### Collection of Information employing Statistical Methods

1. Respondent Universe and Sampling Methods
2. Procedures for the Collection of Information
3. Methods to Maximize Response Rates and Deal with Nonresponse
4. Tests of Procedures or Methods to be Undertaken
5. Individuals Consulted on Statistical Aspects and Individuals Collecting and/or Analyzing Data

## **B. Collections of Information Employing Statistical Methods**

### **1. Respondent Universe and Sampling Methods**

#### **Key informant interviews (KII)**

Population: All state HDs.

Sample: Sample of key informants from state health departments, including State Public Health Emergency Preparedness Directors (PHEP), State Animal Health Officials (SAHO), and State Public Health Veterinarians (SPHV). The sample will include states with known positive or presumptive positive herds with avian influenza A(H5N1), as well as states with no evidence of positive herds.

#### **Online Survey**

Population: All state HDs.

Sample: State health departments (Directors of public health preparedness (DPHPs), state public health veterinarians and state animal health officials in all 50 U.S. States (TBD: District of Columbia, Territories and Tribal Nations).

### **2. Procedures for the Collection of Information**

Phone interviews will be conducted for the KII. The survey will be conducted online.

### **3. Methods to Maximize Response Rates and Deal with No Response**

Respondents are willing trusted public health partners who will benefit from the results of this information collection activity.

### **4. Test of Procedures or Methods to Be Undertaken**

Instruments will be pre-tested in the form of discussions with select state health department representatives, including State Public Health Emergency Preparedness Directors (PHEP), State Animal Health Officials (SAHO), State Public Health Veterinarians (SPHV).

Key informant interviews will be done first, which will inform any modifications to the draft online survey administered to state health department representatives, including State Public Health Emergency Preparedness Directors (PHEP), State Animal Health Officials (SAHO), State Public Health Veterinarians (SPHV).

Online survey of state health departments including State Public Health Emergency Preparedness Directors (PHEP), State Animal Health Officials (SAHO), State Public Health Veterinarians (SPHV).

### **5. Individuals Consulted on Statistical Aspects and Individuals Collecting and/or Analyzing Data**

This information collection request does not employ statistical methods.
