DEMOGRAPHICS

These tables collect demographic information for all individuals who have received direct services for psychostimulant use disorder, within the current reporting period in the project’s rural service area. The total number of each sub-section should equal the total number of individuals who have received direct services within the current reporting period. **Each sub-section should total to the same amount.** Please do not leave any sections blank or use N/A (not applicable) since the measures are applicable to all RCORP grantees providing direct services. If the number for a particular category is zero (0), please put zero in the appropriate section (e.g., if the total number that is Hispanic or Latino is zero (0), enter zero in that section). If data are incomplete or have other limitations, please enter the data you have, indicate the data have limitations, and explain those limitations in the comments box below.
