Next Steps Tracker

Developing and assigning next steps is a critical component of the OHZDP Workshop. You can track your previously established next steps here to continue and monitor multi-sectoral coordination and progress after the workshop.

While facilitators, core planning team members, and workshop admins can update this section at any time, reminders will be sent at standard intervals (e.g., 1 year, 3 years, etc.) to assess changes or improvements. This information will also support CDC's One Health Office in understanding the impacts of the OHZDP workshop to help support further global capacity building activities. Information inputted or updated in this section of the portal is voluntary, but we hope will be a useful resource for you to monitor and evaluate impacts over time.

About One Health

About CDC

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30333; ATTN: PRA 0920-1154
