutes. All responses to this collection of information are voluntary. If you have comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden send them to Information Collection Clearance Officer, National Highway Traffic Safety Administration, 1200 New Jersey Ave, S.E., Washington, DC, 20590.

**Driving Research Study
Interest Response Form**

U.S. Department of Transportation
National Highway Traffic Safety Administration

This collection of information is voluntary and will be used to determine your eligibility for study participation. Respondent burden is estimated to average 5 minutes.

Any data collected relating to this study that personally identifies you or that could be used to personally identify you will be treated with confidentiality. Contact information data will be stored on password-protected directories and destroyed after the study is complete.

1. Do you have a valid U.S. driver license?
 - a. Yes
 - b. No
2. If your license has restrictions, please list: _____
3. How many miles do you typically drive per year?
 - a. Less than 3,000 miles
 - b. 3,000 – 5,999 miles
 - c. 6,000 – 8,999 miles
 - d. 9,000 – 11,999 miles
 - e. 12,000 – 14,999 miles
 - f. 15,000 miles or more
4. Sex:
 - a. Male
 - b. Female

5. Age (years): _____

STUDY: Research on Drivers' Use of Camera-Based Systems Versus Original Equipment Outside Rearview Mirrors
STERLING IRB ID: 10451-EMazzae
DATE APPROVED BY STERLING IRB: 04/22/2025

6. Name:

- a. First: _____
- b. Middle: _____
- c. Last: _____

7. Address:

- a. Street Address: _____
- b. City: _____
- c. Zip: _____

8. E-mail address: _____

9. Phone number: _____

10. How did you learn about our study?

- a. TRC Website Online Ad
- b. Newspaper Print Ad
- c. Newspaper Website Online Ad
- d. Facebook Ad
- e. Friend or Relative
- f. Other (please specify): _____
