Based on the description and justification for the **Fellowship Management System** activities, and the definition of research defined by Federal Policy for the Protection of Human Subjects (45 CFR 46), the request to collect and use data related to managing fellowship programs is not considered human subjects research, and therefore does not require IRB review or approval. This determination is reinforced in the determination documented in STARS, under accession number CSELS-BMA-7/6/21-710af.

If questions exist regarding the nonresearch determination or need for IRB review, please contact me at 404-639-8035 or acq0@cdc.gov.
