

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0970-0401)

TITLE OF INFORMATION COLLECTION: National Center on Subsidy Innovation and Accountability Feedback Surveys

PURPOSE AND USE: The National Center on Subsidy Innovation and Accountability (NCSIA), funded by the Office of Child Care (OCC), offers a variety of technical assistance (TA) opportunities related to Child Care and Development Fund (CCDF) subsidy. This includes TA on topics such as equal access to care, fiscal management, program integrity and accountability, and comprehensive background checks. To improve our services, NCSIA proposes gathering user feedback on our TA offerings using polls, discussion prompts, and surveys.

This request includes a bank of questions to use for poll, discussion, pre and post surveys and other customer feedback surveys for the NCSIA’s training and TA offerings. This includes requesting customer feedback on the following TA and training offerings:

- Universal TA (products and services widely available to states/grantees including resources on websites and webinars)
- Intensive TA (typically one-on-one support for a state/grantee where a TA plan is developed articulating goals/objectives of TA and the TA services that will help meet the objectives),
- Individualized (TA products and services delivered directly to a state/grantee on a shorter-term basis), and,
- Targeted (typically focused on a specific topic and moving from merely an understanding of the topic to an analysis of it with applications to the work)

Questions will be selected from the bank of questions and used to request feedback from participants of NCSIA TA opportunities. Feedback activities are estimated not to exceed 3 minutes for discussion questions and polls and 6 minutes total for pre-post surveys. NCSIA will select the most appropriate questions from this bank of questions based on the specific technical assistance event.

Information from the surveys will be used internally to help inform customer service feedback. Questions will be asked to determine whether NCSIA’s technical assistance and training provides high quality content that fits the needs of states, territories, and Tribes administering the CCDF program. Additionally, questions will help ensure that recipients are increasing their understanding and application of the technical assistance provided. Each data gathering will be voluntary and a low burden for respondents.

DESCRIPTION OF RESPONDENTS: Respondents will include state, territory, and Tribal level staff that work with the CCDF. This includes, but is not limited to, state administrators, division directors, fiscal management staff, program integrity and accountability staff, and staff that administer comprehensive background checks for the program. There may also be non-governmental organizations, including NCSIA’s partners, that respond to the questions. These respondents are the typical recipients of NCSIA’s training and TA offerings.
