

# OneLab Network

## What is OneLab Network?

**OneLab Network** is a **collaborative community of practice** for public health and clinical laboratory professionals and CDC.

OneLab Network aims to meet laboratory learners' most urgent training needs and collectively support rapid, large-scale emergency responses.

**OneLab Network is open to all laboratory professionals.**

## Join OneLab Network today!

## Why join OneLab Network?

### Free Webinars

- Access free, laboratory-relevant sessions

### CDC Laboratory Training Experts

- Take advantage of a direct channel for laboratory professionals to share your trainings needs with CDC

### Community of Practice

- Enjoy a peer-to-peer learning community of laboratory professionals

## About OneLab

OneLab Network is part of CDC OneLab. CDC developed OneLab in 2021 to unite clinical and public health laboratory professionals and the testing community to improve training for public health emergencies.
