

Average Time per Response: Varies.
Estimated Total Burden Hours:
 33,880.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at 202–693–1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (OSHA–2011–0861). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693–2350, (TTY) (877) 889–5627 for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 8–2020 (85 FR 58393).

Signed at Washington, DC, on January 2, 2025.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

NATIONAL FOUNDATION OF THE ARTS AND THE HUMANITIES

Institute of Museum and Library Services

Special Meeting of the National Museum and Library Services Board

AGENCY: Institute of Museum and Library Services (IMLS), National Foundation of the Arts and the Humanities (NFAH).

ACTION: Notice of meeting.

SUMMARY: The National Museum and Library Services Board, which advises the Director of the Institute of Museum and Library Services in awarding national awards and medals, will meet by teleconference on February 6, 2025, to review nominations for the 2024 National Medal for Museum and Library Service.

DATES: The meeting will be held on Thursday, February 6, from 3:30 p.m. Eastern Time until adjourned.

ADDRESSES: The meeting will convene virtually.

FOR FURTHER INFORMATION CONTACT: Katherine Maas, Chief of Staff and Alternate Designated Federal Officer, Institute of Museum and Library Services, Suite 4000, 955 L'Enfant Plaza North SW, Washington, DC 20024; (202) 653–4798; kmaas@imls.gov.

SUPPLEMENTARY INFORMATION: The National Museum and Library Services Board is meeting pursuant to the National Museum and Library Service Act, 20 U.S.C., 9105a, and the Federal Advisory Committee Act (FACA) as amended, 5 U.S.C. App. to review nominations for the 2025 National Medal for Museum and Library Service.

The meeting will be closed to the public pursuant to subsections (c)(4), (c)(6) and (c)(9) of section 552b of Title 5, United States Code, as amended. The closed meeting will consider information that may disclose: Trade secrets and commercial or financial information obtained from a person and privileged or confidential; and information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action.

Dated: January 3, 2025.

Brianna Ingram,

Paralegal Specialist.

BILLING CODE P

NATIONAL SCIENCE FOUNDATION

Sunshine Act Meetings

The National Science Board hereby gives notice of the scheduling of a teleconference of the National Science Board/National Science Foundation Commission on Merit Review (MRX) for the transaction of National Science Board business pursuant to the NSF Act and the Government in the Sunshine Act.

TIME AND DATE: The MRX meeting is scheduled for Monday, January 13, 2025, from 4:00 p.m.–6:00 p.m. Eastern.

PLACE: This meeting will be via videoconference through the National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

STATUS: Closed.

MATTERS TO BE CONSIDERED: The agenda is: Commission Chair's remarks about the agenda; Discussion of revised Commission Report to the Board; and Commission Chair's closing remarks.

CONTACT PERSON FOR MORE INFORMATION: Point of contact for this meeting is: Chris Blair, cblair@nsf.gov, 703/292–7000. Meeting information and updates may be found at www.nsf.gov/nsb.

Ann E. Bushmiller,

Senior Counsel to the National Science Board.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Renew a Current Information Collection

AGENCY: National Center for Science and Engineering Statistics, National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation (NSF) is announcing plans to request renewal of the Higher Education Research and Development Survey. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for three years.

DATES: Written comments on this notice must be received by March 11, 2025 to be assured of consideration. Comments received after that date will be

considered to the extent practicable. Send comments to the address below:

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite E6300, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: Higher Education Research and Development Survey.

OMB Approval Number: 3145-0100.

Expiration Date of Current Approval: July 31, 2025.

Type of Request: Intent to seek approval to extend an information collection for three years.

Abstract: Established within NSF by the America COMPETES Reauthorization Act of 2010 § 505, codified in the NSF Act of 1950, as amended, the National Center for Science and Engineering Statistics (NCSES)—one of 13 principal federal statistical agencies—serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public.

The Higher Education Research and Development (R&D) Survey (formerly known as the Survey of R&D Expenditures at Universities and Colleges) originated in fiscal year (FY) 1954 and has been conducted annually since FY 1972. The survey represents one facet of the research and development component of NCSES's statistical program, which also includes R&D surveys on the business, federal government, higher education, state government, and nonprofit sectors.

Use of the Information: The proposed project will continue the annual survey cycle for three years. The Higher Education R&D Survey will provide continuity of statistics on R&D expenditures by source of funding, type of R&D (basic research, applied research, or development), and field of research, with separate data requested on research equipment by field. Further breakdowns are collected on funds passed through to subrecipients and funds received as a subrecipient, and on R&D expenditures by field from specific federal agency sources. The survey also requests total R&D expenditures funded

from foreign sources, R&D within an institution's medical school, clinical trial expenditures, R&D by type of funding mechanism (contracts vs. grants), and R&D by cost category (salaries, equipment, software, etc.). In addition, the survey requests headcounts and full-time equivalents of R&D personnel (researchers, R&D technicians, and R&D support staff).

Data are published in NSF's annual publication series *Higher Education Research and Development*, available on the web at <http://www.nsf.gov/statistics/srvyherd/>.

Expected respondents: The FY 2025 Higher Education R&D Survey standard form will be administered to approximately 690 institutions. In addition, a shorter version of the survey asking for R&D expenditures by source of funding and broad field will be sent to approximately 270 institutions spending at least \$150 thousand but less than \$1 million on R&D in their previous fiscal year. A short population review screener is also sent to approximately 140 institutions before the survey cycle to identify potential eligible institutions not already in the survey frame. Finally, a survey requesting R&D expenditures by source of funds, cost categories, and type of R&D will be administered to the 42 Federally Funded Research and Development Centers.

Estimate of burden: The survey is a fully automated web data collection effort and is handled primarily by administrators in university sponsored programs and accounting offices. To minimize burden, institutions are provided with an abundance of guidance and resources on the web and can respond via a downloadable spreadsheet if desired. Each institution's record is pre-loaded with the 2 previous years of comparable data that facilitate editing and trend checking. Response to this voluntary survey has exceeded 95 percent each year.

The average burden estimate per survey cycle is 64 hours for the approximately 690 institutions reporting at least \$1 million in R&D expenditures, 8 hours for the approximately 270 institutions reporting at least \$150 thousand but less than \$1 million, 1 hour for the approximately 140 institutions in the population screener, and 11 hours for the 42 organizations completing the FFRDC survey. The total calculated burden across all forms is 46,922 hours.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the

information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: January 6, 2025.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3103; NRC-2024-0223]

Louisiana Energy Services, LLC, dba Urenco USA; National Enrichment Facility; License Amendment Application

AGENCY: Nuclear Regulatory Commission.

ACTION: Opportunity to request a hearing and to petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff accepted and docketed an application for the amendment of Special Nuclear Materials (SNM) License No. SNM-2010, submitted by Louisiana Energy Services, LLC, dba Urenco USA dated August 29, 2024. The license amendment request (LAR) would authorize the applicant to modify the National Enrichment Facility, located in Eunice, New Mexico to increase the enrichment limit for the on-site recycling and support systems from 5.5 weight percent Uranium 235 (U-235) to less than 10.0 weight percent U-235 (LEU+), and would remove interim controls that were established by a prior license amendment for segregation and storage of LEU+-exposed components removed from production systems. Because this amendment request contains Sensitive Unclassified Non-Safeguards Information (SUNSI), an order imposes procedures to obtain access to SUNSI and Safeguards Information (SGI) for contention preparation.
