GG0170. Mobility (Assessment period is the last 3 days of the stay)

Complete when A2400C minus A2400B is greater than 2 and A2105 is not = 04.

Code the resident's usual performance at the end of the stay for each activity using the 6-point scale. If an activity was not attempted at the end of the stay, code the reason.

Coding:

Safety and Quality of Performance - If helper assistance is required because resident's performance is unsafe or of poor quality, score according to amount of assistance provided.

Activities may be completed with or without assistive devices.

- 06. Independent** - Resident completes the activity by themselves with no assistance from a helper.
