Start of Block: Instructions

Head Start Collaboration Office Annual Report

Welcome to the revised Head Start Collaboration Office (HSCO) Annual Report for the 2022-2023 calendar year. Below are a few instructions before getting started.

Special Instructions. Special instructions are included in *blue italic font* throughout the survey primarily to provide clarification.

Use of the Title "HSCO Director". We recognize that not all leads of the HSCO grant use the title "HSCO Director" (e.g., HSCO Coordinator). However, for this report, the title "HSCO Director" is used to represent this person regardless of title. In cases when "you" or "your" is used, it is also referring to the HSCO grant lead.

Progress Automatically Saves. As you proceed through the survey, your completed responses are automatically saved. If you close your survey before completion, you can use the same survey link to return to the survey without losing any of your progress.

Retaining a Copy of Your Responses. Shortly after submitting your survey, you will receive an e-mail with a copy of your responses. Please upload this copy of your responses into your grant file in your "Annual Report" folder under the Documents tab in HSES.

Thank you for taking the time to complete this report.

PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13) STATEMENT OF PUBLIC BURDEN: The purpose of this information collection is to capture performance and progress data from recipients of Head Start Collaboration Office grant funding. Public reporting burden for this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. This is a voluntary collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The OMB # is 0970-0490 and the expiration date is 03/31/2026. If you have any comments on this collection of information, please contact Beth Caron at Beth.Caron@acf.hhs.gov.

Instruction: How to Report Your Level or Involvement

Throughout this section, you will use a scale from 0 to 3 to indicate your level of involvement, as defined below. **Review these definitions carefully to prepare for this section.** Note that you can still report impacts for areas where you report low involvement in a later section. You can still have high impact with low involvement.

0 = means this area was not a focus of work or priority during the past year; due to the nature of HSCO grants, it is expected that not every topic will be addressed every year.

1 = means you attended meetings or events associated with this topic area on an infrequent basis (e.g., once a quarter or a few times a year), involved through minimal correspondence or discussions, and/or provided minimal review or input on materials associated with the topic area. This includes maintaining systems or initiatives that are already underway and only require minimal engagement to monitor or keep on track.

2 = means you regularly worked in this area throughout the past year (e.g., monthly discussions and meetings), worked substantively on a time-bound project that lasted multiple

weeks or a few months, and/or provided substantive review or input on materials on a periodic basis (e.g., monthly).

3 = means you spent a considerable amount of time working on this topic area on a frequent basis (e.g., weekly) throughout most or all of the year.
