Knowledge-Based Authorization

4.15.4

OMB Attestation Addition
SARA3 DD-COA Module Change Request

NUANCE

Chapter 1:   Introduction

This document is one part of a set of documents that describe the user interface for the Social Security Administration (SSA) Change of Address (COA) and Direct Deposit (DD) application. This document describes only the interaction for **knowledge-based authentication** (KBA). The call flow has passed through initial introduction and caller qualification before getting to this section. A caller will pass through either this module, or through the password authentication (PWA) module, but not both.

Note that this entire section is jumped into from the Global part of the application and returns to it. The only entry point to this section is from COA-DD 1330-CallKBAuth-Code. Exit from this section is by return to the same module (COA-DD 1330-CallKBAuth-Code)

Chapter 2:   Global Behavior

2.1   Privacy

The following information is considered confidential; SSN, First Name, Last Name, Mother's Maiden Name, Other Last Name (as it appears on their Social Security card), Date of Birth, Place of Birth, and Payment Amount. The confidential flag should be set to true for all dialog modules collecting this information from the caller.

2.2   Timeouts and Retries

Retry prompts are specified in the DialogModule tables, and they are preceded by the appropriate apology prompt:

Message Number 00110	retry 1	upon rejection of speech	apology_re1	I'm sorry, I didn't understand you.
Message Number 00111		upon confirmation	apology_re1 –	My mistake.
Message Number 00112	retry 2	upon rejection of speech	apology_re2	I'm sorry, I still didn't understand you.
Message Number 00113		upon confirmation	apology_re2 –	My mistake again.
Message Number 00132	Timeout 1	upon no input	apology_re1	I'm sorry, I didn't hear anything.
Message Number 00111		upon confirmation	apology_re1 –	My mistake.
Message Number 00133	Timeout 2	upon no input	apology_re2	I'm sorry, I still didn't hear anything.
Message Number 00113		upon confirmation	apology_re2 –	My mistake again.
	excess retries		[…]	<timeout / retry prompt(s) specified in DialogModule table>

If callers reach maximum timeouts or retries they will be sent to 5900-DMfailure-Msg and then routed back to Global. For all other global behavior see chapter 4 in the Change of Address/Direct Deposit Global user interface document.

2.3   Avoid Same Mistake

(This section documents the already-existing system behavior. It is not a change.)

In accordance with OSDM default settings, "AvoidSameMistake" is allowed in all collection DMs unless specified otherwise. This is a global parameter and has no specific context.

"AvoidSameMistake" disallows an utterance that is recognized if the utterance was previously rejected by a negative response (i.e. No) during confirmation. The application advances to a retry because the No response given in the initial collection caused the DM to remove the spoken utterance from the list of possible interpretations.

"AvoidSameMistake" is set to TRUE by default and if it needs to be disabled in any individual DM, the Dialog Module Notes section or Developer Notes section will specify "avoidsamemistake = False".

Chapter 3:   Global Commands and Global Prompts

3.1   Global Commands

As per 4.5 Global Commands and Global Prompts section in COA-DD Global UI, 'Main Menu' global command will transfer to N8NN Main Menu module 1100-Main-DM.

Developer Notes		

Reverse ANI lookup returns name data in many formats. The following rules apply to the handling of first and last names received from the Reverse ANI Lookup string.

For all names:

All punctuation shall be removed
Numbers shall be removed
Single and double letters shall be ignored
Any titles or common suffixes shall be removed (Dr Jr II etc.)
Any contiguous collection of non-whitespace characters beside the above are taken as a name.
Very short names like 'Al' will be ignored on the assumption that these would fail to match SSA records.

First Names
Multiple names shall be broken down to individual names (i.e. John & Joan would be added to the verification grammar as 2 entries 1 for John and a second for Joan). These names will be sent to the parallel grammar referenced in DM 5035.
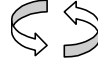

Last Name
Multiple last names will not be added individually to the verification grammar, but as a single entry (i.e. Smith-Jones would be added to the grammar as one entry Smith Jones.). This name will be sent to the parallel grammar referenced in DM 5045.

		0310 = Caller Requested Main Menu	
		0311 = Caller Requested Agent	

Developer notes
Collection Max Retry is set to 0. Collection Max Timeout is set to 2 Single character recognition will be treated as an out of grammar response. If there is a no-match/rejection error, OR if the caller gives a "No" confirmation to the name, the system checks the ANI and SSN, loads all associated names into a custom grammar and then switches to the SPELL-ONLY fallback, which is announced in prompts Respell1, Respell2, Respell3, and SpellHelp. This matches the spell-only fallback strategy in TPPW, which is based on the Nuance Name OSDM callflow. **Set Confidential Flag to TRUE**

| | 0311 = Caller Requested Agent | |

Developer notes

If condition = Success, load all returned names into custom spell-only grammar

If condition = Failure, use existing spell-only grammar

Single character recognition will be treated as an out of grammar response.

If there is a no-match/rejection error, OR if the caller gives a "No" confirmation to the name, the system checks the ANI and SSN, loads all associated names into a custom grammar and then switches to the SPELL-ONLY fallback, which is announced in prompts Respell1, Respell2, Respell3, and SpellHelp. This matches the spell-only fallback strategy in TPPW, which is based on the Nuance Name OSDM callflow.

Respell 3 is conditional -- may not always play depending on the number of retries/confirmations played.

Max Timeout/ Retry set to 4

Set Confidential Flag to TRUE

When invoking recognition and the Caller-First-name variable is not null, invoke a parallel verification grammar provided by Nuance as a JSP, seeded with the contents of the Caller-First-name variable.

Set confidence levels to .400

Developer notes
Collection Max Retry is set to 0.
Collection Max Timeout is set to 2
. If there is a no-match/rejection error, OR if the caller gives a "No" confirmation to the name, the system checks the ANI and SSN, loads all associated names into a custom grammar and then switches to the SPELL-ONLY fallback, which is announced in prompts Respell1, Respell2, Respell3, and SpellHelp. This matches the spell-only fallback strategy in TPPW, which is based on the Nuance Name OSDM callflow.
Set Confidential Flag to TRUE

		0303 = Max No Confirm		
		0304 = Max Help		
		0310 = Caller Requested Main Menu		
		0311 = Caller Requested Agent		

Developer notes
If condition = Success, load all returned names into custom spell-only grammar
If condition = Failure, use existing spell-only grammar
If there is a no-match/rejection error, OR if the caller gives a "No" confirmation to the name, the system checks the ANI and SSN, loads all associated names into a custom grammar and then switches to the SPELL-ONLY fallback, which is announced in prompts Respell1, Respell2, Respell3, and SpellHelp. This matches the spell-only fallback strategy in TPPW, which is based on the Nuance Name OSDM callflow.
Respell 3 is conditional -- may not always play depending on the number of retries/confirmations played.
Set Confidential Flag to TRUE Set confidence levels to .400

5115-PostSSN-DB

	Database Query	
In this DM, the collected SSN is "posted" using the TNRS request.

5140- GetMother'sMaiden

			Name DialogModule™
Entering from			
5135-Mother'sMaiden Check Condition			
Prompts			
Msg. Number	**REQID**	**Condition**	**Wording**
50306	5140-GetMother'sMaiden-Prompt-Initial-1		What was your mother's MAIDEN LAST name including the spelling? For example if the name was Smith, you'd say "Smith, S M I T H". Go ahead.
50307	5140-GetMother'sMaiden-Prompt-Timeout1		Sorry, I didn't hear you. Please give me the last name with the spelling.
50308	5140-GetMother'sMaiden-Prompt-Timeout2		I'm afraid I still can't hear you. Please give me the last name and spell it.
50311	5140-GetMother'sMaiden-Prompt-Retry1		[Global Default] Just spell your mother's maiden last name for me.
50348	5140-FT-ConfirmationApology-Prompt	If "no" on confirmation	Sorry about that. Let's try again.
50321	5140-GetMother'sMaiden-Prompt-Respell1		Using only the letters of the alphabet, please spell your mother's maiden last name quickly. For example, if her name was O'Connor, you would say O C O N N O R. Please spell her maiden last name now
50317	5140-GetMother'sMaiden-Prompt-Respell2	If caller has Timeout1 OR Retry1	Sorry I didn't hear you. Using only the letters of the alphabet, please spell your mother's maiden last name quickly, one letter at a time.
50322	5140-GetMother'sMaiden-Prompt-Respell3	If caller has Timeout OR Retry in response to the Respell2 prompt This prompt may not always play depending on the number of retries/ confirmations played.	[Global Default] If the last name has an apostrophe, space or a hyphen in it, you can just skip that. For example, if it's a two part name like Folsom hyphen Jones, you should just drop the hyphen and not worry about capital letters. Just say f-o-l-s-o-m-j-o-n-e-s. Try spelling the last name one more time.
50323	5140-GetMother'sMaiden-Prompt-SpellHelp	If last prompt was spell only	I need you to spell just the last name. If the last name has an apostrophe, space or a hyphen in it, you can just skip that. It works best if you use ONLY letters and speak at a quick pace. For example, to spell Smith, you don't need to say S as in Sam, M as in Michael, just say S M I T H … try it again. Please spell the last name for me now.
50312	5140-GetMother'sMaiden-Prompt-SayHelp	If last prompt was say and spell	I need you to say the last name and then spell it for me. For example, if the last name was O'Neal, you'd say "O'Neal, O N E A L".

00120	5140-GetMother'sMaiden-Prompt-Success-1		Alright.

	0303 = Max No Confirm	
	0304 = Max Help	
	0310 = Caller Requested Main Menu	
	0311 = Caller Requested Agent	

Developer notes

The following prompts use SAY AND SPELL grammars: Initial-1, Timeout1, Timeout2, and SayHelp.

If there is a no-match/rejection error, OR if the caller gives a "No" confirmation to the name, the system switches to the SPELL-ONLY fallback, which is announced in prompts Retry1, Retry2, Respell1, Respell2, Respell3, and SpellHelp. This matches the spell-only fallback strategy in TPPW, which is based on the Nuance Name OSDM callflow.

In spell-only fallback collections, use spell-only grammar.

Respell 3 is conditional -- may not always play depending on the number of retries/confirmations played.

5210-LastPmt-VM

Currency DialogModule™
Ask caller the amount of the last benefit payment they received.

Entering from
5205-LastPmt Check Condition

Prompts **Message Number**	**REQID**	**Wording**
52101	5210-KBA-LastPmt-Prompt-Initial1	One last question.
52102	5210-KBA-LastPmt-Prompt-Initial2	What was the amount of the last benefit check you received in dollars and cents.
52103	5210-KBA-LastPmt-Prompt-Retry1	[Global Default] I need the amount in dollars and cents, such as one hundred twenty nine DOLLARS and thirty seven CENTS. How much was your last payment?
52104	5210-KBA-LastPmt-Prompt-Retry2	[Global Default] Please speak slowly and clearly and tell me the amount again.
52105	5210-KBA-LastPmt-Prompt-Timeout1	I'm sorry, I didn't hear anything. I need the amount in dollars and cents, such as one hundred twenty nine DOLLARS and thirty seven CENTS. How much was your last payment?
52106	5210-KBA-LastPmt-Prompt-Timeout2	I'm sorry, I still didn't hear anything. You'll need to know the exact amount of your last benefit check in dollars, but you can skip the cents. If you don't know the amount, we can't proceed and you'll need to call back later when you do know. So if you know the payment amount, please say it now.
52107	5210-KBA-LastPmt-Prompt-Help	You'll need to know the exact amount of your last benefit check in dollars, but you can skip the cents. If you don't know the amount, we can't proceed and you'll need to call back later when you do know. So if you know the payment amount, please say it now.
50394	5210-KBA-LastPmt-Prompt-SuccessYes	Got it.

Confirmation prompts		
Message Number	**Option / Name**	**Wording**
	Currency	Default confirmation, as handled by DialogModule™ "I think you said xxx dollars and xxx cents. Is that correct?" after Yes, play SuccessYes prompt

DialogModule parameters	
Parameter	**Value**
5210-KBA-LastPmt-Parameter	
Currency type	US Dollars
Allowed currency range	$10.00 - $9,999.00
Expected currency range	$10.00 - $999.00
Allowed currency granularity	1 cent
Expected currency granularity	1 cent
after_end_of_speech_timeout (incomplete timeout)	1500 msec
before_begin_of_speech_timeout	7,000 msec
allowing_barge_in	True
high confidence threshold	.995
max speech duration	16,000 msec

Event logging		
Record = U-KBPW-DM_5210-(Call Duration at start),T-KBPW-	0000 = Success	-Call duration at process end
	0001 = Error	
	0002 = Max No Input	
	0003 = Max No Match	
	0200 = Caller Hang Up	
	0303 = Max No Confirm	
	0304 = Max Help	
	0310 = Caller Requested Main Menu	
	0311 = Caller Requested Agent	

Developer notes
Usability note: The back end will ignore the cents, but it's best to ask for it anyway to make explaining what to say easier. Also, the caller is likely to be looking at a written amount, so if they know the dollars they'll know the cents too. **Set Confidential Flag to TRUE**

5215-CantProceed-Msg

	Play Prompt
Tell caller we can't proceed without those numbers.	

Entering from
5210-LastPmt-VM

Prompts		
Message Number	**REQID**	**Wording**
