**Notes for Administration of Survey:** The below questions are to gather feedback from participants in OFA's STAR training and technical assistance (TTA) activities, at the start of the TTA activity. The proposed questions gather feedback about the knowledge and skills related to the TTA topic that participants start with. Responses to the proposed feedback questions will be gathered through two means: (1) the registration process to capture data before an event and/or (2) web-based surveys at the start of an event. No more than six questions from the below set will be selected for each TTA activity.

**Intro Text for Respondents:** We have a few short questions that will help us understand your knowledge and skills coming into this [TTA activity]. We will ask you the same questions again at the end of the [TTA activity]. This will help us understand how participants' knowledge or skills may have changed. We guarantee the privacy of the information you provide. Answers to the questions below will only be reported after combining all responses. The results will not identify you as an individual.
