Survey on Low Income Home Energy Assistance Program (LIHEAP) Information Technology (IT) Solutions

The purpose of this survey is to obtain data on the types of information technology solutions that LIHEAP grant recipients use to improve the quality and validity of applicant data and to reduce the participation burden for applicants, intake staff, and energy vendors. To minimize the respondent burden associated with this survey, it will ask you to report on whether you have an IT Solution to address the different LIHEAP program business requirements but will not ask for detailed explanations about how the system works. [Note: In the survey we ask you whether you would be willing to share more detailed information on your IT Solution(s).]

The Office of Community Services (OCS) is conducting this survey to further implement the recommendation made by the Government Accountability Office (GAO) in a study that examined how six different public assistance programs (including LIHEAP) have data sources to verify applicant eligibility in ways that would increase program integrity and potentially reduce client burden. [See: Federal Low-Income Programs: Use of Data to Verify Eligibility Varies Among Selected Programs and Opportunities Exist to Promote Additional Use | U.S. GAO] In the Report, GAO recommended that ... "The Assistant Secretary for the Administration for Children and Families (ACF) should review the electronic data sources used by state LIHEAP grant recipients and assess whether additional information could be provided to grant recipients on data sources not currently or widely used to verify income in order to enhance LIHEAP grant recipients' data verification efforts. (Recommendation 1)".

This survey will provide a more complete update for OCS and, if it requests, GAO on the IT Solutions that grant recipients have implemented. OCS will review the FY 2025 plans prior to conducting the survey and may fill in responses to some of the questions based on what OCS notes in those plans.

OCS is aware that many LIHEAP grant recipients have made significant enhancements to their information technology systems in recent years, including IT Solutions that go beyond data verification and furnish other ways of increasing the efficiency and effectiveness of LIHEAP program processes. Through this survey, OCS wants to document which grant recipients have been able to implement those IT Solutions and which grant recipients are looking for ways to implement those systems but have not yet been able to get those solutions implemented. By doing so, OCS hopes to be able to furnish IT Training and Technical Assistance (T&TA) to those grant recipients who need it, and to identify peers with whom grant recipients can discuss the most effective processes for specifying, contracting, and launching new IT Solutions.

PAPERWORK REDUCTION ACT OF 1995 (Public Law 104-13) STATEMENT OF PUBLIC BURDEN: Public reporting burden for this collection of information is estimated to average 2 hours per respondent, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. This is a voluntary collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The OMB # is 0970-0531 and the expiration date is 9/30/2025. If you have any comments on this collection of information, please contact kevin-schwartzbach@appriseinc.org

DISCLAIMER: Your responses to this survey will only be shared with OCS staff and contractors, LIHEAP grant recipients, and GAO if requested. OCS does not plan to publish the data. However, as with most federal records, the data may be subject to public disclosure under the Freedom of Information Act (FOIA). Any information provided to other grant recipients will help them determine whether a given system meets their business requirements. Any information provided to OCS will allow OCS to identify grant recipients' unmet IT needs and inform potential training and technical assistance efforts. [PAGE BREAK]

This survey contains the following modules:

- A. Context
- B. Program Outreach & Referrals
- C. Program Intake
- D. Data Verification
- E. Eligibility & Benefit Determination
- F. Applicant/Beneficiary Communications
- G. Intake Agency/Grant Subrecipient Communications
- H. Energy Vendor Communications
- I. Reporting to OCS
- J. Performance Management
- K. Additional Information

Each of these modules is what we consider to be a "Business Requirement" for your program. For example, one important business requirement is "Program Outreach and Referrals." In this section of the survey, we will be asking you about how you let households know that LIHEAP program benefits are available. An example of a "non-IT" initiative to address this business requirement is preparing and administering a Public Service Announcement (PSA) about the program. An example of an "IT" initiative to address this business requirement is to use information about program participants from the prior year to automate the process of sending a letter, email, or other communication to each household to alert them to the availability of benefits for this program year. In this survey, we will be focused on identifying "IT Solutions" to address each Business Requirement.

You will have the option to save your progress and exit the survey at any point and come back to complete the survey at a later time. Additionally, you will be provided with a PIN number which multiple staff members can use to login to complete different modules of the survey independently.

[PAGE BREAK]

Note: Most questions in this survey are multiple choice. However, if you'd like to provide additional information beyond the answer options, a text box is available below each multiple-choice question for optional comments. It looks like this:

Please provide additional information for question X# if necessary Text box... [NOTE: ANSWER NOT REQUIRED]

A. CONTEXT

In this section of the survey, we are asking you to furnish an overview of the Information Technology "tools" that you use to administer your program. To help you with furnishing that overview, please consider the following definitions.

Information Technology (IT) System – With this survey, we are trying to gather information about the different types of Information Technology (IT) Systems that are used to implement your LIHEAP program. When we refer to a system, we are referring to a computer system – including all hardware, software, and peripheral equipment – operated by a limited group of IT system users, that automatically performs certain functions related to an organization's business requirements. [Note: Wikipedia definition.]

Office Network Server - Most offices have some type of "network server." That is a storage space where everyone in the office can store and share digital documents and/or data. The network server is not what we are referring to when we talk about an IT System. The network server is more like an electronic storage file on which documents can be stored, but that does not perform any function other than storage.

Peripheral Equipment - Each of the staff working on the administration of your LIHEAP program will have peripheral equipment that they use to access the office network server and/or the LIHEAP program IT system.

- Terminals When IT systems were first developed, the peripheral equipment used by staff was a "terminal with a keyboard" that was connected directly to the IT system. Those terminals did not have a "hard drive" on which one could save information.
- Personal Computers Today, it is more common for each staff member to have a "personal computer." That device will have software (e.g., Microsoft Word, Excel) that the staff member can use to perform certain functions (e.g., prepare a document, develop a spreadsheet). Very often that personal computer will be hooked into a "shared server" that allows them to save files in a way that makes them accessible to other staff.
- Personal Computers linked to an IT System In many program offices, staff members will have a
 personal computer that is connected to an office "shared server" AND that can be connected to
 their LIHEAP IT System(s). For example, they might have a "link" on their personal computer
 desktop that allows them to input information about a program applicant into the system. The IT
 System then might automate the process of verifying program eligibility, calculating program
 benefits, and sending funds to energy vendors.

In this section of the survey, we are asking you to give us general information on the information system or systems that you use to administer your LIHEAP program.

A1 - Do your staff have the following types of equipment that they use to do their jobs?

- Personal computer
 - o Yes
 - o No
- Tablet

- o Yes
- o No
- Smart phone
 - o Yes
 - o No
- Mobile phone without internet access
 - o Yes
 - o No
- Terminal connected to an IT System that is not a personal computer
 - o Yes
 - o No

A2 – Thinking about the definitions outlined above, do your staff have access to a network server that allows them to share information with other program staff?

- Yes
- No

A3 - Please furnish a general description of how your IT System or Systems are used to help you administer the LIHEAP program.

Note: We are just looking for a general description of your system or systems. Later sections for the survey will ask for details on how each business requirement is met.

Click here for example descriptions

Ex. 1:

- LIHEAP System: We have an IT system used to collect and verify client information and determine program benefit eligibility.
- Outreach System: We have a separate system that uses prior year participant information and notifies households of available program benefits.
- Payment System: The State Treasurer's office has a separate payment system that gathers vendor payment information by account and transfers funds electronically.

Ex. 2:

- Local Agencies: Local agencies are responsible for outreach, intake, eligibility determination, and vendor payment.
- State Office Database: Local agencies upload data monthly on households served and benefits paid. Our state office database is used for agency oversight and federal reporting.

Ex. 3:

- Public Assistance System: We have a system used for all DHS' public assistance programs (SNAP, TANF, WIC, Medicaid, LIHEAP) and handles all aspects of LIHEAP except vendor payments and weatherization.
- Vendor Payments: Handled by a separate DHS system.
- LIHEAP Weatherization Services: Handled by Dep. of Community Services.

Space for description ...

The most common business requirements associated with managing LIHEAP include:

- Program outreach
- Client intake/online applications
- Tracking client data
- Tracking benefits
- Eligibility determination
- Benefit determination
- Data verification
- Vendor payments
- Vendor communication
- Applicant/beneficiary communication
- Grant subrecipient/intake agency communication
- Preparing reports for OCS
- Performance management

A4 - Who is responsible for each of these business requirements, your state LIHEAP office, grant subrecipients/intake agencies, or both? (MARK ALL THAT APPLY)

Note: Subrecipients might be Community Action Agencies (CAA) that furnish intake services. Other intake agencies might include state-run local offices, county public assistance offices, and other non-profit organizations.

	<u>Business</u> <u>Requirement</u>	a.	The state is solely responsible	b.	Subrecipients/intake agencies are solely responsible	c.	The state and subrecipients/intake agencies share responsibilities
1.	Program outreach						
2.	Client intake/online applications						
3.	Tracking client data						
4.	Tracking benefits						
5.	Eligibility						
	determination						
6.	Benefit						
	determination						
7.	Data verification						
8.	Vendor payments						
9.	Vendor						
	communication						
10.	Applicant/beneficiary						
	communication						

[IF ANY IN A4 = b OR c, ASK A5]

A5 - Do any of your subrecipients/intake agencies use IT Systems separate from the IT System(s) used by your state LIHEAP office to address any of the business requirements for which they are responsible?

Note: Subrecipients/intake agencies may use multiple IT Systems. If any of their systems differ from the IT System(s) used by the state LIHEAP office, answer options 1 or 2 may still apply, even if they also use a system used by the state.

- 1. Yes. All subrecipients/intake agencies use one or more IT Systems separate from the IT System(s) used by the state.
- 2. In part. Some subrecipients/intake agencies use a different IT System(s) and others only use the same IT System(s) used by the state.
- 3. No. Any subrecipients/intake agencies that use an IT System use the same IT System(s) as the
- 4. No. Subrecipients/intake agencies do not use any IT Systems.
- 5. Other (specify) ______
- 6. Not sure

[ASK A6 IF A5 = 1 OR 2]

A6 - For subrecipients/intake agencies that use IT Systems separate from your state's IT System(s), do they use the same IT System(s) as one another, or do they use different systems? (MARK ALL THAT APPLY)

- 1. All subrecipients/intake agencies use one or more of the same IT Systems.
- 2. Some subrecipients/intake agencies use one or more of the same IT Systems while others use different IT Systems.
- 3. Each subrecipient/intake agency uses one or more unique IT Systems not shared with any other subrecipients/intake agencies.
- 4. Other (specify) ______
- 5. Not sure

[DISPLAY TEXT IF A5 = 1 or 2] Note: You can include any systems used by subrecipients/intake agencies in the count for A7 below.

A7 - How many distinct IT Systems are used to administer your LIHEAP program?

1. Number of IT Systems: _____

[IF A6 > 5, DISPLAY THE FOLLOWING TEXT]

Note: Please report on the IT Systems you consider to be your five most important systems for the remainder of section A.

[IF A7 > 1, DISPLAY TEXT AND ASK A8]

Some grant recipients have one integrated IT System that addresses all aspects of their LIHEAP program administration. Other grant recipients have complementary systems (i.e., systems that automatically

share information) that they use to address different business requirements. Still other grant recipients have systems that work independently (i.e., systems that do not automatically share information).

A8 - Are these IT Systems complementary (e.g., one system for intake and a different system for vendor payment that automatically share information), independent (i.e., systems that do not automatically share information), or are some complementary and others work independently?

- 1. Complementary systems
- 2. Independent systems
- 3. Some that share information and others that do not
- 4. Other (specify) ______

[DISPLAY THIS TEXT IF A7 > 1 AND (A5 = 1 or 2)] Note: For question A9 below, if your subrecipients or intake agencies use too many IT Systems to list individually, you can report on them as one system and enter "Subrecipient/Intake Agency IT Systems" in one of the lines below.

[IF A7 > 1, ASK A9]

A9 - What are the names of the IT Systems used to administer your LIHEAP program?

Note:

- Please enter "NA" for those systems that are not applicable.
- If your IT Systems do not have names, please enter "IT System 1", "IT System 2", etc.
- If an IT System's name is an acronym, you do not need to define the acronym.

1.	11 System 1: _	
2.	IT System 2: _	
3.	IT System 3: _	
4.	IT System 4: _	

5. IT System 5:

A10 - For each of your IT Systems, please select the business requirements it addresses. (MARK ALL THAT APPLY)

Note: If you have more than one IT System, it is possible for a business requirement to be covered by more than one IT System. You can select multiple systems for each business requirement.

Click here for an example of multiple IT Systems

Example: IT System 1 covers program outreach, client intake, tracking client data, and data verification; IT System 2 covers tracking benefits and eligibility determination; IT System 3 covers vendor payments and communication; etc.

[NUMBER OF COLUMNS = ANSWER TO A7; COLUMN NAMES = ANSWER TO A9]

Business Requirement	IT System 1	IT System 2	IT System 3	IT System 4	IT System 5
1. Program outreach					

2. Client intake/online			
applications			
3. Tracking client data			
4. Tracking benefits			
5. Eligibility			
determination			
6. Benefit determination

11. Grant			
subrecipient/intake			
agency communication			
12. Preparing reports for			
OCS			
13. Performance			
management			
14. Other (specify)			

A11 - What LIHEAP program components are covered by your IT System(s)? (MARK ALL THAT APPLY) [NUMBER OF COLUMNS = ANSWER TO A7; COLUMN NAMES = ANSWER TO A9]

	Program Component	IT System				
1.	Heating assistance	1	2	3	4	5
2.	Cooling assistance					
3.	Winter crisis assistance					
4.	Summer crisis assistance					
5.	Year-round crisis					
	assistance					
6.	Weatherization					
7.	Equipment repair and					
	replacement					
8.	Assurance 16					
9.	Other (specify)					

Some grant recipients have a state-run IT System into which all information on applicants is recorded. Other grant recipients have IT Systems that are operated by a statewide partner (e.g., a statewide CAP Association). Still other grant recipients allow each grant subrecipient/intake agency to implement their own IT System for administering the LIHEAP program. It also is common for a grant recipient to implement a hybrid System where the statewide partner or the local agencies have the primary IT System for program administration, but they upload a subset of the information to the state office.

[DISPLAY A12-A13 ON SAME PAGE; NUMBER OF COLUMNS FOR A12-A13 = ANSWER TO A7; COLUMN NAMES = ANSWER TO A9]

A12 - Who designed and/or built the IT System(s) used to administer your LIHEAP program? (MARK ALL THAT APPLY)

		IT System 1	IT System 2	IT System 3	IT System 4	IT System 5
1.	State LIHEAP office					
2.	Other state agency or entity					
3.	Statewide program partner					
4.	A subrecipient/local intake agency					
5.	Private third-party (specify name of company(ies))					
6.	Other (specify)					

A13 - Who maintains the IT System(s) used to administer your LIHEAP program? (MARK ALL THAT APPLY)

		IT System 1	IT System 2	IT System 3	IT System 4	IT System 5
1.	State LIHEAP office					
2.	Other state agency or entity					
3.	Statewide program partner					
4.	A subrecipient/intake agency					
5.	Private third-party (specify name of company(ies))					
6.	Other (specify)					

[IF A12 OR A13 = 5, ASK A14]

A14 - Would you recommend the third party(ies) responsible for designing, building, and/or maintaining your IT System(s) to other grant recipients?

- 1. Yes
- 2. No

[NUMBER OF COLUMNS FOR A15 = ANSWER TO A7; COLUMN TITLES = ANSWER TO A9]

A15 - Who uses the IT System(s) used to administer your LIHEAP program? (MARK ALL THAT APPLY)

	IT System 1	IT System 2	IT System 3	IT System 4	IT System 5
1. State LIHEAP office					

2.	Other state agency or			
	entity			
3.	Statewide program			
	partner			
4.	Subrecipients/intake			
	agencies			
5.	Other (specify)			

[IF (ANY A13 = 1, 2, 3, 5 OR 6) AND (ANY A15 = 4), ASK A16]

A16 - How does information collected by subrecipients/intake agencies get entered into the statewide system?

- 1. Caseworkers enter information directly into the statewide system.
- 2. Caseworkers enter information into a local system that is uploaded to the statewide system when the application is complete.
- 3. Caseworkers enter information into a local system that is uploaded to the statewide system on a periodic basis (e.g., overnight batch processing).
- 4. Other (specify) ______

A17 - Are one or more of your IT Systems used for other public assistance programs besides LIHEAP (e.g., SNAP, TANF, SSI)?

- 1. Yes
- 2. No

[IF NO, SKIP TO QUESTION A19]

A18 - Which other assistance programs are your IT System(s) used for? (MARK ALL THAT APPLY) [NUMBER OF COLUMNS = ANSWER TO A7; COLUMN NAMES = ANSWER TO A9]

Pu	blic Assistance Program	IT System 1	IT System 2	IT System 3	IT System 4	IT System 5
1.	Supplemental Nutrition	-		-	-	
	Assistance Program (SNAP)					
2.	Temporary Assistance for

9.	Health insurance					

enrollment programs (e.g.,			
Affordable Care Act			
marketplace)			
10. Social Security Insurance			
(SSI)			
11. Other (specify)			
12. Not sure			

A19 - When were your current IT System(s) first implemented?

[NUMBER OF ROWS = ANSWER TO A7; ROW NAMES = ANSWER TO A9]

<u>IT System</u>	2021-	2016-2020	2011-2015	2006-2010	2005 or
1. IT System 1	Present				earlier
2. IT System 2					
3. IT System 3					
4. IT System 4					
5. IT System 5					

A20 - Do you have an online document management system for information submitted by program applicants?

- 1. Yes, for all client-supplied documents.
- 2. Yes, for some client-supplied documents.
- 3. No

[IF NO, SKIP TO B1]

A21 - Where does the document management system reside? (MARK ALL THAT APPLY)

- 1. On the state-run IT system
- 2. On a different statewide IT system
- 3. At each local intake agency
- 4. At several different locations
- 5. On a third-party IT system (specify name of third-party) _____
- 6. Other (specify)_____

B. PROGRAM OUTREACH AND REFERALLS

Some grant recipients have developed IT Solutions that alert prior program year beneficiaries and/or beneficiaries of other public assistance programs about the availability of LIHEAP benefits. The questions in this section ask about the different ways that you have used IT Solutions as part of program outreach.

Note: This section focuses on program outreach and referrals, which involve promoting the program and connecting people to it. Program intake, covered in the next section, deals with the process of enrolling participants.

[DISPLAY COLUMN e IN ALL CASES; DISPLAY COLUMN a IF (A4 = 1a OR 1c) OR (A4 = 1b AND (A5 != 1 OR 2)); DISPLAY COLUMNS b-d IF A4 = 1b OR (A4 = 1c AND (A5 = 1 OR 2)); DO NOT DISPLAY COLUMNS b-d IF (A4 = 1c AND (A5 != 1 OR 2)); else DISPLAY ALL FIVE COLUMNS]

B1 - Are IT Solutions used to perform any of the following outreach activities? (MARK ALL THAT APPLY)

3. We do not wish to be contacted by other grant recipients about these solutions.

C. PROGRAM INTAKE

Some grant recipients have developed IT Solutions that reduce the burden on program applicants and increase the quality of the data furnished. This section of the survey asks you whether you have implemented any of those IT Solutions.

C1 - One solution some grant recipients implement is auto-enrolling households who receive benefits from other public assistance programs (e.g., SNAP, TANF, SSI) and/or are prior year LIHEAP beneficiaries without a direct annual application. Do you have an IT Solution for auto-enrollment?

1.	Yes, my LIHEAP program has an auto-enrollment procedure for households who receive benefits
	from the following programs (include LIHEAP if prior year beneficiaries are auto-enrolled):
	a. Please list programs:
2.	No, my LIHEAP program does not have an auto-enrollment procedure.

[IF 2, SKIP TO C4]

C2 - When a client is auto-enrolled, does your IT System send a communication to beneficiaries that tells them the amount of the LIHEAP program benefit and when it will be paid on their account?

- 1. Yes
- 2. No

C3 - With respect to your STATE LIHEAP OFFICE's IT Solution(s) for auto-enrollment, please mark all that apply.

- 1. I would recommend the IT Solution(s) that has been implemented to other grant recipients.
- 2. We are currently upgrading existing IT Solution(s).
- 3. We are in the process of implementing such an IT Solution.
- 4. There is a need to develop additional IT Solutions that are not yet being planned.
- 5. None of the above.

G. INTAKE AGENCY / GRANT SUBRECIPIENT COMMUNCATIONS

Some grant recipients have developed IT Solutions that improve communications with grant subrecipients or other intake agencies. These IT Solutions can improve the performance of subrecipients/intake agencies and potentially reduce the burden on grant recipient staff. This section of the survey asks you whether you have implemented any of those IT Solutions.

[Note: Subrecipients might be Community Action Agencies that furnish intake services. Other intake agencies might include state-run local offices, county public assistance offices, and other non-profit organizations.]

G1 - Do you have an IT Solution for training intake staff? This could include subrecipient, local agency, or state-employed staff. [Note: Some IT vendors are developing new online tools that allow staff to follow an online training curriculum rather than attending training led by a state staff member.]

- 1. Yes. We have an online IT Solution for intake staff training.
- 2. In part. We have some online tools that are part of our in-person training.
- 3. No. Our program staff conduct telephone or onsite training using more traditional methods.
- 4. No. It is the subrecipient's/intake agency's responsibility to provide intake training.
- 5. Other (specify) _____

G2 - With respect to your IT Solution(s) for intake staff training, please mark all that apply.

- 1. I would recommend our IT Solution(s) to other grant recipients.
- 2. We are upgrading existing IT Solution(s).
- 3. We are in the process of implementing such an IT Solution.
- 4. We need an IT Solution like this that is not yet being planned.
- 5. None of the above.

[DISPLAY G3 IF ALL OF A4 = a; ELSE SKIP TO G4]

- G3 Does your LIHEAP program have grant subrecipients and/or local intake agencies?
 - 1. Yes
 - 2. No
 - 3. Other (specify) ______

[IF G3 = 2, SKIP TO G10]

- G4 Do you have an IT Solution for furnishing subrecipients/intake agencies with information on key performance indicators (KPIs)? (Example KPIs include share of allocated funding used, percent of applications incomplete, percent of applications denied.)
 - 1. Yes. Our IT Solution furnishes regular reports to subrecipients/intake agencies on what we consider to be key performance indicators.
 - 2. In part. Our program staff use the IT Solution to develop regular reports that are distributed to subrecipients/intake agencies on what we consider to be key performance indicators.

- 3. No. Our program staff review reports from subrecipients/intake agencies to develop key performance indicators.
- 4. No. We only review key performance indicators as part of our monitoring process.
- 5. Other (specify) ______

G5 - Do you have an IT Solution that enables subrecipients/intake agencies to develop their own KPIs and/or track their own performance data?

- 1. Yes. Our IT Solution publishes information on a dashboard that subrecipients/intake agencies can use to track their own performance.
- 2. In part. Our IT Solution develops hard copy reports that subrecipients/intake agencies can use to track their own performance.
- 3. No. Subrecipients/intake agencies need to track their own performance data.
- 4. Other (specify)

G6 - Do you have an IT Solution in place for distributing funds to subrecipients/intake agencies?

- 1. Yes. We have an IT Solution for distributing funds to all subrecipients/intake agencies.
- 2. In part. We have an IT Solution for distributing funds to some subrecipients/intake agencies, but not all.
- 3. No. Our program staff need to manually facilitate distributing funds to subrecipients/intake agencies.
- 4. Other (specify) ______

G7 - Do you have an IT Solution in place for verifying, reconciling, and tracking invoices submitted by subrecipients/intake agencies?

- 1. Yes. We have an IT Solution for verifying, reconciling and tracking invoices for all subrecipients/intake agencies.
- 2. In part. We have an IT Solution for verifying, reconciling, and tracking invoices for some subrecipients/intake agencies, but not all.
- 3. No. Our program staff need to manually verify, reconcile, and track invoices submitted by subrecipients/intake agencies.
- 4. Other (specify) ______

G8 - Do you have an IT Solution that automates the process of developing financial and other performance statistics for your subrecipient/intake agency monitoring?

- 1. Yes. Our IT Solution furnishes standard reports that our monitoring staff can use to conduct monitoring of subrecipients/intake agencies.
- 2. In part. Our program staff can query our IT Solution to examine many aspects of subrecipient/intake agency performance but not all aspects.
- 3. No. Our program staff review reports from subrecipients/intake agencies to develop information for monitoring subrecipient/intake agency performance.
- 4. Other (specify)

G9 - With respect to your STATE LIHEAP OFFICE's IT Solutions for subrecipient/intake agency communications, please mark all that apply.

IT S	<u>olution</u>	I would recommend our IT Solution(s) to other grant recipients.	We are currently upgrading existing IT Solution(s).	We are in the process of implementing such an IT Solution.	We need an IT Solution like this that is not yet being planned.	None of the above.
1.	Communicating with subrecipients/intake agencies regarding key performance indicators					
2.	Enabling subrecipients/intake agencies to track their own performance					
3.	Distributing funds to subrecipients/intake agencies					
4.	Verifying, reconciling, and tracking invoices submitted by subrecipients/intake agencies					
5.	Monitoring subrecipients/intake agencies

H. ENERGY VENDOR COMMUNICATIONS

Some grant recipients have developed IT Solutions that improve communications with energy vendors. These IT Solutions can improve the quality and timeliness of crediting benefits and potentially reduce the burden on grant recipient staff, intake agency staff, and energy vendor staff. This section of the survey asks you whether you have implemented any of those IT Solutions.

[DISPLAY H1 & H2 ON SAME PAGE]

H1 - Does your STATE LIHEAP OFFICE have an IT Solution for validating energy vendor authenticity?

- 1. Yes. We have an IT Solution that automates the process of validating the authenticity of energy vendors.
- 2. In part. We have an IT Solution that automates the process of validating the authenticity of some energy vendors, but not all.
- 3. No. Our program staff must manually validate energy vendor authenticity.
- 4. Other (specify)

H2 - With respect to your STATE LIHEAP OFFICE's IT Solution(s) for validating energy vendor authenticity, please mark all that apply.

- 1. I would recommend our IT Solution(s) to other grant recipients.
- 2. We are upgrading existing IT Solution(s).
- 3. We are in the process of implementing such an IT Solution.

H7 - Do your SUBRECIPIENTS/INTAKE AGENCIES have an IT Solution for automating communication with energy vendors regarding client eligibility?

- 1. Yes. All subrecipients/intake agencies have an IT Solution that automates communication with at least some energy vendors regarding client eligibility.
- 2. In part. Some, but not all, subrecipients/intake agencies have an IT Solution that automates communication with energy vendors regarding client eligibility.
- 3. No. Subrecipient/intake agency staff develop materials to communicate with energy vendors regarding client eligibility.

4.	Other (specify)	l

H8 - With respect to your SUBRECIPIENTS'/INTAKE AGENCIES' IT Solution(s) for automating communication with energy vendors regarding client eligibility, please mark all that apply.

- 1. I would recommend their IT Solution(s) to other grant recipients.
- 2. They are currently upgrading existing IT Solution(s).
- 3. They are in the process of implementing such an IT Solution.
- 4. They need an IT Solution like this that is not yet being planned.
- 5. None of the above.

[DISPLAY H9 IF A4 = 8b OR (A4 = 8c AND (A5 = 1 OR 2))]

H9 - Do any of your SUBRECIPIENTS'/INTAKE AGENCIES' have an IT Solution for any of the following vendor payment activities? (MARK ALL THAT APPLY)

		Yes. All subrecipients/in take agencies have an IT Solution.	In part. Some, but not all, subrecipients/intak e agencies have an IT Solution.	No. Subrecipient/in take agency staff need to manually perform this activity.	Other (specify in additional informatio n box below)	Not sure
1.	Automating benefit payments					
2.	Ensuring that energy vendors are applying the correct benefit amount to beneficiarie s' accounts					
3.	Receiving information from energy vendors regarding refunds					
4.	Preventing duplicate and/or improper payments					
5.	Detecting duplicate and/or improper payments					
6.	Correcting duplicate and/or improper payments

I. REPORTING TO OCS

Some grant recipients have developed IT Solutions that partially or fully automate the process of preparing mandatory reports for OCS. These IT Solutions can improve the quality and timeliness of reporting, and potentially reduce the burden on grant recipient staff, intake agency staff, and energy vendor staff. This section of the survey asks you whether you have implemented any of those IT Solutions.

I1 - Do you have an IT Solution for preparing the following reports to submit to OCS?

Report	Yes. We have an IT Solution that automates the process of preparing the report	In part. We have an IT Solution that develops some, but not all the statistics required for the report.	No. Our program staff need to extract information from standard reports to develop statistics.	No. Our program staff need to extract information from reports submitted by subrecipients/intake agencies to develop report statistics.	Other (Specify in additional information box below)
1. Household Report					
2. Performance Data Form Module 1 (Grantee Survey)					
3. Performance Data Form Module 2 (Performance Measures)					
4. LIHEAP Quarterly Performance and Management Report					
5. Carryover & Reallotment Report					
6. SF 425 Report					

I2 - The Grantee Survey requires you to track obligated funds rather than expended funds. Do you have an IT Solution that automates the process of tracking obligated funds?

- 1. Yes. We have an IT Solution that automates the process of tracking obligated funds.
- 2. In part. We have an IT Solution that automates the process of tracking some obligated funds, but not all.
- 3. No. Our program staff need to extract information from standard reports that can be used to develop statistics related to obligated funds.
- 4. No. Our program staff need to extract information from reports submitted by subrecipients/intake agencies to develop statistics related to obligated funds.

5. Othe	(specify)
---------	-----------

13 - With respect to your STATE LIHEAP OFFICE's IT Solution(s) for preparing OCS reports, please mark all that apply.

	<u>Solution</u>	I would recommend our IT Solution(s) to other grant recipients.	We are currently upgrading existing IT Solution(s).	We are in the process of implementing such an IT Solution.	We need an IT Solution like this that is not yet being planned.	None of the above.
1.	Household Report					
2.	Performance Data Form Module 1 (Grantee Survey)					
3.	Tracking funds for Grantee Survey					
4.	Performance Data Form Module 2 (Performance Measures)					
5.	LIHEAP Quarterly Performance and Management Report					
6.	Carryover & Reallotment Report	_				
7.	SF 425 Report					

I4 - You indicated that you would recommend one or more IT Solutions for preparing OCS reports to other grant recipients. Who should they contact for more information about these solutions? (MARK ALL THAT APPLY)

J. PERFORMANCE MANAGEMENT

Some grant recipients have developed IT solutions that reduce the administrative burden of Performance Management responsibilities, including gathering, analyzing, and using Performance Measures data as well as completing Module 2 of the Performance Data Form. The questions in this section ask about the different ways that you have used IT Solutions for Performance Management.

J1 - Performance Management requires grant recipients to collect energy bills and other types of data from energy vendors. One potential IT Solution to obtain data from vendors is through a digital exchange platform that furnishes data. Which of your energy vendors furnish information to you in this way?

1.	Electric	ity Vendors
	a.	All
	b.	Some
	c.	None
2.	Natura	Gas Vendors
	a.	All
	b.	Some
	c.	None
3.	Fuel Oi	I/Kerosene Vendors
	a.	All
	b.	Some
	c.	None
		Not applicable – no fuel oil/kerosene vendors participate in LIHEAP program
4.		e Vendors
	a.	All
		Some
		None
	d.	Not applicable – no propane vendors participate in LIHEAP program
DISPL/	Y J2-J9 (ON SAME PAGE]
J2 - Ap	proxima	tely how many ELECTRIC vendors are there in your state?
1	Numbo	er of clastric vandors.
1.	Numbe	er of electric vendors:
J3 - Fro	m how	many ELECTRIC vendors do you collect data?
1.	Numbe	r of electric vendors:
J4 - Ap	proxima	itely how many NATURAL GAS vendors are there in your state?
1.	Numbe	er of electric vendors:
F		NATURAL CAC
J5 - Fro	om now	many NATURAL GAS vendors do you collect data?

J7 - Fr	om how many FUEL OIL/KEROSENE vendors do you collect data?
1.	Number of fuel oil vendors:
J8 - A _l	= 4d, DISPLAY J8 AND J9] oproximately how many PROPANE vendors are there in your state? (If there are over 100 and the number is unknown, enter 100.)
1.	Number of propane vendors:
J9 - Fr	om how many PROPANE vendors do you collect data?
	Number of propane vendors:
relate	Section VI of Module 2 of the Performance Data Form requires that you track certain information d to the restoration of lost home energy service for clients who have already lost it. Which of the ing types of information do you collect? (MARK ALL THAT APPLY)
1. 2.	Whether a client's service has been disconnected by natural gas or electric company Whether a client is out of fuel oil/kerosene, propane, or other delivered fuel [DISPLAY IF J1 != 3d OR J1 != 4d]
3. 4.	Whether a client's home natural gas or electric service was restored with a LIHEAP benefit
5.	The main heating fuel of the client who lost home energy service (this may be different than the fuel for which home energy service was lost)
6. 7.	Other (specify) None of the above
inform	Section VII of Module 2 of the Performance Data Form requires that you track certain nation related to preventing the loss of home energy service for clients at risk of losing it. Which following types of information do you collect? (MARK ALL THAT APPLY)
_	Whether a client has a past due or shutoff notice from natural gas or electric company
2.	Whether a client is nearly out of fuel oil/kerosene, propane, or other delivered fuel [DISPLAY IF J1!= 3d OR J1!= 4d]
3.	Whether the loss of a client's home natural gas or electric service was prevented with a LIHEAP benefit
4.	
5.	The main heating fuel of the client at risk of losing home energy service (this may be different than the fuel for which the client is at risk of losing home energy service)
6.	Other (specify)

J6 - Approximately how many FUEL OIL/KEROSENE vendors are there in your state? (If there are over

100 and the exact number is unknown, enter 100.)

1. Number of fuel oil vendors: _____

7. None of the above

[IF J11 = 7 AND J12 = 7, SKIP TO J14] J12 - How do you collect information about the status of each client's home energy service (e.g., whether a client has lost home energy service or has received a disconnection notice)? (MARK ALL THAT APPLY)
 From client From utility/vendor Other (specify)
J13 - When a LIHEAP benefit is used to restore or prevent the loss of a client's home energy service, does your IT system associate each restoration/prevention occurrence with the specific client's record or file in your system, or do you only track the total number of occurrences without linking each occurrence to individual clients?
 Each occurrence is tracked in a specific client's record or file in our IT System. Only a total count of occurrences is tracked. Individual occurrences are not associated with a specific client's record or file. Other (specify)
J14 – Section VI of Module 2 of the Performance Data Form requires that you track certain information related to repairing or replacing inoperable home energy equipment. Which of the following types of information do you collect? (MARK ALL THAT APPLY)
 Whether a client's heating or cooling equipment is inoperable The fuel type of the inoperable equipment (this may be different than the client's main heating fuel)
3. Whether a client's inoperable heating or cooling equipment has been repaired or replaced using a LIHEAP benefit
4. Other (specify)5. None of the above
J15 - Section VII of Module 2 of the Performance Data Form requires that you track certain information related to repairing or replacing operable home energy equipment to prevent imminent home energy loss. Which of the following types of information do you collect? (MARK ALL THAT APPLY)
 Whether a client's heating or cooling equipment is operating but is at "imminent risk" of becoming inoperable
 The fuel type of the equipment (this may be different than the client's main heating fuel) Whether a client's operable heating or cooling equipment has been repaired or replaced using a LIHEAP benefit

[IF J14 =5 AND J15 = 5, SKIP TO J17]

4. Other (specify) _____5. None of the above

J16 - How do you collect information about the clients' equipment? (MARK ALL THAT APPLY)

1	_			• .
1.	⊢r	nm.	\sim	ient
1.		OHI	v	ICIIC

- 2. From weatherization department (e.g., audit report)
- 3. From HVAC contractor
- 4. From energy vendor/utility
- 5. Other (specify) _____

J17 - When a client's home energy equipment has been repaired or replaced using a LIHEAP benefit, does your IT system associate each occurrence with the specific client's record or file in your system, or do you only track the total number of occurrences without linking each occurrence to individual clients?

- 1. Each occurrence is tracked in a specific client's record or file in our IT System.
- 2. Only a total count of occurrences is tracked. Individual occurrences are not associated with a specific client's record or file.
- 3. Other (specify) _____

J18 - With respect to your STATE LIHEAP OFFICE's IT Solutions for collecting performance data, please mark all that apply.

<u>IT</u>	<u>Solution</u>	I would recommend our IT Solution(s) to other grant recipients.	We are currently upgrading existing IT Solution(s).	We are in the process of implementing such an IT Solution.	We need an IT Solution like this that is not yet being planned.	None of the above.
1.	Collecting data from electric vendors					
2.	Collecting data from natural gas vendors					
3.	Collecting data from fuel oil/kerosine vendors [DISPLAY IF J1!=3d]					
4.	Collecting data from propane vendors [DISPLAY IF J1!=4d]					
5.	Collecting information about clients' home energy service					
6.	Collecting information about clients' home					

energy equipment

J19 - Aside from generating the mandatory reports required by OCS, advanced IT Solutions can support various technical functionalities to enhance data accessibility and utility. These functionalities might include automated generation of both canned reports for routine needs and ad-hoc reports for specific inquiries, data dashboards for real-time data monitoring and analysis, and more.

Do you have an IT Solution to apply Performance Measures data for any of the following advanced functions? (MARK ALL THAT APPLY)

- 1. Standardized or Canned Reports (automatically generated reports that follow a pre-set format and content structure, designed to cover common reporting requirements or information queries without the need for manual customization)
- 2. Ad-Hoc Reports (custom reports created upon request, allowing users to specify unique parameters and criteria to explore specific data points or trends)
- 3. Data Dashboards (interactive visual interfaces that display key metrics and performance indicators)
- 4. Other (specify) _____
- 5. None of the above

J20 - Some grant recipients opt to share their Performance Measures Data with other stakeholders. Do you share your Performance Measures data with any of the following stakeholders? (MARK ALL THAT APPLY)

- 1. Subrecipients/intake agencies
- 2. Other state agencies or social services programs
- 3. Energy vendors/utilities
- 4. Other (specify) _____
- 5. None of the above

[IF 5, SKIP TO J22]

J21 - How is data shared with other stakeholders? (MARK ALL THAT APPLY)

- 1. Stakeholders send a request for data, and we transfer data via an FTP exchange.
- 2. Stakeholders can access data through a publicly available Data Dashboard or other online data sources.
- 3. Stakeholders can access data through an online data source that requires an account for access.
- 4. Other (specify) _____

J22 - With respect to your STATE LIHEAP OFFICE's IT Solutions for advanced functionalities for using and sharing data, please mark all that apply.
