

**United States Department of Agriculture
Farm Service Agency (FSA)
Supporting Statement
OMB Number-0560-0155
7 CFR 762, "Guaranteed Farm Loan Programs Loans"**

1. Explain the circumstances that make the collection of information necessary.

The Consolidated Farm and Rural Development Act (CONACT), as amended, authorizes the Secretary of Agriculture to make and service loans guaranteed by FSA to eligible farmers and ranchers. The statutory authority for the guaranteed loan program is set out in the Code of Federal Regulations (CFR), Title 7, Chapter VII, Part 762. The loans made and serviced under 7 CFR 762 include farm operating and farm ownership loans. Also serviced under this Subpart are emergency loans, soil and water loans, and recreation loans, which exist from past authority, but are no longer granted new guarantees by FSA.

FSA also may provide guarantees of loans made by private sellers of a farm or ranch on a land contract sales basis; although this program is rarely used. 7 CFR part 763 provides the regulations necessary for FSA to administer this Land Contract Guarantee program in accordance with the CONACT.

Collection of information after loans are made is necessary to protect the Government's financial interest and to assure the guaranteed programs are being carried out in accordance with the applicable laws, authorities, and policy objectives.

The Secretary is authorized to define the character, scope, and frequency of information required to be collected. The law requires that certain policies be verified by FSA to assure that farmers and ranchers, joint operators, farm cooperatives, private domestic corporations and partnerships that are controlled by farmers and ranchers engaged primarily and directly in farming or ranching in the United States comply with such policies in order to obtain the requested assistance.

In general, a loan applicant for FLP type loan assistance must meet the following conditions: They must be a citizen of the United States; own and operate or become the owner and operator of not larger than a family size farm; and be unable to obtain sufficient credit elsewhere at reasonable rates and terms.

The reporting and record keeping requirements imposed on the public by regulations set out in 7 CFR part 762 and 7 CFR part 763 are necessary to administer the FLP guaranteed loan program in accordance with the statutory requirements listed above and are consistent with commonly performed lending practices. Periodic collection of information after loans are made is necessary to protect the Government's financial interest.

Authority to establish the regulatory requirements obtained in 7 CFR 762 is provided under 5 U.S.C. 301, 7 U.S.C. 1989, which provides that "The head of an Executive department or military department may prescribe regulations for the government of his department, the

distribution and performance of its business.” Furthermore, section 339 of the CONACT (7 U.S.C. 1989) provides that “the Secretary is authorized to make such rules and regulations, prescribe the terms and conditions for making loans, security instruments and agreements, except as otherwise specified herein, and to make such delegations of authority as he deems necessary to carry out this title.” The Secretary delegated authority to administer the provisions of the CONACT applicable to FLP to the Under Secretary for Farm Production and Conservation (FPAC) in section 2.16 of 7 CFR Part 2. FPAC further delegated this authority to the FSA Administrator in section 2.42 of 7 CFR Part 2.

2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the Agency has made of the information received from the current collection.

FSA uses the forms and written evidence to collect needed information. The information collected is used to determine lender and loan applicant eligibility for farm loan guarantees, and to ensure the lender protects the government’s financial interests. The information is stored in FSA Service Center loan files, State Office Lender files, or in the computer systems. FSA requires lender signatures on the documents submitted. Signatures from loan applicants are required on the applications for loan guarantees. The regulations require submission of information essential to protect the Government’s interest.

The information collection requirements established in 7 CFR part 762 and 7 CFR part 763 are described below and on the attached Reporting and Recordkeeping Requirements. FSA’s Farm Loan Programs has elected to request burden approval of all forms, regardless of the number of respondents, to ensure that all forms reflect an OMB Control Number thereby eliminating possible confusion or questions from the public. Most, if not all forms that would not be considered a “collection of information” is required under the provisions of the CONACT and therefore cannot be eliminated.

FORMS:

Form FSA-2201 “Lenders Agreement”

7 CFR 762.105(d)(3), 7 CFR 762.106(f)(2), 7 CFR 762.130 (d)(3)

This form is used to establish the Lender as an approved participant in the Guaranteed Loan Program of FSA and the status approved for participation. This agreement is established for the lenders and FSA’s responsibilities regarding loans made under the guaranteed program. The agreement does not need to be completed for each loan, rather the lender completes the agreement, and it covers all loans made. Agreements with Certified Loan Program (CLP) lenders, Preferred Lender Program (PLP), and Micro Lenders (ML) are valid for 5 years. Agreements with Standard Eligible Lenders (SEL) are valid indefinitely, however; (SEL) are required to execute new form each time a revision is made, or for certain lender ownership changes. No changes to the form are anticipated.

As of April 10, 2023, approximately 1401 SEL, 1 ML, 119 CLP, and 242 PLP Lenders participated in FSA’s guaranteed loan program. We estimate all CLP, PLP, ML lenders will

renew their status and execute a new agreement over the next 5 years, and approximately 30 percent of SEL lenders will need to execute a new agreement – resulting in approximately 500 lenders executing a new agreement annually. The time to review and execute this document is 60 minutes (1 hour) per response.

1401	SEL Lenders x 30% = 420
119	CLP Lenders / 5 = 24
242	PLP Lenders / 5 = 48
Total	492 rounded to 500

Form FSA-2205 “Guaranteed Micro Lender Application” 7 CFR 762.107

FSA-2205 is used by the lender to apply for MLP status. The lender submits this form to the appropriate FSA servicing office. Information collected on FSA-2205 includes, lenders name, address, loan portfolio characteristics (delinquency and default rates), source(s) of loan funding, and various certifications by the lender.

The information is used to:

- evaluate the MLP application against the criteria in 7 CFR 762 107(b)(2);
- ensure nontraditional lenders are subject to credit examination and supervision by an acceptable regulatory agency; and
- determine if the nontraditional lender qualifies under the proposed Guaranteed MLP provisions.

Lenders who are already participating in FSA’s Guaranteed Farm Loan Program will continue under their current Form FSA-2201 “Lenders Agreement” and not be required to execute Form FSA-2205.

As of April 10, 2023, FSA had 1 MLP lender. FSA estimates 2 new nontraditional lenders will participate and execute FSA-2205 annually. The time to complete and execute this document is 60 minutes (1 hour) per response.

Form FSA-2211 “Application for Guarantee” 7 CFR 762.110(a), 762.110(b), 762.142(b)(iv)(A), 762.150(a)

This form is used by lenders to apply for an FSA Guaranteed Loan. All lender types will use this form to apply for a regular loan guarantee or an EZ loan guarantee.

In the past 3 Fiscal Years, the Agency received on average 7287 loan applications per year from 692 SEL lenders, 136 CLP lenders, and 227 PLP lenders. The estimated time to furnish the information required is 20 minutes per response from each farmer applicant.

EZ applications, and applications from PLP lenders typically require very little additional information from the lender and the estimated response time is approximately 60 minutes per response from these lenders. Application packages from Standard Eligible Lenders (SEL)

and Certified Loan Program (CLP) lenders vary depending on the size of the loan, the status of the lender, and the material already available to FSA. Many items are customary business practice for any loan transaction between a farm business and a lender, for example, a balance sheet, cash flow, financial and production history, and verification of debt and income. Other items are additional requirements for the Agency to determine program eligibility or to comply with laws and executive orders. We estimate the time for an SEL or CLP lender to complete each application averages 210 minutes per response.

We estimate the total average responses for this form to 7300 responses per year – 1 per farmer applicant and 5.75 from 1065 lenders. The burden is estimated to average 20 minutes per response from each farmer for a total of 2433 hours and 130 minutes per response from lenders for a total of 15,817 hours.

7 CFR 762.105(c)(2), 762.105(c)(3) Substitution of Lenders – New & Original Lenders

A new eligible lender may be substituted for the original lender, upon the original lender’s concurrence. The new lender agrees in writing to assume all servicing and other responsibilities of the original lender. FSA estimates 20 new lender substitutions will require a new agreement and estimates 1 hour to execute a lender’s agreement if one is not in effect.

The original lender will assign their promissory note, lien instruments, loan agreements, and other documents to the new lender. FSA averages 10 lender substitutions annually. The time the original lender spends submitting this information is estimated at 30 minutes (0.50 hours) in each case.

7 CFR 762.105(d)(3) Lender Name or Ownership Changes

When a lender begins doing business under a new name or undergoes an ownership change, the lender must notify the Agency. FSA estimates that 20 lenders per year change the name under which they are doing business or undergo ownership changes. The notification required by this section would require about 0.33 hours for each lender.

7 CFR 762.105(b) Standard Eligible Lender Eligibility Criteria (New Lenders)

To participate in FSA Guaranteed Farm Loan Programs, the standard eligible lender (SEL) must provide evidence when requested that they have experience making and servicing agricultural loans and have the capability to make and service the loan for which a guarantee is requested. Lender will provide additional information if requested by the agency with the execution of FSA Form 2201-Lenders Agreement. Additional information may include names of loan officers, experience in making and servicing agriculture loans, service area, number of agriculture loans, and example of loan narrative.

FSA estimates that 10 new lenders will apply for SEL status annually and will spend about 5 hours to furnish additional information.

7 CFR 762.106(a) Preferred and Certified Lender Programs (New Lenders)

Lenders who desire PLP or CLP status must prepare a written request addressing their desire to receive PLP or CLP status and their branch office(s) which they desire to be considered by the Agency for approval. The lender may include any additional supporting evidence or other information the lender believes would be helpful to the Agency in making its determination. FSA estimates 10 new lenders will apply for PLP status and 10 new lenders will apply for CLP status annually. The estimated time to furnish the required information from lenders is 5 hours per response.

7 CFR 762.106(f)(2) CLP or PLP Status-Renewal

PLP or CLP status will expire within a period not to exceed 5 years from the date the lender's agreement is executed, unless a new lender's agreement is executed. Renewal of PLP or CLP status is not automatic. A lender must submit a written request for renewal of a lender's agreement with PLP or CLP status. The agency estimates approximately 25 CLP & 45 PLP lenders will continue in the guaranteed loan program and will need to reapply for status annually. The estimated time to furnish this information is 5 hours per response.

7 CFR 762.106(b)(6)(i) and 762.106(c)(1) CLP and PLP Criteria – Training

A representative of each CLP and PLP Lender must agree to attend Agency sponsored training once every 12 months. The Agency estimates 120 CLP lenders and 215 PLP lenders will attend these training sessions. We estimate each lender will have two representatives present. FSA estimates time to travel to trainings and attend will require around 8 hours per representative each year.

7 CFR 762.106(e) Monitoring SEL, CLP and PLP Lenders

SEL, CLP and PLP lenders will provide information and access to records upon Agency request to permit the Agency to audit the lender for compliance with regulations. FSA reviews a maximum of 20 percent of each SEL's loans, 20 percent each of CLP and 20 percent of PLP lender's loans every other year. We estimate a maximum of 752 SEL lenders, 166 CLP lenders and 88 PLP lenders will be required to provide the necessary information to the agency each year. On average, the time to provide the information is 6 hours per response.

7 CFR 762.110(f)(1) Conflict of Interest

When a lender submits the application for a guaranteed loan, the lender will inform the FSA in writing of any relationship which may cause an actual or potential conflict of interest. FSA estimates 800 lenders must provide additional information regarding conflict of interest on approximately 800 loan applicants. The estimated time to furnish this information is 15 minutes (0.25 hour) per request.

7 CFR 762.123(a)(1) & 762.123(b) Insurance and Farm Inspection Requirements

Lenders must require borrowers to maintain adequate property, public liability, and crop insurance to protect the lender and the Government's interests. Loan applicants must obtain flood insurance if buildings are or will be located in a special flood hazard area. Other insurance, including crop insurance, must be obtained as required by the lender or FSA based on the strengths and weaknesses of the loan. If a lender was making a loan without a guarantee, they would as a general risk management practice, require insurance. Thus, requiring an applicant to obtain insurance is a standard industry practice and no burden is included.

Before submitting an application, lenders must make an inspection of the farm to assess the suitability of the farm and to determine any development that is needed to make it a suitable farm. FSA estimates 1065 lenders must make an inspection for 7300 loan applications annually. The estimated time is 75 minutes (1.25 hours) for each inspection.

7 CFR 762.130(xi)(2) Inspections

The lender must notify FSA of any scheduled inspections during construction and after the guarantee has been issued. Approximately 5 percent of loans are for capital improvements. Between FY 2020 and FY 2022 the agency made approximately 7300 guaranteed farm ownership loans. FSA estimates 500 lenders will need to make inspections for 500 loan applicants that will involve capital improvements. The time required for each notification is 30 minutes (0.5 hour).

7 CFR 762.124(a)(1) Interest Rates, Terms, Charges, and Fees

At the request of FSA, the lender must provide evidence that the rate charged is not higher than the maximum rate allowed by the CFR. This evidence may consist of documented administrative differential rate schedule formulas used by the lender or a risk rate matrix. FSA estimates 10 lenders will be required to justify the interest rate charged on 10 loan applications annually. The estimate time to furnish this information is 15 minutes (0.25 hour) per response.

7 CFR 762.127 Appraiser Requirements

FSA may require a lender to obtain an appraisal based on the type of security, loan size, and whether it is primary or additional security. The lender must demonstrate to the FSA's satisfaction that the appraiser possesses sufficient experience or training to estimate the market value of agricultural property. FSA estimates 1,000 lenders will submit justification of the appraiser's qualifications on an average of 3 reports per lender. The estimate time to furnish this documentation is 60 minutes. (1 hour) per response.

7 CFR 762. 127(c) Appraisal-Real Estate

In the past 3 fiscal years, FSA obligated on average 4030 guaranteed farm ownership loan applications annually. Appraisals are required for nearly all FO loans and FSA may require a lender to obtain an appraisal based on the type of security, loan size, and whether it is primary or additional security. Therefore, FSA estimates 4300 guaranteed FO loans will need to have appraisal reports completed by qualified appraiser. The estimated time to complete is 5 hours.

7 CFR 762.127(b)(3) Appraisal-Chattels

Loans made for operating purposes requires an appraisal to be completed to adequately justify the value of security being pledged to secure the loan. FSA estimates appraisal will be completed for nearly all OL loans. Some OL loans made at the same time may be covered by a single appraisal. In the past 3 fiscal years, FSA obligated 3415 guaranteed operating loans; therefore, FSA estimates 3415 guaranteed OL loans will need to have an appraisal completed. Lenders have qualified persons who possess sufficient experience and training to establish market values of chattels (equipment, livestock, etc.). Chattel appraisals require less time to complete than real estate appraisals. FSA estimates on average the time to complete a chattel appraisal report is approximately 1 hour.

7 CFR 762.128(d)(2) Equal Opportunity and Non-Discrimination

When the guaranteed loan involves construction, the contractor or subcontractor must file all compliance reports, equal opportunity and non-discrimination forms, and otherwise comply with all regulations prescribed by the Secretary of Labor pursuant to Executive Orders 11246 and 11375. There are few farm construction companies with over 50 employees; however FSA estimates that this will only affect no more than 25 lenders. The estimated time to furnish this information is 75 minutes (1.25 hours) per response.

7 CFR 762.130(f) Replacement of Loan Guarantee or Assignment Guarantee Agreement

If the guarantee or assignment guarantee agreements are lost, stolen, destroyed, mutilated, or defaced, FSA will issue a replacement to the lender or holder. FSA estimates that 75 lenders will provide the necessary documentation to the agency annually. The time required to make the request to FSA is estimated to take 30 minutes (0.50 hour) per response.

FSA estimates that 1401 lenders require 2 hours to submit this documentation.

7 CFR 762.141(c) Reporting Requirements – CLP Lenders

CLP lenders must also provide a written summary of the lender's annual analysis of the borrower's operation. CLP lenders must also provide the borrower's balance sheet and income and expense statement for the previous year, in addition to an annual farm visit report or collateral inspection. FSA estimates that 119 lenders require 60 minutes (1 Hour) to submit this documentation. This annual analysis may be waived if the borrower is financially strong, however most lenders provide the information anyway.

7 CFR 762.141(3)(e) Reporting Requirements – PLP Lenders

PLP lenders will submit additional reports as required in the lender's agreement. A majority of PLP lenders are not required to provide FSA with any analysis information. FSA estimates that 20 PLP lenders will submit additional information according to their lender's agreement. FSA estimates 30 minutes (0.5 hours) to provide this information.

7 CFR 762.142(b)(2) Partial Releases

This section allows lenders to release a portion of guaranteed loan security without consideration when certain conditions are met. Based on discussions with lenders and State Specialists, the burden estimate for this provision is 100 lenders will submit an average of 3 requests for concurrence requiring 6 hours to compile and submit the information.

7 CFR 762.142(c) Subordinations

FSA may subordinate its security interest on a direct loan when a guaranteed loan is being made if the requirements of the regulations government FSA direct loan subordinations are met. FSA estimates that approximately 25 lenders will submit an average of 4 subordination requests annually. The time required to complete and submit the required documentation is estimated to be 6 hours.

7 CFR 762.142(d)(9) Transfer and Assumption

Transfers and assumptions servicing action must be approved by the Agency in writing for SEL and CLP lenders. FSA estimates that each year 50 lenders will request transfer and assumption servicing actions. The loans that were sold on the secondary market will be assumed by someone else. The estimated time it will take to notify the holder in writing of the assumption is estimated at 20 minutes (.33 hours).

7 CFR 762.144(b)(1) Repurchase by the Lender

When a lender is requested to repurchase a loan from the holder, the lender must consider the request according to the servicing actions that are necessary on the loan. It is estimated that 100 lenders will make 2 requests annually, and it will take 30 minutes (.50 hours) per response to make the demand on the lender and provide evidence of ownership.

7 CFR 762.144(c)(1) Repurchase by the Agency – Holders

If the lender does not repurchase the loan, the holder must inform the FSA in writing that demand was made on the lender and the lender refused. FSA purchases an average of 1 loan per year from the holders under this section. FSA estimates that each request will require approximately 15 minutes (.25 hours) for the holders and 15 minutes (.25) hours for the lenders to provide evidence of ownership and to provide loan balance information.

7 CFR 762.144(d) Repurchase for Servicing

If, due to loan default or imminent loan restructuring, the lender determines that repurchase is necessary to adequately service the loan, the lender may repurchase the guaranteed portion of the loan from the holder, with the written approval of FSA. FSA estimates 50 lenders will make 5 requests annually. The time required for the lender to request SED concurrence with the repurchase is estimated to average 20 minutes (.33 hours) per response.

7 CFR 762.145(a)(3)(iii); 762.145(b)(e); 762.145(a)(4) Restructuring Guaranteed Loans – SEL, CLP, & PLP Lenders

To restructure guaranteed loans, SEL and CLP lenders must obtain prior written approval of FSA for all restructuring actions. All lenders will submit copies of any restructured notes or lines of credit to FSA. Assuming that future restructuring actions are consistent with previous years, FSA estimates that 209 SEL lenders will make 3 requests annually. The burden to compile and provide the information, which is a normal business practice, is projected at 3 hours per request. Approximately 70 CLP lenders will make 1 requests annually and FSA estimates 2 hours per request. PLP lenders will restructure loans in accordance with their lender's agreement. FSA estimates 71 PLP lenders will submit copies of restructured notes or lines of credit. 7 CFR 762.146(a)(2) Other Servicing Procedures – Additional Loans and Advances – SEL and CLP Lenders

SEL and CLP lenders must not make additional loans or advances without prior written approval of FSA, except as provided in the borrower's loan or line of credit agreement. The burden to the lender is estimated at 2 hours. This type of analysis is a standard business practice for SEL and CLP lenders. FSA estimates that there will be an average of 400 loan applicant requests annually for additional loans or advances.

7 CFR 762.146(c) Release of Liability after Liquidation

After a final loss claim has been paid on the borrower's account, the lender may release the borrower or guarantor from liability if certain requirements are met. FSA processes approximately 480 lender loss claims annually and the estimated time is 5 hours per request, however not all loss claims include a release of liability and as such 150 is the estimate.

7 CFR 762.146(d) Interest Rate Changes

The lender may change the interest rate on a performing (non-delinquent) loan with the borrower's consent. To do so, the lender must repurchase the loan or obtain the holder's written consent, obtain a legally effective or amendment to the existing notes, and informs the Agency of the rate change. FSA estimates 250 lenders on average will process 2 interest rate changes annually. FSA estimates about 1 hour for the lender to comply.

7 CFR 762.147 Servicing Shared Appreciation Agreements

This section governs collection of Shared Appreciation Agreements (SAA) required for consideration to receive a guaranteed loan writedown. FSA estimates that 5 SAA's will be completed by lenders annually. The time required to monitor agreements and to provide FSA with the Recapture Reimbursement is 4 hours per response.

7 CFR 762.149(a) Mediation

This section requires lenders to participate in borrower and creditor mediation when the loan is made in a State with a law that mandates mediation. FSA estimates that lenders will attend 100 mediation meetings per year as a result of this requirement. The time required to prepare for and attend each meeting is estimated to be 4 hours.

Additional Information: **7 CFR 763.7 (b)(2)(v), 763.7(b)(14)**

The proposed rule includes requirement for a complete loan application that permits the agency to request any additional information needed to effectively evaluate the land contract application. The requirement is needed as it is impossible to list all potential information that would be needed from each and every buyer/applicant. In most cases, this will be limited to providing the agency with a copy of documents, such as a divorce decree, information pertaining to child support or alimony paid or received, or copy of driver's license or other documents if required under State law. Collection of information under this requirement will be limited to only those items that potentially impact the buyers/applicants cash flow projections or are needed to ensure the agency obtains a legally enforceable lien on the proposed loan security. Therefore, this form will be required approximately 0 times annually with each requiring approximately 20 minutes 0.33 hours preparing and submitting. 3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decisions for adopting this means of collection. Also describe any consideration of information technology to reduce burden.

All forms that the lender and applicant must complete in their entirety, or review and execute, are posted on the e-Gov website at <http://www.sc.egov.usda.gov>. For forms the applicant is required to complete in their entirety, the fillable version of the form, as well as detailed instructions on completing the form, are included on the e-Gov website. Forms prepared by the agency, that the public simply reviews and signs, are also provided on the e-Gov website. However, in lieu of detailed instructions for completing those forms, the

instructions simply state that the forms are provided on the website for information purposes only.

Non-form information collections require providing copies of documents in the applicant's possession or providing written replies to agency requests or offers. Non-form collections, as well as all agency forms, may be submitted in person at the local agency office, by mail, email, or by facsimile. Further, applicants with established Level 2 accounts may provide non-form information collections as any kind of non-executable attachments, such as PDF, doc, xls, or text formats.

FSA estimates that approximately 70 percent of responses will be provided through the internet or through email.

4. Describe efforts to identify duplication. Show specifically why similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

Information collected through this regulation duplicates some of that required of other Agency procedures. The information contained in this collection is made part of the case file and, when reasonably current, may be used in lieu of re-submission by the applicant or borrower; however, financial information that is collected at another time may be dated and not useful for the specific action being considered. Also, lenders are permitted to use their own forms to the maximum extent possible. The information collections pertain primarily to the securing and documenting decisions regarding FSA guaranteed farm loans. Various program areas within FSA share data; however, information collections established in this regulation would typically not be available from another agency. Therefore, the potential to share data is limited.

5. Methods to minimize burden on small business or other small entities (Item 5 of OMB Form 83-I), describe any methods to minimize burden.

FSA has made every effort to minimize burden on small businesses and other small entities. The Agency only requires the information collections when necessary to act on an applicant's or borrower's request for guaranteed loan assistance; therefore, it is unable to further reduce the frequency of the collections. Collections are limited to those that are essential in determining that loan applicants meet statutory requirements and have adequate repayment ability and security for the requested loan. The information required by this regulation is financial in nature and similar to that required to complete Federal tax returns, make business decisions or to obtain a loan from any commercial lender. There are 6,531 small businesses or entities (7 percent x total number of respondent).

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or conducted less frequently, as well as any technical or legal obstacles to reducing burden.

FSA relies on current information to carry out the business of the program as intended and to protect the government's interest. If the information were not collected, or collected less frequently, FSA would be unable to meet the congressionally mandated mission of the guaranteed loan program.

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:

- a. Requiring respondents to report information more frequently than quarterly. There are no information collection requirements that require reporting more frequently than quarterly.
- b. Requiring written responses in less than 30 days. There are no information requirements that require written responses in less than 30 days.
- c. Requiring more than an original and two copies. There are no information collection requirements that require more than an original or single copy of a document.
- d. Requiring respondents to retain records for more than 3 years. Lenders are expected to retain records of loan transactions for at least the life of the loan. This is necessary to provide documentation in the event of a loss claim. It is standard business practice for a financial institution to keep loan records for the life of the loan in a customer file.
- e. Not utilizing statistical sampling. There are no such requirements.
- f. Requiring the use of statistical sampling which has not been reviewed and approved by OMB. There are no such requirements.
- g. Requiring a pledge of confidentiality. There are no such requirements.
- h. Requiring submission of propriety trade secrets. There are no such requirements.

8. Describe efforts to consult with persons outside the Agency to obtain their view on the availability of data, frequency of collection, the clarity of instructions and record keeping disclosure, or reporting format (if any), and on data elements to be recorded, disclosed, or reported.

The 60-day notice was published on May 23, 2023 (88 FR 33080). There were no received comments in the Regulations.gov.

One comment was received for the published 30-day notice (88 FR 60430). FSA appreciates California FarmLink's history and continued interest in our program. Regarding their comment concerning the use of demographic data collected, this data is collected for monitoring purposes and will not be used as a factor in determining whether a loan request is approved or not approved, although if the data is not provided the applicant may not qualify for targeted loan funds. This information is collected on Form FSA-2211, "Application for Guarantee", and the form states this information is voluntary. Part D states:

Ethnicity, race, and gender information is requested in order to monitor FSA's compliance with Federal laws prohibiting discrimination against loan applicants and to determine if you qualify for targeted funds. You are not required to furnish this information but are encouraged to do so. Failure to complete this information may result in you not receiving access to targeted funds for which you may be eligible.

FSA has contacted the following individuals to obtain their views on this collection, and they do not have any comments on the forms and the information collection process.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

There are no payments or gifts provided to respondents.

10. Confidentiality provided to respondents.

No assurance of confidentiality is provided. Requests for information received by FSA Agency will be handled in accordance with the provisions of the Freedom of Information Act and the Privacy Act.

11. Questions of sensitive nature.

The information collected is of a financial nature. As a condition of the receipt of program assistance, respondents must provide total disclosure of income data, debts and assets, and

history of business dealings that may be considered sensitive. Regardless, the information is required to properly evaluate the request for guarantee.

12. Provide estimates of the hour burden of the collection of information.

The numbers are included in the Reporting and Recordkeeping Requirement.

Respondents cost per Hour			
Farmer			52.31
Total Hrs.-Farmer			2,792
Total Cost-Farmer		\$	146,050

Business			52.48
Total Hrs.-Business			151,839
Total Cost-Business		\$	7,968,519
Total Cost		\$	8,114,568

Respondent cost per hour was derived by using U.S. Bureau of Labor Statistics Occupational Employment and Wage Estimate, May 2022, Table 11-9013-Farmers and Ranchers, and Other Agriculture Managers. The U.S. mean hourly wage for this group is \$40.29 hourly and \$83,790 annually, as measured by the Bureau of Labor. The benefit costs are averaged \$12.02 per hour so the total respondent cost for the farmers is \$52.31.

Respondent cost per hour was derived by using U.S. Bureau of Labor Statistics Occupational Employment and Wages, May 2022 Table 13-2072-Loan Officers. The U.S. mean for loan officer's income, as measured by the Bureau of Labor is \$84,160 annually or \$40.46 hourly. The benefit costs are averaged \$12.02 per hour so the total respondent cost for business is \$52.48 for the Loan officers.

13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information.

There are no burden costs on respondents for capital, start-up, total operation, maintenance or purchase of services other than what is usual and customary for normal business operations.

14. Provide estimates of annualized cost to the Federal Government.

FSA employees review information provided by applicants, borrowers, and lenders and make eligibility and feasibility determinations. FSA estimates employees spend 206,000 hours reviewing and processing the collections included in this docket.

Averaging the GS-9, GS-11, GS-12 Step-5 (2023 RUS-Salary Table) salaries indicates an average employee salary of \$78,975 per year. Standard adjustments recommended by FSA's Budget Division of 33.3% are added for benefits and miscellaneous expenses (\$26,299), for a

total average cost for an FLP employee salary of \$105,274 per year, which divided by 2,080 hours equals an hourly salary of \$50.61.

The estimated annualized cost to the Federal Government is: \$10,425,660.

15. Explain the reason for any program changes or adjustments reported in items 13 or 14 of the OMB form 83-I.

The annual responses have been reduced by 18,974 (193,648-174,674 (new)) while the burden hours reduced by 11,093 hours in the request (165,724-154,631 (new)). The reason for the decrease is due to a drop in Guaranteed loans originated between the years FY 2020 and FY 2022. Between FY 2019 and FY 2022, the number of Guaranteed loans fell by 19 percent from 7,611 to 6,137. In addition, the number of loss claims and status reports received is much lower than FY 2020.

16. For collection of information whose results will be published, outline plans for the tabulation and publication.

The information collections required under this regulation will not be tabulated or published.

17. If seeking approval to not display the expiration date for the OMB approval of information collection, explain the reasons that display would be inappropriate.

FSA will display the OMB expiration date.

18. Explain each exception statement to the certification statement.

There are no items in the certification statement to which FSA cannot certify.
